Introducing the Micro-Mark Acrylic Paint Line – Made in USA!

Painting and finishing are key components to almost every project. With 96 years of experience in the hobby / maker space, Micro-Mark has time-tested expertise in providing the best and most innovative paints, brushes, airbrushes, finishing supplies and painting equipment to our customers. Recently, the demand for quality paint products has exceeded supply and as a solution to this issue, Micro-Mark is pleased to introduce the Micro-Mark Acrylic Paint Line.

The Micro-Mark Acrylic Paint Line has been developed and tested by our expert in-house team to give model builders, miniaturists, figure artists and other makers a new option when choosing paint for their projects. Featuring the most widely requested selection of basic colors, our matte-finish acrylic paint sets provide consistent color, solid coverage and smooth application in both brush-on and airbrush formulations. Additionally, we also offer white, gray and black primer for paint brush and airbrush use, plus our own thinners, acrylic paint cleaner, airbrush flow improver and retarder medium, giving you a complete paint system for reliable results every time. Our water-based acrylic paint products are non-toxic and proudly made in the USA.

A Micro-Mark Exclusive!

NEW!

Create Realistic Stone Features, Walls, Beaches, Roads, Earth Effects and More with Micro-Mark Terra Textures

Whether used directly from the jar, mixed with other media, or even blended with acrylic paints, Micro-Mark Terra Textures add visual and tactile realism to dioramas, vignettes and more. Each acrylic-based Terra Textures medium is pre-mixed and pigmented to replicate a specific texture: Stone, Sand, Brown Earth and Dark Earth. When wet, Terra Textures can be applied to virtually any surface and may be shaped, brushed, etc. to create a wide variety of special effects. When dry, Terra Textures are hard, strong and durable. Use acrylic paints and washes to simulate weathering and add amazing depth and detail to all kinds of scenic and natural elements. Easy clean-up with soap and water. Provided in 8 oz. jars. 2-year shelf life.*

#29317 Micro-Mark Terra Textures Brown Earth \$13.95

#29318 Micro-Mark Terra Textures Dark Earth \$13.95

*When stored properly.

Airbrush Micro-Mark and Vallejo Paints Right Out of the Bottle!

Our unique reusable Paint Feed Adapters allow paint bottles to attach directly to the airbrush body. Use in place of the detachable M6 x .75 thread fluid cup on fravily fed airbrushes to change colors in an instant, with less mess and easier cleaning!

#91147 Airbrush Paint Feed Adapter for Micro-Mark Paints, Set of 5. \$19.95

#90833 Airbrush Paint Feed Adapter for Vallejo and other 17 ml (0.5 oz) paint bottles, Set of 5. \$19.95

Paint and Airbrush not included.

A. #86116 MicroLux® Pistol-Grip Airbrush Set has a professional feel for projects of all types and sizes. Trigger action controls air flow; adjustable needle controls spray pattern. Gravity-feed, internal-mix gun works with most paints, stains and washes. Set includes airbrush; 3 paint cups: 2 cc, 5 cc with lid, and 13 cc with lid; 2 extra tip assemblies; 3 needles (0.3, 0.5, and 0.8 mm); wrench, 6' long braided hose; fitted case; and instructions. List \$120.00 ... Our Price **\$89.95**

B. #86110 MicroLux® Double-Action Airbrush Set Internal-mix airbrush features a down-and-back trigger that controls both air flow and paint flow. Converts to single-action simply by turning a set screw. Set includes airbrush, two 22 cc (3/4 oz) glass jars, metal jar adapter with pickup tube, one metal color cup, 5' vinyl air hose, hang-up hook, nozzle/hose wrench, protective metal nozzle cap, and fitted storage case. **\$44.95**

C. #86108 Portable Air Compressor Compact in size and weighing just under 8 lbs., this smooth-running, nicely-built air compressor goes where you need it. Auto start/stop means it only runs when you press the trigger on your airbrush, and oil-less, maintenance-free, piston-type construction provides smooth operation with low noise. Includes carry handle, sound-deadening suction cup feet and 1/8" BSP adaptor. Overall size: 10" x 5-5/16" x 6-11/16". Air output: 0.7 to 0.8 cfm. Delivers 20 – 30 psi. List \$120.00 **\$99.95**

D. #86113 MicroLux® Compressor-mounted Pressure Regulator/Gauge/Moisture Trap lets you control the air pressure you need for the type and consistency of paint being sprayed. Regulates airflow from 0 to 150 psi (0 to 10 bar). Built-in moisture trap removes finish-ruining condensation...even on humid days. Fits most hobby/art air compressors with standard 1/4" NPT male outlet fitting. Includes 1/4" fitting. **\$29.95**

E. #86109 MicroLux® Twin-Cylinder Portable Air Compressor Built with special care for the demanding hobbyist-artist, this sturdy, case-mounted air compressor is equipped with features desired by professional airbrush users: 1/4 hp motor-driven twin-cylinder compressor for powerful delivery; 3.5 liter air tank to eliminate pulses that cause paint application problems and reduce compressor cycling; Auto-start/stop switch for continuous replenishment of air tank; Adjustable regulator and pressure gauge for spraying various types of paint; Moisture trap and oil-less piston design eliminates paint contamination; Sound-deadening, ventilated metal enclosure for quiet operation and long life. Air output: 35 to 40 liters/minute. Pressure adjust range: 0 to 57 psi. Auto start at 43 psi; auto stop at 57 psi. Includes carry handle, suction-cup feet, two airbrush holders, thermally-protected motor, 6' line cord, and body-mounted on/off switch. Weight: approx. 24 lbs. Overall size: approx. 14" long x 5-1/2" wide x 14" high. 110VAC. List \$220.00 **\$214.95***

*Use our website shopping cart to calculate freight charge for shipments outside the 48 contiguous United States.

F. #86539 Whisper Air Compressor Weighing in at just under 9 lbs., this sleek, easily-transported and affordable compressor performs well and looks great doing it. Use the compressor in auto start/stop mode and it runs only when you press the trigger on your airbrush. Or, use the built-in pressure gauge to dial-in the optimal pressure you need (anywhere from 5 to 57 psi) for spraying your choice of media with a continuous, controlled flow. Either way, its oil-less, maintenance-free, piston-type construction provides smooth operation with very low noise, and its internal tank with water drain valve provides dry, pulse-free air flow. Motor: 1/6 hp., 120VAC with 5' cord; body-mounted master on/off switch. Includes 2 airbrush holders, convenient carry handle and sound-deadening feet. Overall size: 5-1/2" wide x 10" deep x 8" high. Air output: up to 0.81 cfm. Delivers up to 57 psi. MicroLux® brand. List \$200.00 ... Our Price **\$139.95**

G. #86114 Mini Filter attaches directly to your airbrush* to remove moisture, oil and dust. Includes clear filter bowl and spring-loaded drain valve. 1/8" BSP fittings: male on one end; female on the other. **\$13.95 2 or more \$9.95 each** *1/8" BSP male fitting required

H. #86115 Air Hose Durable, highly-flexible cloth-braided air hose with 1/8" BSP female fitting on one end and 1/4" BSP female fitting on the other (fits typical 1/4" NPT compressor output fitting). 3 meters (approx. 10') long. **\$14.95 2 or more \$10.50 ea.**

J. #86117 Glass Paint Jars Set of ten 22 cc (3/4 fl-oz) glass jars with plastic caps. 30/400 threaded caps are compatible with MicroLux® brand airbrushes. Foam seals inside caps help keep paint fresh between projects. **\$19.95 2 or more sets \$14.95/set**

K. #86119 Pressure Reducing Valve 1/8" BSP male/female **\$8.95 2 or more \$7.25 ea.**

L. #86120 Air Line Adapter 1/8" BSP male to 1/4" BSP male **\$6.95 2 or more \$5.65 ea.**

M. #86121 Air Line Adapter 1/8" BSP M to 1/4" BSP female **\$6.95 2 or more \$5.65 ea.**

N. #86122 Air Line Adapter 1/4" NPT male compatible **\$6.95 2 or more \$5.65 ea.**

P. #86107 Spray Booth Turntable Included with Fold-Up Booth. **\$13.95 2 or more \$10.95 ea.**

Micro-Mark BRUSHCAM

A Micro-Mark Exclusive!

BrushCAM is the Next Level of Innovation for Detail Painting

Invented by our in-house Product Development Team and produced exclusively for Micro-Mark, BrushCAM virtually gives you eyes on the end of your brush for an unprecedented view of the object you are painting in real time. Ideal for detail work, BrushCAM greatly magnifies the tip of your paint brush so you clearly see that which you could never see with your eyes alone. Using the latest WiFi technology, this amazing tool wirelessly broadcasts a sharp video image directly to your phone or tablet through a dedicated, easy-to-use app, opening up a previously unseen view of your work right before your eyes. It also provides its own brilliant illumination with a LED-lighted tip, so even the darkest recesses of your workpiece will show up bright and crisp onscreen.

In typical use, BrushCAM employs a specially-designed adapter to connect the camera to your brush so they work together seamlessly as a single unit; the camera is basically an extension of your paint brush. You can increase and decrease magnification by moving the camera closer to or farther away from the tip of your paint brush. Because the camera has a fair range of focal length, you can also hold the BrushCAM in one hand while you hold your brush with the other for even more flexibility and versatility. This way, the camera remains relatively stationary while you move the paint brush, allowing you to paint confidently in the most confined spaces. You can even use the camera unit by itself for close-up inspection in hard-to-see areas. Regardless of how you choose to use it, a single 1 hour charge will provide up to 1.5 hours working time.

The free-for-download, Android and Apple iOS compatible SeekBird app was developed specifically for use with BrushCAM's camera, and has many great features as well, including capturing video and still images and storing them directly into separate albums on your device, the ability to flip the view onscreen to mirror image while you work, and more.

Set includes the BrushCAM camera unit with onboard USB-rechargeable battery, camera/brush adapter, hex wrench for adjusting adapter set screws, USB charging cable, three high-quality wood-handled brushes with 0/15 detailer tip, 0/15 shader flat tip and 0/15 pointed flat tip, a handsome foam-fitted case with magnetic closure, and complete instructions. Take your detail painting to the next level with Micro-Mark BrushCAM. *Ships by ground to 48 contiguous United States only.*

#90336 Micro-Mark BrushCAM \$79.95

Liang Models Texturing Tools Add Eye-Catching Detail

Excellent for use with our Foam Clay and other media, these clever 3D printed tools make complex texturing and imprinting tasks fast, easy, consistent and repeatable. Add a higher level of realism and detail to your military models, dioramas and more.

#91140 Liang Models Zimmerit Coat Tools Bundle These innovative 1/72, 1/48 and 1/35 scale tools accurately and quickly replicate the unique look and texture of Zimmerit Coat. Excellent for use with our Foam Clay. **\$24.95**

#91139 Liang Models Bootprint and Handprint Tools Bundle includes 1/35 scale left and right WWII American, German, and Russian boot tread patterns, plus 1/72, 1/48, 1/35, 1/32 and 1/24 scale hand patterns. **\$24.95**

Micro-Mark Multipurpose Foam Clay is the Secret Weapon for Railroad Modelers, Diorama Builders, Cosplayers, and More!

This is one of those unique, new products you'll wish you had all along. Incredibly light-weight, instantly sculptable, infinitely moldable, and immediately intuitive, Micro-Mark Foam Clay can be used to create almost anything, from amazingly realistic simulated rock faces, stone walls, and other landscape elements on model railroads and dioramas, to larger-than-life wearable masks, embellishments and more for cosplay and costuming. Ready-to-use right out of the bag, you can simply tear off a piece and get to work. Sculpt it freehand or with tools, press it into a mold or onto textured surfaces, roll it out and cut it into shapes. This non-toxic, odor-free, non-staining material does pretty much whatever you want, better than you can imagine.

Once dry, whatever you've made can be painted, weathered, glued, etc. You can also build fresh Foam Clay onto your existing creations. Just keep in mind that the material will shrink a bit as it dries. And when we say Foam Clay is light-weight we mean it...the entire 8" x 8" x 2" bag weighs only 500 g (and even less when dry), yet provides plenty of material for a multitude of projects. As with any new medium, trial and error experimentation will yield the best results, but the fun factor begins as soon as you open the bag.

#91069 Foam Clay, 500 g \$9.95 2 or more \$8 each

NEW!

This realistic rock wall was made by pressing Foam Clay onto a rock from the yard, then painting, detailing and finishing with natural elements.

A Micro-Mark Exclusive!

Keep Model Kit Sprues Neat & Organized While You Work

#90849 Micro-Mark Model Kit

Sprue Holder helps organize your kit build, keeps your workspace tidy and makes moving your project from tabletop to desk or bench a breeze!

Formed from ultra-sturdy, high-impact polystyrene, it's perfect for all types of parts sprues including resin, plastic, metal and laser-cut wood. Arrange your model sprues by letter/number and make finding the one you need much easier! Holds up to 16 sprues.

\$19.95

Tools, cement, etc. are not included.

These Brushes Help You Master Dry Brushing

A. #81081 #2 Dry Brush \$7.95

B. #81080 #4 Dry Brush \$8.95

C. #81079 #6 Dry Brush \$9.95

D. #81078 #8 Dry Brush \$12.95

#81082 Set of 4 SAVE! \$34.95

Dry brushing is a technique that lightens raised details on models and miniature figures; for example, rivets, tank treads and buttons on a coat. By wiping almost all of the paint from a specially shaped brush, just a touch of color is needed to create subtle highlights for a realistic, artistic appearance. Our special brushes are made of the finest Mongolian sable and have the perfect texture and shape for mastering dry brushing techniques. Brushes are approx. 7" long with lacquered hardwood handles and seamless nickel ferrules.

Unique, Self-Contained, Portable Airbrush System Allows You to Paint Anywhere, Anytime!

One of the most innovative tools we've seen in years, this go-anywhere Self-Contained Portable Airbrush is a marvel of technology and engineering. An onboard, rechargeable lithium-ion battery activates the built-in air compressor, filling its integral tank with a supply of pressurized air that will power the airbrush for about 40 minutes of work time on a full 1 to 1.5 hour charge. Delivering a maximum of 25 psi at 7L/min., and weighing just 12 ounces, this dual-action airbrush has surprisingly good balance, feel and ergonomics, fitting very nicely in the hand. Equipped with a 0.3 mm nozzle, this high-quality airbrush has all the adjustability and features found in high-end conventional airbrushes and is designed primarily for fine detail work and moderate coverage with relatively thin paints, stains, inks, dyes and washes. From detailing the flame paint job on your 1:1 hotrod in the driveway, to weathering a model locomotive on your railroad layout, to painting temporary tattoos at the county fair, this versatile tool is a must-have for virtually every airbrush user. Set includes fully assembled, dual-action red anodized and polished chrome airbrush body, red anodized compressor/tank with auto start/stop and built-in battery, three top-mounted paint cups with lids: chrome 7 cc, plastic 20 cc and 40 cc with graduations, pipette, 3' USB charging cable, air hose adapter (to use the airbrush with a conventional air compressor and/or inline moisture trap), inline moisture trap adapter, and fitted hardshell case with magnetic closure.

#89747 Micro-Mark Self-Contained Portable Detail Airbrush Set (Red & Chrome) \$109.95*

#90221 Micro-Mark Self-Contained Portable Broad-Spray Airbrush Set (Black & Chrome) is identical to the airbrush above, except the 0.5 mm nozzle produces a wider spray pattern, ideal for larger projects with greater coverage. **\$109.95***

#89671 MicroMini Compact Air Compressor

#91060 Micro-Mark External Mix, Siphon Feed Airbrush Set This easy-to-use, easy-to-clean airbrush is designed for use with the powered compressor tanks of our Portable Airbrushes (or with #91149, sold separately). The included 40 ml bottle holds plenty of paint for larger jobs with less refilling. 0.3 and 0.5 mm nozzles provide smooth coverage with a wide variety of paints, inks, stains, etc. External mix means the paint doesn't flow through the airbrush, allowing for super-fast color changes. Set includes single-action airbrush unit, 0.3 and 0.5 mm nozzles/bottle holders with siphon tubes, 40 ml paint bottle, air hose fitting and cleaning needle. Set makes a great accessory to your Micro-Mark Portable Airbrush, or as a stand-alone airbrush alternative. **\$21.95**
See our website for extra bottles & tubes

#91061 Micro-Mark Paint Marker Airbrush Adapter System Designed for use with the powered compressor tanks of our Portable Airbrushes (or with #91149, sold separately), our Paint Marker Airbrush Adapter is one of the easiest and most economical ways to enjoy the benefits of airbrush painting without any extra equipment or messy clean-up. Simply attach the Airbrush Adapter to the compressor, position a paint marker in the built-in holder, push the trigger, and start painting. Set includes 4 different slide-on marker holders to accommodate a wide variety of paint markers, plus an air hose adapter for use with standard compressors. **\$16.95**

NEW! #29314 Set of 120 Markers Double-ended alcohol-based markers in an amazing array of colors, plus organizer box. **\$39.95**

See our website for video

NEW! #91149 Self-Contained Portable Air Compressor Use it as a spare for the airbrushes above, or for exceptional portable performance to power our #91060 and #91061 airbrushes (below left), or for any other compatible airbrush. Includes black compressor unit and USB charging cable. **\$79.95**

#89671 MicroMini Compact Air Compressor Perfect for use when you want a really cool, tiny air compressor you can take just about anywhere, our super-quiet and efficient MicroMini Compact Air Compressor gets the job done like no other. Weighing in at a mere 19 oz and only 4-1/4" x 4-1/4" x 2" tall, this palm-size performer consistently delivers 25 psi at 10L/min., providing all the airflow you need for airbrushing. Its small size and ample output make it ideal for airbrushing wherever there's a power source to plug it into. Includes high-quality, braided cloth-covered, 6-foot hose with metal 1/8" BSP female fittings, top-mounted airbrush holder, on/off button with LED indicator, non-slip rubber feet, and power supply with 3-foot cord. **\$49.95**

Deluxe Portable Fold-Up Spray Booth Has It All!

Our all-time favorite spray booth provides the platform for our most tricked-out, "hot rod" version yet! Outfitted with every available accessory, this feature-packed Deluxe Edition is sure to become the go-to workhorse of your shop. Booth includes integrated LED lighting system, airbrush holder and tray attachment, exhaust duct system, turntable with six parts holder clips, and filter.

#91152 Deluxe Edition Portable Fold-Up Spray Booth \$169.95

Paints, airbrush and model are not included.

MicroLux® spray booths eliminate the hazards of spraying paint in confined areas. Inside the base of the downdraft-style booth is a powerful, brushless exhaust fan which draws paint overspray from inside the durable metal hood and passes it through a three-stage filter which removes pigment particles and solvent vapors, then vents the cleaned air outside the work area. The clear window which forms the top of the hood lets room light in. Includes 4" diameter exhaust ports, on/off switch for fan, holes for hanging up parts, and filters. All metal construction. Hood requires a few minutes of assembly. 120VAC.

#82427 STANDARD 15" x 20" Spray Booth

Interior dimensions are 15" deep x 20" long x 12" high. Single 185 cfm fan directs air flow out the back of the base. Overall height: 21".

A Micro-Mark Exclusive! Doc O'Brien's Weathering Powders

Doc O'Brien's weathering powders let you create an aged, well-worn appearance on scale vehicles, military models, structures, trains, aircraft and even figures. Ultra-fine **self-adhesive** powders are dusted on to simulate the effects of time and the elements... no overcoat required! They're also used as weathering washes when mixed with water. Kit contains enough material to weather dozens of models. Instructions included. Non-toxic.

12 color set includes Dirty Brown, Mildew Green, Grimy Black, Gritty Yellow, Rusty Red, Faded Blue, Rusty Brown, Grungy Gray, Patina Green, Desert Sand, Highlight White and Muddy Red.

#81632 Doc O'Brien's Weathering Powders **\$29.95**

A Micro-Mark Exclusive!

Powders and brushes are not included.

#90120 Doc O'Brien's Weathering Powders Rack

Designed in-house and manufactured in our own U.S. factory, this beautifully-designed laser-cut wood rack holds and organizes a complete set of 12 Doc O'Brien's Weathering Powder jars, or any other container up to 1-1/8" in dia. Three additional holes are provided for your favorite brushes. Middle shelf keeps jars from tipping. 9-3/4" long x 4-1/4" deep; 2-7/8" high. Assembly required. **\$19.95**

Special Brush Set Applies Weathering Powders to Perfection

This 6-piece set of specialty brushes includes goat and pony hair bristles in the texture, stiffness and contour needed for perfect weathering powder application. The brush tips pick up just the right amount of powder and distribute it just where you want it. Then, use the large brush to blend powders right on the model for maximum realism. Use the foam applicator for spot application of washes that simulate the effects of rain water. Packed in a snap-shut soft nylon case which both protects the brushes and prevents powder residue from soiling other tools.

#85197 Brush Set for Weathering Powders **\$24.95**

#86324 Applicator Brushes, Set of 50 Great for use with weathering powders. Soft, pliable hairs pick up just the right amount of powder and gently deposit it around details, along rivet lines, and into cracks and crevasses, then softly blend colors for maximum realism. Also good for glue, paint touch-up and more. 3" long plastic handles. **\$11.95**

Set of 50 brushes for all kinds of projects!

RINSE WELL is Like Having a Sink on Your Workbench

The "Rinse Well" keeps you supplied with clean rinse water when brush painting with water-based paint. Just rinse your brush in the well. Then press the button and the dirty rinse water drains into the base while the well automatically refills with clean water. Saves time and eliminates the mess of filling and refilling several rinse containers. 7" diameter base; 20 oz bottle capacity.

#81415 Rinse Well **\$25.95**

Keep Airbrushes Within Easy Reach and Out of Harm's Way

Our airbrush holder provides safe, secure storage for all airbrush brands... up to 4 at a time! Rubber-coated head tilts and rotates to hold your airbrush at the perfect angle for filling paint cups. Clamps to work surfaces up to 2-1/4" thick.

#83408
Airbrush Holder **\$23.95**

Milliput...the Master Modeler's Putty of Choice Worldwide

Milliput is the two-part, easy-to-use epoxy putty that molds like clay and cures to the hardness of porcelain. Use for scratch building, sculpting, customizing repairing, pattern making, gap filling, and thousands of other projects. Roll it as thin as 1/64" for making super detailed scale parts. Can be drilled, sawn, filed, sanded and painted when cured. Smooths with a wet finger and cleans up with water before it cures. Fully cured in 5 hours without heat or sooner with a hair dryer.

#81004 Standard Grain Milliput, gray color, net wt. 4 oz **\$9.95**

#81005 Superfine Grain Milliput, pure white, net wt. 4 oz **\$16.95**

Mini Powered Paint Shaker Thoroughly Mixes Art and Hobby Paints with the Push of a Button!

Like a miniature version of the machines you'd find at your favorite home improvement center or professional paint supply store, our powered paint shaker produces a dynamic multi-directional action that quickly and effortlessly mixes all types of paints better and more thoroughly than you ever could with a stick or hand-shaking. Accommodates all small art and hobby size bottles and cans up to 1 oz. Plugs into standard household outlet.

#27162 Mini Powered Paint Shaker **\$69.95**

#27162A Paint Shaker Strap **\$1.95**

#80770 Holding Tool is great for holding micro size parts while painting, gluing or positioning. Tweezer-type jaws grip tightly with one hand by sliding knurled ring towards tip. Holds objects up to 3/32" thick. Made of stainless steel. 4-1/4" long. **\$12.95**

Funnels for Filtering & Pouring Paint, Solvents and More

#83119 Miniature Strainer Funnel Set Stainless steel strainers trap debris long before it reaches your airbrush. Ideal for all types of hobby paint, these solvent-resistant funnels are the perfect size and shape to prevent spills while transferring paint from bottle to airbrush cup or siphon jar. Set includes 3 funnels: one each with medium, fine and extra-fine mesh strainers. Funnels clean up easily with solvent for use over and over again. **\$19.95**

#60392 4-piece Polyethylene Miniature Funnel Set is solvent-resistant and great for general purpose use. Set includes two 2" dia. with 1/4" neck and two 1" dia. with 3/8" neck. All have hang-up holes. **\$11.95**

Cordless Mixer for Model Paints

Mixes paint in-the-bottle for consistent color every time. Just insert the spin disk and push the button. It even mixes old, settled paint. To clean, spin in a bottle of thinner. Handles bottle depth up to 3". Uses two AA batteries (not inc.).

#80975
\$10.95

#29265 Micro-Mark Airbrush Paint Thinner, 8 oz This airbrush medium has been developed to adjust to the consistency of water-based acrylic airbrush paints and reduce airbrush clogging while preserving color and paint adhesion. Successfully tested with a wide variety of acrylic paint brands. **\$11.95**

#80923 Mask-It EASY Apply this high-quality liquid masking film where you don't want paint to stick. Works especially well in small crevices where masking tape is impossible to apply. Paint won't bleed through or seep under edges. Can be sprayed or brushed on. Dries in 1 to 2 hours. Thins and cleans-up with water. 8 fluid oz bottle. (Not for use on porous materials.) **\$12.95**

Another Micro-Mark Exclusive!

Micro-Make™ Doctor DryBooth Cuts Paint Drying Time in Half!

Nothing stifles productivity and progress on model building, crafting and woodworking projects like waiting for paint to dry. After years of searching, development and testing, Micro-Mark has the solution – Micro-Make™ Doctor DryBooth. As one of the most sought-after and asked-for products ever, Doctor DryBooth delivers on the promise of cutting to a mere fraction the drying times of a wide variety of paints...including enamels. In our own testing, we found that a commercially produced styrene plastic model car body painted to full coverage with a popular spray enamel was dry to the touch in 25 minutes, dry enough to handle without fingerprints in 50 minutes, and cured hard and smooth in 75 minutes using Doctor DryBooth. The model exhibited no sign of melting, warp or other distortion. The same model car body, sprayed side-by-side from the same can of paint at the same time and under the exact same conditions, then left to air-dry, took more than double the time to be dry to the touch and much longer still to be fully hardened and cured.*

#88043 Micro-Make™ Doctor DryBooth Available exclusively through Micro-Mark, Doctor DryBooth is a professional-quality product designed specifically for modelers and makers and built to exceed your expectations. The heart of this well-designed unit is its integrated warm air convection system, which circulates gently heated air through the cabinet and around your project, resulting in a superior finish in an incredibly short amount of time. Temperatures inside the cabinet can be set from approximately 135 degrees – great for finishing die-cast, other metals and wood – to approximately 100 to 105 degrees – ideal for plastic, resin and more. A built-in baffle beneath the circulating fan and clear tempered glass door keep dust particles at bay while your project dries. Time dial sets drying interval up to 25 minutes; Heat dial sets temperature. Interior dimensions of the metal cabinet are 10-1/2" wide x 13-3/4" high x 7-1/2" deep (1,082 cubic inches); overall size is 10-5/8" wide x 18" high x 8" deep. Includes 2 chrome-plated metal racks which can be adjusted to 13 positions within the cabinet, and 6' cord with standard plug for household outlets. List \$250.00 ... Our Price **\$199.95****

**This case study was performed on our original Doctor DryBooth and is for general reference only. Your results may vary based on humidity, ambient temperature, type of paint and other factors. We recommend you perform your own tests for best results.*

#83046 Airbrush Cleaning Kit includes swabs, wood picks, micro brushes, scrub brushes, solvent-resistant funnel, pipettes, solvent cups, dispenser bottle, lint-free cleaning/polishing cloths and a pair of latex gloves. **\$16.95**

Special Knife Makes Perfect Parallel Cuts in Masking Tape, Paper and So Much More!

If you've ever tried to use masking tape on models or other small projects, you know that wide tape just won't follow compound curves without buckling. Our Parallel Cutter will cut tape and a wide variety of other materials into strips 1/16" to 5/8" wide quickly and accurately. You can even cut circles using one blade as a pivot. Made of aluminum and steel. Includes 4 blades.

#83651 Parallel Cutter \$34.95 #83652 Extra Blades (2) \$5.95

The Best Masking Tape...Ever!

This ultra-thin masking tape from 3M, used for creating wild designs on 1:1 hot rods, bikes, etc., will follow curves like no other you've ever tried... and because it's a flexible plastic, it conforms and clings to fine details. Tape holds tightly, yet is removed easily without leaving any adhesive residue. Use what pros use to get the sharpest edges ever!

#60725 3M Tape, 1/8" wide x 36 yds. long \$13.95
#60726 3M Tape, 1/4" wide x 36 yds. long \$14.95
#60727 Set of one each 1/8" and 1/4" 3M Tape \$24.95

#86118 MicroLux® Mini Sandblast Gun Set Fine abrasive grains remove old paint and rust without harming surface details...even on plastic...and inside recessed areas impossible to reach with any other method. Engraves intricate designs in metal and glass (when used with a stencil) and distresses wood as well. Operates from propellant can (order #85590 separately) or from any air compressor producing 30 to 45 psi (max: 65 psi). Set includes gravity-fed sandblast gun with 1/8" BSP male fitting, 15 cc (0.5 fl-oz) cup assembly with cover, 6' braided air hose, plus 1/8" BSP male to 1/4" BSP female adapter to fit typical hobby/art compressors, 4 oz of aluminum oxide abrasive, hang-up hook, air mask, and instructions. List \$90.00 ... Our Price **\$69.95**

#88302 Tamiya Masking Tape, 40 mm (1-1/2") x 60' roll \$8.95

#90078 Chartpak® Graphic Art Tape
The thin, flexible 1/32" material is great for making curves and its permanent adhesive material works on a variety of surfaces, including plastic, whiteboard, glass, paper, wood, metal and ceramic. Great for mimicking metal bands on train loads! For indoor use only on clean, dry surfaces. 1/32" wide x 648" long, black crepe, 1 roll. Made in the USA. **\$7.95**

Custom Brush Sets Offer Great Versatility for Makers

Custom-made for Micro-Mark, these high-quality paint brush sets brings together the most versatile and desirable sizes for the widest range of paints and applications. Premium nylon bristles hold paints, inks, dyes, etc. very well and keep their shape when treated with basic care. Handles are nicely formed and feel great in the hand. **\$9.95 per set**

#90237 Micro-Mark 7-piece Flat Brush Set Includes 7 brushes in the following sizes: P00, P01, P02, F01, F03, F05, F08.

#90238 Micro-Mark 7-Piece Round Brush Set Includes 7 brushes in the following sizes: P01, P02, P03, P04, P05, P06, P07.

Keep Your Workspace Neat and Organized While Keeping Your Paint Brushes Clean and Ready-to-Use

Its clever, all-in-one, compact design takes up only 7-1/2" x 4" x 3" of space, yet holds up to 14 paint brushes, 8 ounces of water/cleaning solution, and includes a separate palette with lid, sponge and 10 sheets of 6" x 2" disposable palette paper – ideal for mixing new colors and then keeping them moist as you work. The cleaning

tank is divided into two equal 4-ounce containers for clean water and dirty water. A variety of ridges and combs molded into the tank are provided to gently remove paint from bristles without causing damage to brushes. The palette stores inside the top of the tank, covering the water/solution inside and preventing evaporation.

#90222 Paint Brush Cleaning Station \$14.95

#81601

A Micro-Mark Exclusive!

With grits ranging from 2400 to 12000, the Micro-Mesh Polishing Kit is not only ideal for creating or restoring a high-gloss finish on painted and unpainted surfaces, it can also be used for creating crystal clear finishes on full-size non-glass canopies and windscreens, polishing metals, and producing ultra-smooth finishes on wood. Kit includes everything you need to bring your next project's finish to a dazzling shine, whether used dry or wet: six 3" x 4" sheets of Micro-Mesh in 2400, 3200, 4000, 6000, 8000 and 12000 grit; foam sanding block; micro-gloss polishing cream; 13" x 17" non-woven polishing cloth, and instructions. **#80939** Micro-Mesh Polishing Kit **\$34.95**

4" x 6" Micro-Mesh Sheets – Only \$5.95 per sheet

#80940	#80941	#80942	#80943	#80944	#80945
2,400 grit	3,200 grit	4,000 grit	6,000 grit	8,000 grit	12,000 grit

Soft Touch Polishing Pads feature the same Micro-Mesh abrasives described above laminated to both sides of a 2" x 2" x 1/8" soft foam pad with rounded corners. Unique cushioned design, comfortable size and ergonomic feel provide additional control and less pressure for the more intricate contours and smaller areas of scale models. Set of 6 two-sided pads in the same grits as above. **#81601** Set of 6 Soft Touch Polishing Pads **\$13.95**

Ultra-Precision Softback Polishing Sticks for Flawless Finishes

Unlike regular sandpaper which is prone to wrinkling and tearing, the cushioned sponge backing of Infini Model's Softback Polishing Sticks is designed to follow the contours of your project beautifully, resulting in a finer finish in less time. Each stick is double-sided for twice the life, with a semi-flexible plastic backbone in the middle for a firm grip and added pressure when working in confined areas. Set of eight 5-1/4" x 3/4" x 1/8" thick sticks includes one each 400, 600, 800, 1000, 2000, 3000, 5000 and 7000 grit. Use wet or dry.

#88642 Softback Polishing Sticks **\$11.95**

Organize, Dry and Protect Your Paint Brushes

Overall size:
11-1/4" long x 3-1/2" deep x 4-1/4" tall

The Sta-New brush holder keeps 10 brushes neatly organized and lets them dry in the best way possible...bristles down. Clear plastic, compartmented base catches drips and keeps table top dry. Mounts to wall or workbench and snaps together in seconds.

#85941 Sta-New Brush holder **\$24.95**

Clean and Protect Your Paint Brushes for a Long, Useful Life

After cleaning your paint brushes, give them the Brush Saver treatment. A final rinse in Brush Saver cleaner/conditioner removes deep down paint particles and leaves the bristles clean, soft and pliable, ready for your next painting session. 16 oz bottle.

#86591 Brush Saver, 16 fluid oz **\$18.95**
Ships by ground to 48 contiguous United States only.

Micro-Mark FlexCam is the Next-Best Thing to X-Ray Vision!

For all the times you've thought, "If only I could see into..." this amazing tool is for you! With a high-resolution, self-illuminating camera measuring only 8 mm in diameter integrated into the end of a 9.8' long flexible digital video transfer cable, you will not only be able to see that which was previously unseen with remarkable clarity and detail, you can even capture and save still images and real-time video.* Whether in total darkness, inside the smallest of spaces and even under water, FlexCam opens up a whole new world for viewing, inspecting, examining and diagnosing that which could never be seen before with your eyes alone.

The FlexCam system places a tiny full-color camera at the end of a flexible, yet resilient cable that sends high-resolution real-time video to its scratch-resistant 4.3" solid glass, 1080P HD LCD screen. Six brightness-adjustable LEDs surround the durable camera lens, providing as much illumination as you need to clearly see in the tightest of spaces, even in total darkness. With a focal length of approximately 1.5 inches to over 16 feet, FlexCam provides exceptional versatility for a wide variety of applications. A push-button control pad integrated into the viewing screen operates all of the camera's functions, including image up, down and rotation, brightness, image capture and more. Equipped with IP67 waterproof technology, FlexCam's camera can remain one meter under water for up to 60 minutes of continuous use without damage. Internal 2600mAh large-capacity USB-rechargeable battery provides up to 4 hours of working time; recharges to full capacity in 3.5 hours. LED indicator shows when the unit has reached full charge.

Model builders use FlexCam to show off all of that unseen detail painstakingly included inside their models; model railroad enthusiasts use it to locate trouble spots with track and wiring in otherwise inaccessible areas inside tunnels, behind buildings and under benchwork; DIYers and tradespeople use it to inspect and diagnose hidden issues inside walls, under cabinets, behind appliances, even inside pipes and conduits; mechanics use it to examine the interiors of combustion chambers and behind dashboards. The list goes on and on. The bottom line is that FlexCam is so versatile that there are literally hundreds of applications that make it an indispensable tool for just about everyone.

Micro-Mark FlexCam Set includes a detachable 4.3" LCD 1080P HD viewing screen with push-button camera controls and built-in micro SD card slot for image and video capture*, molded handle, detachable 9.8' (3 meter) flexible camera cable with 1920*1080 resolution camera lens and six brightness-adjustable LEDs, 4 handy camera-tip accessories: magnet, hang-up hook, side-view mirror and protective cap, USB charging cable, and user's manual.

The Future of Lighting is Here...Introducing the BRYTE™ Line by Micro-Mark

Built upon the latest advances in LED and battery technology, and incorporated into innovative product designs, the Micro-Mark BRYTE™ Line takes portable and wearable lighting to the next level. For ultimate reliability and portability, each BRYTE lighting product includes a built-in USB rechargeable battery, so you'll never have to fumble around in the dark trying to find the right size disposable batteries. Simply plug your BRYTE product into any USB port to charge up and go. Integrated LEDs provide brilliant light with superior efficiency and virtually zero heat, allowing you to use your BRYTE product for hours on end without recharging, even at full intensity. The Micro-Mark BRYTE Line is perfect for every type of work, DIY project, and recreational activity where good lighting makes all the difference. **SPECIAL OFFER! Buy all 5 BRYTE items together using item #90530K and SAVE! #90530K...\$109.95***

#90530 BRYTE Band™ LED Headband Light Wherever you go, wherever you look, BRYTE Band™ lights the way – even in the rain! This ingenious, water-resistant device is the next-level Headband Lighting System. 300 Lumen ultra-bright, high-efficiency COB and XPE LEDs mounted in a durable, stretchable and comfortable silicone headband illuminate up to 150 feet away with a 230° field of vision. A single switch activates five different modes, allowing you to select between maximum or standard brightness of both the front-mounted LED light strip and the side-mounted single LED, plus a strobe mode which flashes both simultaneously. Also features a side-mounted sensor which can turn the lights on and off with a wave of your hand. Built-in 3.7V USB rechargeable lithium polymer battery provides 2.5 to 8 hours working time. Includes USB charging cable. Fully-adjustable band ensures that one size fits all. **\$39.95***

#90777 BRYTE Eyes™ LED Illuminated Magnifying Glasses These classically-styled, +2.5-strength magnifying glasses bring a new level of clarity to your vision while you work, read, inspect, etc. Twin side-mounted LEDs are optimally placed to eliminate glare and eye strain while illuminating that which you are viewing in bright, crisp, focused light. Scratch-resistant, hard plastic lenses are mounted in durable, sleek, black acetate frames, so they go where you go and look good doing it. Includes built-in USB rechargeable battery that provides up to 2.5 hours of light on a single one-hour charge, discreet On/Off switch, and special twin-plug USB charging cable. **\$19.95***

#90677 HandyBRYTE™ Glove-Mounted LED Light System
\$16.95*

HandyBRYTE™ literally puts brilliant lighting at your fingertips. Aim the LEDs exactly where you need them while you work without impeding dexterity. Super light-weight, highly flexible fabric is very comfortable and moves with you, and the hook-and-loop closure wrist strap easily adjusts for optimal fit. Includes one pair of HandyBRYTE gloves with two LED lights on each, on-board USB rechargeable 3.7V lithium-ion battery, and USB charging cable. One size fits all.

#90673 PocketBRYTE™ LED Penlight
At only a little over 5" long and just .5" in diameter, PocketBRYTE™ may be the smallest of

the BRYTE Line, but don't let its tiny size fool you – the beam of light it puts out will surprise you with its brilliance and clarity from across the room and beyond. Includes light-weight, non-magnetic stainless steel body, On/Off switch, pen clip, wrist strap and USB charging cable. Bring the light anywhere and everywhere you go with PocketBRYTE. **\$12.95***

#90531 Two-Port USB Wall Charger Perfect for use with our BRYTE Line products, just plug into any standard household outlet and charge up to two devices simultaneously. Works with any cable with a USB Type A connector on one end. **\$9.95**

MicroBRYTE™ by Micro-Mark is a Go-Anywhere "Magic Wand" of Light

MicroBRYTE™ puts brilliant, sharp-focused, color-adjustable LED lighting wherever you want it to go, no cords, no cables, no boundaries! At less than 1" in diameter and 12" long, this versatile light gives off virtually zero heat and can be hand-held or mounted to shine its 200 lumen beam up, down and sideways. Includes a high-capacity 3.7V rechargeable lithium-ion battery built into its sturdy satin nickel finished metal housing. Touch-control button activates the LEDs and allows the user to switch between neutral white 4000K, cool "daylight" 6500K, and warm 3000K light; press and hold the button to control the brightness from 2% to 100%. Work for up to 10 continuous hours with the dimmer at 50%, or up to 4 hours at 100%; then use the included USB cable to recharge. In 2 to 3 hours, you're ready to do it all again. Or, leave it plugged in and let the light shine on as long as you wish.

Complete set includes: MicroBRYTE light, 3' USB cable, 1 removable magnetic mount, 1 screw, 1 mounting plate and 1 pre-cut, double-sided 3M foam adhesive pad.

Includes a detachable 8" flexible arm with a super-strong – 40 lbs. of pull – magnetic base. Worklight is ideal for use on the steel work tables of machine tools, automotive applications and other magnetic surfaces. Includes 3-cell AAA battery. **\$39.95**

#90568 Dual Drive Ratcheting Driver Set

A Micro-Mark Exclusive!

This sleek, slick, recently-patented driver does what no others can: drive both 1/4" shank bits and 4 mm shank bits with the same tool – no adapters necessary! The magnetized, spring-loaded bit retainer features an ingenious 2-step design which securely holds the shorter-shank 1/4" bits at the outer first step, and the longer 4 mm shank bits within the deep-set second step. The double-anodized 5.25" handle has the look and feel of a fine watch, but it's a real workhorse on the bench and in the field, with 3-way ratcheting action, deeply knurled diamond grip and smooth-glide swivel cap. Set includes ratchet handle, seven 1/4" shank bits (1, 2, and 3 Phillips; 4 and 5 mm slotted; 3 and 4 mm hex), ten 4 mm shank bits (000, 00 and 0 Phillips; 1.0, 1.5 and 2.0 mm slotted; 2.0 and 2.5 mm hex; T6 and T8 Torx), and a sturdy, well-made hard plastic case with dual stand-up bit indexes and strong latches magnetic closure. A beautifully-made, superior-quality tool at a surprisingly low introductory price. **\$24.95**

PATENTED!

Drive 1/4" Bits and 4 mm Bits with the Same Tool – No Adapters Necessary!

#90525 26-Piece SAE (Inch) and Metric Bolt, Screw and Nut Checker Set

LED Lamp / Magnifier Puts Shadow-Free Light Just Where You Want It

The sturdy, all-steel articulated arm of our Lamp / Magnifier puts the power of 90 long-lasting LED lights right where you want them, illuminating your work area with brilliant, cool white, shadow-free light. Unlike fluorescent lamps, this 7 watt, 1000 Lux LED-equipped model is completely silent and the light is strong and continuous; no annoying hum or distracting flicker. The 5" diameter optical quality lens enlarges to 1.75x actual size at working distance of 13" (3 diopter). Convenient bench-mount clamp attaches in seconds to any tabletop up to 2-3/8" thick. Spring-balanced arm extends up to 36", providing excellent mobility, and the integrated lock knobs keep the lamp exactly where you want it while you work.

#86547 Articulated LED Lamp with Magnifier **\$79.95**

Desktop LED Lamp with Magnifier

60 LEDs providing 1200 lumens of diffuser-softened light at the end of a flexible, omni-positionable 18" arm wrap your work in a cool glow similar in strength to a traditional 75 watt bulb, great for all kinds of desktop projects. For detail work, flip the lid to reveal a 5" diameter, 3 Diopter lens (1.75 magnification) with a comfortable 8" focal length. Increasing this lamp's versatility is a handy 4 compartment storage bin at the back of its no-tip base for small tools, pens and more. 6' cord. 120V/60Hz.

#88821 Desktop LED Lamp with Magnifier **\$54.95**

Deluxe Lighted Magnifier Adjusts to Four Magnifications

Our deluxe headband magnifier not only has twin-beam, focused lighting, but also lets you select the magnifying power you need with just the touch of your finger. Contained under the hood is a special flip-down auxiliary lens plate you use in combination with the attachment loupe, providing magnifications of 1.8x, 2.3x, 3.7x and 4.8x. The comfortable headband can be worn with glasses and adjusts to any size with a Velcro-type fastener. Optical quality acrylic lenses. Requires four AAA batteries (not included). High quality.

#81838 Lighted Magnifier **\$39.95**

4-Armed Holding Jig for Gluing, Soldering, Painting, Inspecting and More

A Micro-Mark Exclusive!

A. Special Squares for Marking and Cutting Thin Materials

Use our Thin Beam Squares to mark and cut thin wood and plastic. The extra-thin profile of the beam allows the blade to stay in close contact with the surface of the workpiece, so scribe lines and knife cuts will be super-accurate. 90° version works on sheet and strip stock up to 4" wide and as thin as 1/16"; 45° version works on sheet and strip stock up to 2-3/4" wide (or 5-1/2" wide by flipping the square over to the opposite edge) and as thin as 1/16". Blade and beam are 3/4" wide. Made of ground steel.

#83261 90° Thin-Beam Square \$19.95

NEW! #89813 45° Thin-Beam Square \$19.95

B. Absolute Origin Digital Caliper Has Data Capturing Capability

Absolute origin technology memorizes zero by displaying the actual sensor position, making resetting to zero obsolete. Combined with data capturing capability from its built-in data port,* this caliper is one of the most sophisticated measuring instruments of its kind. Includes hardened stainless steel ruler beam, moisture-resistant housing, two 3V lithium batteries, and fitted foam-lined polymer case. ISO 9001 certified.

*Requires #86717 USB Interface and Cable, sold separately on the next page.

#87943 Absolute Origin Digital Caliper \$57.95

C. NEW! Zona 3" Triangle Precision Ruler is Great for Miniatures and More – Fits in Your Pocket

Convenient, compact and handy, this 3" Triangle Precision Ruler is made from durable .022" thick stainless steel with 1/32" measuring intervals on one side and centimeter markings on the other side in 1 mm intervals. Perfect 90° angle is great for working on miniatures and models, plus many other uses in woodworking, crafting and DIY projects. Triangle design provides one of the easiest and best ways of measuring equal distances from a corner for constructing frames, boxes and other square objects. Made in USA by Zona.

#91050 Zona 3" Triangle Precision Ruler \$10.95

D. Digital Scale Reads in Ounces and Grams

High-precision, 11 pound (5 kg) capacity weight scale with digital readout in 0.05 ounce or 1 gram increments. Includes tare feature and auto shut-off to conserve power. 5" diameter platen.

#83825 Digital Scale. List \$40.00 ... Our Price \$29.95

E. Proportional Divider Scales Drawings Up or Down in Seconds

A proportional divider helps artists, designers and other makers create accurate scale drawings by transferring measurements from a source to a drawing. No need to measure, calculate and re-measure when working from scale plans and renderings...our proportional divider does the number crunching for you! It works by allowing the user to adjust the location of the pivot point, which determines the ratio of the drawing to the source, from one end of the tool to the other. Moving the pivot point closer to the tip of the divider makes the drawing larger than the source. Conversely, moving the pivot point in the opposite direction makes the drawing smaller than the source. This all-metal precision instrument includes instructions.

#14129 Proportional Divider. List \$165.00 ... Our Price \$139.95

F. Dimensioned Mini Square Cuts Layout Time in Half

Our mini square has markings on both the outside and inside edges so that measuring and marking is quick, easy and accurate. And it's made of stainless steel, so it also works as a cutting guide for your knife. Especially handy for measuring and cutting scale model window openings and glazing. 3" x 4" overall with acid-etched 1/32" increments for a lifetime of use.

#82147 Mini Square \$9.95

G. Stainless Steel Model Railroader's Ruler

Scale graduations in HO, O, S and N, plus inch and millimeter calibrations. Also includes a decimal equivalent chart and reference table on the opposite side. A versatile ruler for the model railroader. 1" wide x 12" long. Stainless Steel.

#10116 Model Railroad's Ruler \$14.95

H. Rotape Compass Measures and Draws Large Circles Instantly

Using the Rotape is fast, easy and accurate: simply place the compass point on center, pull the tape out to the desired radius (between 3-1/2" and 6'), and draw your circle. Rotape marks paper, wood, cork, drywall, metal, fabric, concrete, plastic and more. And a special gauge is molded into the bottom of the pocket-size tape housing so you can also mark lines parallel to an edge.

#82624 Rotape Compass \$39.95

#82626 Rotape HB Pencil Leads – package of 10, pre-sharpened \$5.95

J. Clamp-On Trammel Points

Clamp-on Trammel Points attach to beams up to 1-1/4" thick by any width or length. One end has a hardened steel point to act as a pivot. The other end is dual-function: holds either another point (included) or a standard pencil.

#83187 Clamp-on Trammel Points \$14.95

These readouts are available in 6", 12" and 24" capacity to suit your application

#50299 Tungsten Carbide Scriber Next to diamond, tungsten carbide is considered to be the hardest material known. Has a finely honed needle sharp point mounted in a 5-1/2" long steel handle. Will scribe plastics for snap cutting. **\$11.95**

#10105 Genuine Diamond Tip Scriber does everything our Carbide Scriber will do and more. Even marks hardened steel and glass. For those who want the best. Includes ergonomically contoured plastic handle and protective cap. 5-1/4" long. **\$19.95**

Pounce Wheels, Explained

Transferring Drawings from Paper to Wood

Just roll the pounce wheel over the drawing and it perforates tiny holes in the paper. Place the paper over the wood. Then rub powdered chalk (the kind used for snap lines; available at any hardware store) over the perforated holes. The chalk goes through the holes and marks the wood.

Simulating Rivets on Models

Works on wood, plastic and sheet brass up to .010" thick. Aluminum handles with steel wheels. Tighten chuck for straight lines or loosen for curves.

Set of three; .250" dia. x .041" spacing, .300" dia. x .051" spacing and .412" dia. x .072" spacing. **#15200 Pounce Wheel Set \$29.95**

Don't let their small size fool you – these versatile, palm-size, German-made tools are dependable and powerful enough even for the most demanding miniature projects.

MicroLux® Digital Transformer **NEW!**

This latest evolution 15 amp maximum output transformer not only contains special feedback circuitry that automatically boosts the power to the tool when it is under load so that the speed remains constant, it now offers separate controls for speed and torque. Switchable LED display shows the exact setting for each control for ultimate precision. Compact unit features 2 power output sockets, USB A and C charging ports, and built-in cooling fan for longer run-time. Plugs into standard household outlet.

Flex Shaft Stand

• Adjusts from 24" to 45" high.

• Bolts to any work table.

#85143 Flex Shaft Stand \$38.50

Flex Shaft Machine Includes motor unit, 40" flexible shaft, foot pedal, handpiece and chuck key

#85288

#85143 Stand sold separately.

Turn Your Flex Shaft Machine* into a Reciprocating Carving Tool

This reciprocating chisel handpiece is for carving in all types of wood, plastic, plaster and soft carving stone. It connects to a key tip quick disconnect flexible shaft machine like our #85288 (sold separately, above). Simply pull the handpiece off of the cable (with the motor unplugged) and insert this handpiece in its place. The handle converts the rotary action of the driven cable into a reciprocating "hammer" type handpiece that requires a light pressure to start the hammering chisel action. 6" long x 1" diameter handpiece weighs only 4.6 oz and has a stroke length of 1/8" (3.2 mm). The textured plastic barrel and tapered aluminum front end provide comfort and zero hammering feedback into the user's hand. Includes six chisels with 18 mm-long tangs and 55 mm and 75 mm overall lengths from cutting edge to end of tang: 3/8" straight, 11/32" 45° skew, 1/4" V gouge and 3/8" wide #3, #7 and 3/16" #10 U gouges, plus lube, wrench and instructions.

**Handpiece must be used in a forward motor direction tool, such as our #85288 Flex Shaft Machine, which spins the handpiece chuck counter-clockwise.*

#90118 Reciprocating Carving Handpiece \$99.95

Innovative Desktop Dust Collection System is Now Available for Makers and Professionals

In our constant quest to bring you the most innovative tools from around the world, this uniquely-designed Desktop Dust Collection System stands out for its exceptional power, performance, and compact size. With a footprint of just 11" x 11" (x 5" high), this quiet-running system will keep your work space clean and dust-free while taking up only a fraction of the room demanded by its full-size counterparts. For ultimate versatility, vacuum strength is adjustable in 7 steps to an amazing 20,000Pa maximum suction. Additional high-end features include an expandable/positionable collection tube (maximum length: 30" x 2.375" dia.) with 4 bright LEDs at the working end to provide extra illumination while in use, 2-stage filtration, all-internal debris collection, and touch-control front panel. Unit plugs into standard household 3-prong outlet. Originally available only to the dental trade and for use in industrial applications, Micro-Mark now offers this professional-quality system to makers who want the best. For even greater flexibility, add the optional on/off foot switch (#90536, below) for hands-free operation.

Finally, a Powered Sander Designed and Built with Modelers, Makers and Hobbyists in Mind!

After years of searching, this smooth-running sander is the winner all of us have been waiting for! Combining the versatility of variable speed control with power boost circuitry that can maintain torque at slower speeds, this compact yet powerful 5" Disk Sander may be the only powered sander you will find that is as capable with plastic as it is with hardwood. Just dial in the speed you need from 1150 to 3600 rpm and you're ready to go to work. Its 5-1/2" wide x 3-3/4" table tilts down from 0° to 50° or up from 0° to 10° with a quick turn of the side-mounted knobs. Use the tilt feature with the included angle gauge to make perfect precision compound miters. At only 11-1/4" x 5-3/4" x 6-1/2" high, this small sander will make a huge impact on your projects for years to come. Includes an adjustable T-slot miter gauge, bench clamp for mounting your sander to any work surface from 1/2" to 2-3/4" thick, on-board magnetic tool holder, abrasive cleaning bar, vacuum port and hose adapter, wrench, and six sanding disks: two each: 80, 150 and 240 grit. Plugs into standard 120V 60 Hz AC outlet. Draws 1.1 amp.

Micro-Mark Mini Air Circulator is NOT Your Ordinary Fan

With its convenient removable stand and compact size, our small yet powerful 3-speed Mini Air Circulator is great for keeping dust and fumes away from your face while you work. But what makes this deceptively advanced unit extra special is that it incorporates semiconductor cooling technology to actually lower the temperature of the air flowing through it with the touch of a button, transforming it into a cordless, go-anywhere, hand-held air conditioner. Nearly silent when running, our Mini Air Circulator features an internal USB rechargeable battery that provides long-lasting power. Unit is 6" high x 2.5" wide x 2.5" deep with 2.25" dia. fan blade. Removable base is 2" in diameter x 1" high. Weighs only 6 oz.

#91071 Micro-Mark Mini Air Circulator **\$19.95**

A Micro-Mark Exclusive!

Forget Everything You've Ever Known about Cutting... WonderCutter S is Here!

WonderCutter uses the amazing power of ultrasonic technology to revolutionize cutting from this moment forward. Producing a mind-boggling 40,000 vibrations PER SECOND, WonderCutter breezes through an amazing array of materials with such ease you simply will not believe your eyes...in fact, the oscillations are so rapid, you literally can't see or feel it move! This innovative tool will not only replace practically every other knife in your shop, it will expand your capabilities, enhance your creativity and allow you to execute the most intricate cuts even in the most difficult materials with a level of precision, ease and accuracy that was never possible before. Model makers, prototype builders, industrial designers, crafters, leather workers, florists and DIYers of all kinds will find this ingenious, ground-breaking tool essential for cutting plastic, cardboard, balsa, fabrics, plywood, rubber, acrylic, MDF, leather, bonsai and more! Ergonomic handpiece is comfortable and easy to hold, even for people with hand problems. Best of all, the tool does all the work for you! Set includes base workstation with built-in lithium-ion battery pack, handpiece, charger cable, 40 extra blades and user's manual.

Note: faceplate color may vary.

WonderCutter X is the Cutting Edge of Excellence

The next phase of innovation and evolution, WonderCutter X is an advancement upon the revolutionary WonderCutter S, with enhanced features that expand upon its already legendary capabilities and exceptional versatility. While still producing a mind-boggling 40,000 ultrasonic vibrations per second, WonderCutter X now operates using a plug-in power supply which generates an impressive 1.6 times more high-speed cutting energy, allowing you to not only zip through standard materials such as plastics, pvc and acrylic faster than ever before, but to cut much harder materials, including carbon fiber, with a precision and ease that was not previously possible or even available to makers.

Additional developments include:

- 3 user-selectable power levels: **Eco Mode**, for cutting thin, soft materials such as leather, paper and soft resin; **Comfort Mode**, for cutting thick, soft materials and harder, thin materials like rubber, plastic and wood; **Sport Mode**, for cutting thicker, harder materials, including hard resins and even carbon fiber.
 - Continuous Mode, which allows you to make continuous cuts for any length of time without pressing the button on the handpiece. Significantly reduces hand fatigue while dramatically increasing cutting accuracy, especially for more complex, multi-angle cuts.
 - New blade shapes and styles, including a curved digging blade, narrow chisel blade, long basic blade for cutting thick, soft materials, and a saw blade for cutting and shaping wood, plaster and more. Note: these "specialty blades" are compatible with WonderCutter X ONLY.
- Set includes WonderCutter X base unit with integral handpiece, power supply (plugs into standard household outlet), 40 standard blades and 4 specialty blades.

Compact All-In-One Vacuum Forming Machine

For making small, highly-detailed vacuum formed components, this desktop machine can't be beat. The all-in-one design includes an overhead heater for softening the plastic sheet, a clever lever-operated transport frame that lowers the plastic sheet over the pattern, and a base unit containing an extra-strong vacuum chamber to draw the plastic tightly over the pattern. Use it to make aircraft canopies, tire molds, rock and retaining wall molds, hopper car loads, coal piles, wall and roof panels and so much more. Industrial-quality machine is capable of making thousands of moldings. Works with clear, white, black, tinted or opaque plastic sheets up to .040" thick. (Note: Not for use with polycarbonate.) Sheet size: 5" square. Maximum pattern length: 5" when placed diagonally in the 4" square chamber. Includes steel beads that support patterns with irregular bottom surfaces. Overall dimensions: 8" wide x 10" deep x 12" high. Weight: 10-1/4 lbs. 4' long cord plugs into standard household outlet.

Use for fabricating model structures, airplane cowls, car bodies, dollhouse furniture "glass," windshields and other window glazing. Easily glued, they can also be vacuum formed to create specialized shapes.

STYRENE Multipurpose high-strength opaque plastic. Great for structure walls and roofs.
VIVAK Multipurpose high-strength clear plastic. Use for airplane canopies and other glazing.
POLYCARBONATE An unbreakable, high-temperature plastic.

#81477 Nibbling Cutter Squeezing the handle of our uniquely designed nibbling cutter actuates an ultra-sharp punch and die set which quickly and cleanly "nibbles" its way (3/32" at a time) through soft metal and plastic sheet up to 1/16" thick. Use it to cut out window and door openings, make sheet metal templates and gauges, etc. Specially contoured handle provides a comfortable grip. Cutter width is 1/4"; overall length is approx. 8". **\$14.95**

A Micro-Mark Exclusive!

The MicroLux® Tilt Arbor Table Saw is more powerful, more accurate, and smoother running than any other saw its size. And it's the world's first variable speed table saw...so it will cut metal and plastic, as well as wood. This is, without a doubt, the most feature-packed machine ever designed for the precision craftsman:

- High torque, electronically rectified 3,600 to 7,000 rpm variable speed DC motor produces more torque and power than many 1/2 hp motors... and torque remains high, even at low rpm; cuts plastic, aluminum, brass and non-ferrous metals without overheating
- Ball bearing spindle and no-slip timing belt for more torque
- Blade height adjusts from 0" to 1" and cuts a full 1" at 90°, 3/4" at 45°; tilting arbor for angle cuts up to 45°
- 11-1/2" x 9-1/2" table with 9-1/2" x 9-1/2" machined aluminum surface and two miter gauge slots
- Up-front controls for on/off, speed, blade height and tilt; includes vacuum cleaner attachment for dust control and table extension for cross-cutting long sheet stock
- Compact size – only 10" long x 11-1/2" wide x 7" high; weighs approximately 11 lbs.

#80463 MicroLux® Tilt Arbor Table Saw includes self-aligning rip fence, calibrated miter gauge, blade guard and 80 tooth fine cut blade for balsa and basswood up to 1" thick; hardwood up to 1/4" thick (for hardwood up to 1", use #86326 Carbide Blade). Uses 3-1/4" blades with 10 mm hole. Plugs into a standard household outlet. This high-quality saw is made in Japan and backed by a 1 year warranty. List \$537.95 ... Our Price **\$349.95**

High Speed Steel Slitting Saws, 3" dia., 1/2" hole. Must be used with adapter #83515, sold below. For slitting and slotting thin wood and plywood; cross-cutting brass tubing and soft brass sheet under 1/16" thick; cross cutting delicate wood and plastic structural shapes. **\$27.95 each**

#80466 168 teeth, .045" kerf

#80803 168 teeth, .032" kerf

#80804 230 teeth, .025" kerf

#80805 230 teeth, .020" kerf

#83515 Adapter for blades 80466 – 80805. Reduces 1/2" blade hole to fit 10 mm shaft on MicroLux® Table Saw. **\$7.95**

#87355 MicroLux® Dado Cutting System Specially designed washers mount behind the blade to create a controlled "wobble" which allows the blade to cut perfect 1/16", 3/32", 1/8" and 3/16" dado slots every time. Includes 4 color-coded dado washers, 80-tooth saw blade (3-1/4" diameter, .040" kerf) and a special blade guard. **\$49.95**

#87355B Exact Replacement 80-tooth Saw Blade for Dado Cutting System **\$22.95**

#80467 The Accuriser II Rip stock to precise tolerances with this vernier adjustable rip fence. Self-aligning T-square design includes positive lock that holds it perfectly parallel to the blade. The sliding face of the fence adjusts in .005" increments so your cuts will be more accurate than you ever thought possible. Order today and experience the difference precise cuts can make. List \$93.95 ... Our Price **\$69.95**

#80898 Featherboard & Fence Set The support provided by a high fence allows you to make cuts that are safer, easier and more accurate. A high fence also allows you to mount jigs and other attachments. Set includes 2" high x 10" long extruded aluminum Rip Fence; Vertical Featherboard to help prevent kick-back; Horizontal Featherboard with flexible fingers holds stock tight against rip fence. **\$39.95**

#80468 Sliding Table Guides on the bottom of the table slide in the grooves of the saw for precise cross cuts. The wide fence gives your work more support for 90° cuts. The triangles we supply give you perfect 30°, 45° and 60° cuts without resetting the miter gauge each time you change the angle of cut. Recommended for cuts in material up to 1/2" thick. Table is 10" x 12". Fence is 1-1/2" high. **\$29.95**

#80605 Taper Jig Beautifully machined tool is used for making a wood or plastic part with an angled cut on its long dimension. Adjusts easily to any taper. Made of machined aluminum and steel with a nylon handle. 6" long. **\$29.95**

#84904 Blank Blade Plates The MicroLux® Tilt Arbor Saw has a gap alongside the blade which permits the blade to be tilted, but also allows thin strips of wood to fall through the table. To eliminate the gap, install the blank plate and raise the blade to cut a new slot. Now, thin strips of wood will stay above the table. For MicroLux® Tilt Arbor Saws with 5-3/8" long blade plates only. Set of 4 blank blade plates. **\$24.95**

Protect Your Saw and Other Tools in Style

A Micro-Mark Exclusive!

Our Mini Tilt Arbor Table Saw is renowned for its precision, capability, power and reliability. And now, with the custom-fit Micro-Mark HD Tool Case, you can add true go-anywhere portability to that impressive list of attributes. From your workbench to the jobsite and back again, the Micro-Mark HD Tool Case assures that your saw gets there easily and safely in style. Because the best deserves the best, we designed the Micro-Mark HD Tool Case from the ground up, selecting only the toughest, premium-quality materials and assembling them with a fit and finish typically reserved for high-end luggage. Features include a water-, scuff- and tear-resistant heavy-gauge woven nylon outer cover with dual zipper closure, thick padded top with impact-resistant inner core, 3/16" rigid, high-impact plastic interior shell with full wrap-around, high-density foam lining.

Additional clever interior features include two large 6" x 5-1/2" x 2" deep storage pockets with hook-and-loop closures for safely and securely holding extra blades, gauges, tape measures and more, plus a 3" x 4" x 2" deep open-top pocket and hook-and-loop strap for holding rulers, fences and other long accessories. Built-in carry handle and adjustable-length, over-the-shoulder strap with thick shoulder pad and metal swivel connectors attaching to metal D-rings round out this beautifully-made case. Interior dimensions are 12-1/4" x 11-1/2" x 8-1/2"; exterior dimensions are 13" x 12-1/4" x 9". While designed as an exact-fit for the Tilt Arbor Table Saw, the Micro-Mark HD Tool Case can be used to transport and protect many other tools as well.

MicroLux® CORDLESS Variable Speed Micro Power Sander

The MicroLux® Micro Power Sander is one of our all-time most-popular items. In our constant quest for innovation, we're now producing a cordless, variable speed version of this top-selling tool, providing even greater versatility for makers on-the-go. What sets this tool apart from its corded counterpart is that its powerful 3.7V, 2600mAh lithium-ion battery generates a variable, user-selectable 2,000 to 7,000 reciprocating strokes per minute, allowing you to dial-in just the right speed for the material you're working. Runs for 60 - 100 minutes on a single charge. Fully recharges in 3 - 4 hours. Set includes Cordless Micro Power Sander with rechargeable 3.7V internal battery, 8 different sanding tips (4 straight shank and 4 angled shank), 60 peel-and-stick sanding pads in 180, 240 and 400 grit, and USB charging cable. Additional sanding pads available separately below. Made in Japan. **#90946 MicroLux® Cordless Micro Power Sander.** List \$120.00 ... Our Price **\$79.95***

Variable Speed Mini Bench Grinder with Flex Shaft

Like most grinding machines, ours will shape, smooth and deburr metal. It will also sharpen cutting tools and renew the edges on screwdrivers, pliers, tweezers, scribes and hundreds of other items. Unlike other grinders, ours includes a unique wheel made of woven fibers impregnated with abrasive grains. So, it will remove rust, paint and tarnish from most metals as well. The variable speed control, another unique feature, lets you do intricate shaping of miniature parts. And, it includes a detachable 42" long flexible shaft with ergonomic handpiece and 1/8" collet to hold accessories that grind, buff, sand, drill and saw metal, wood and plastic. The all-metal motor housing with rubber feet includes a repositionable protective face shield. Overall size: 5" x 6" x 7". Wheels are 3" diameter x 3/4" wide with 10 mm hole. Variable speed: 0 to 10,000 rpm. Weighs just 6-1/2 pounds. 110VAC motor with 5' cord.

#14563 Drum, 1/8" Shank **\$4.95**

#50292 **SAVE!** Set of all three **\$18.95**

A Micro-Mark Exclusive! Finally, a Rotary Tool

Accessory Organizer Made to Hold 1/8" Shanks

Unlike most rotary tool accessory organizers on the market, ours is designed to hold the 1/8" shanks commonly found on most of the bits and burrs available in the U.S. This beautifully made and finished all-wood organizer provides an elegant way to keep up to 120 shanked accessories within easy reach. Slide-out drawer stores cutting wheels, sanding disks, grinding stones and more, plus, removable rack insert holds multiple pliers neatly and safely out of the way until you need them. Organizer takes up only 5.75" x 9" (x 6" high) of space on your workbench.

#91012 Rotary Tool Accessory and Plier Organizer **\$32.95**

Rotary tool accessories and pliers are not included.

#84611X2 Diamond Cut-Off Wheel with Mandrel Large 1-5/8" diameter 80 grit diamond-coated cut-off wheel slices through hard materials quickly and easily. Includes special 1/8" shank mandrel for use with all brands of rotary tools and flex shafts, plus foam-lined storage case. 2-pack. **\$14.95**

D. - F. Diamond Coated Micro Burrs grind, engrave, smooth, shape and sharpen almost everything. 1/8" shanks. Each set includes a plastic storage case.

D. #80919 Standard Set 20 different shapes; cutting diameters up to 1/8" **\$17.95**

E. #82260 Expanded Set 30 different shapes; cutting diameters up to 3/16" **\$25.45**

F. #86573 Jumbo Set 10 different shapes; cutting diameters up to 5/16" **\$18.95**

G. #80470 10-piece Titanium Coated High Speed Steel Cutter Set includes all shapes shown. Use for shaping, cutting and hollowing soft brass, wood and plastic. 1/8" shank. Value \$64.05 ... Our Price **\$45.95**

H. - N. Solid Carbide Cutters last up to 20 times longer than steel. 1/8" shanks. Use to shape all materials except hard steel. **\$14.95 ea.**

Item #	Diameter	Item #	Diameter	Item #	Diameter
H. 60672	1/4"	K. 60676	1/4"	M. 38185	1/8"
J. 60674	1/4"	L. 60677	1/4"	N. 60679	1/16"

P. #12101 14-piece Drum Sander Set Get professional results in wood or metal with these hard-to-find tools. Abrasive band slips over rubber drum; tightening the screw or nut on arbor expands the drum to hold band securely in place. 1/8" shank fits rotary tools, flex shafts and drill presses. **\$14.95** See our website for sanding band refills.

Q. #82544 Router Bits, Set of 6 These 1/8" shank router bits are used to put a decorative edge on wood projects and for making miniature molding. For best results, use with a rotary tool and the #60485 Dremel Shaper Table Attachment (below). **Super Buy \$36.95**

#60485 Dremel Shaper Table Attachment fits most Dremel tools. **Super Buy \$39.95**

Recommended for speeds up to 10,000 rpm.

Universal Rotary Tool Chuck Makes Bit Changes Fast & Easy

1/8" shank fits all rotary tool brands and holds drill bits and accessories from 1/64" to 1/8". Eliminates the need to change collets each time you swap out bits and accessories. A must-have for all rotary tools. **\$19.95**

Keep Power Tools, Work Lights, Hanging Plants and More Within Easy Reach

This clever device hold tools, work lights and more suspended out of the way when not in use...then quickly and effortlessly lowers them to a comfortable working position with one pull. Tough plastic-coated steel cable extends up to 59" and retracts automatically when tool is released. Tension can be adjusted to accommodate different weight objects (up to 3.3 lbs.). Ideal for rotary tools and other power tools. Can also be used to bring overhead lamps down to a working level and for raising and lowering hanging plants for watering. **#90966** Hold-It Tool Balancer **\$21.95**

2 or more \$19.95 ea.

Tool not included.

Versatile 100-piece Accessory Set is an Amazing Value!

1/8" and 3/32" shanks

Includes an assortment of cutters, grinding stones, brushes, mandrels, sanding drums, cut-off wheels, reinforced abrasive disks, sanding bands, buffing tips, wheels and more, all contained in a finished wooden organizer/storage case. A great value!

#80254 Set of all 4 Fish Tail Bits **\$39.95**

Cut and Grind Almost Any Material with Our Fiberglass Reinforced Cut-Off Wheels

These 1-1/2" diameter x .050" thick cut-off wheels are the same type used by the steel industry, but in miniature sizes for miniature work. The fiberglass reinforcement resists breakage common to plain cut-off wheels. **NOTE: #14140 cuts non-ferrous materials (glass, plastic, ceramic, aluminum, copper, brass); #14141 cuts ferrous materials (steel, steel alloys, hard bronze and other high tensile strength materials). 2 disks per package.**

#14140 Cut-Off Wheels for Non-Ferrous Materials **\$6.95/pkg.**

#14141 Cut-Off Wheels for Ferrous Materials **\$6.95/pkg.**

#14142X2 Mandrels for above (pkg. of 2) **\$4.95**

#86047
6-piece HSS Saw
Blade Set with Mandrel

Use with your rotary tool to slice through soft woods with ease. Rated for use up to 20,000 rpm, these small-size blades provide big cutting power in places larger saws can't fit. Set includes 1 each: 23 mm x 60 teeth, 25 mm x 36 teeth, 33 mm x 36 teeth, 35 mm x 36 teeth, and 44 mm x 72 teeth, plus one heavy duty mandrel with 3 mm shank; 2" long overall. **\$15.95**

#87404 Rotary Tool Shield Heavy duty screw-on plastic shield provides a clear view while protecting you from flying debris while you work. **\$11.95**

Cushioned Sanders
for Rotary Tools
& Drills

Disks sold separately below.

Cushioned Sanders are just the right size for smoothing contours with delicate control, gliding over rounded surfaces instead of digging into them. Great for smoothing lathe-turned workpieces to perfection. Hook-and-loop fastening for quick disk swaps.

Drill Press Vise

Grooved base fits on MicroLux® Standard Duty Drill Press sliding gauge, or mount with clamps to X-Y Table. Made of cast aluminum with easy grip plastic knob and steel screw. Jaws are 2" wide with grooves for holding round stock. Also has a handy anvil top with a cast-in hole for supporting micro size parts while drilling. Jaws open to 1-1/4".

#15118 Drill Press Vise **\$29.95**

X-Y Table Attachment Increases Drill Press Accuracy by 30 Times!

The MicroLux® X-Y Table Attachment increases the accuracy of hole locations to within .0005" of true position – 30 times better than "eyeball" center-punching! Table positioning is controlled in the X and Y directions by smooth-acting zero-adjustable handwheels. Adjustable gibs in dovetail guides maintain accuracy and eliminate side play even after many years of use, and special retractable covers keep the lead screws free of chips. Although designed specifically for both MicroLux® Drill Presses, our table attachment can be easily mounted to other machines. Includes sliding front scale, hold-down clamps, mounting hardware and template, and hardware for mounting the #15118 Vise (at left). Made of steel, aluminum and engineering polymers.

X Direction travel: 5-1/4"

Y Direction travel: 1-3/4"

Table size: 8-1/4" L x 2-3/4" D

Dial graduations: .001"; .050" per revolution

Base size: 3-3/4" x 5-1/2"

Overall size: 10-1/2" L x 7-1/2" D x 1-11/16" H

#82389 MicroLux® X-Y Table Attachment. List \$160.00... Our Price **\$99.95**

#88421 60-piece High Speed Steel Drill Bit Set is loaded with #1 through #60 high speed steel drill bits forged with M2 grade steel and fully ground to provide high wear-resistance. Use for drilling mild and standard steel, wood, plastics and more. Bits are packed in a sturdy metal box equipped with a multi-tiered, easy-access rack. Drill bits are ground with a 118° angled tip. **\$39.95**

#86372 50-piece Titanium Nitride (TiN) Coated Mini Drill Bit Set

Includes 10 each 1/16, 5/64, 3/32, 7/64 and 1/8 inch diameter high speed steel mini bits packaged in a compartmented plastic case. Use on wood, metal, plastic and more. List \$30.00 Our Price **\$24.95**

Automatic Center Punches Save Time, Increase Accuracy

Excellent for creating a dimple in wood, plastic and metal to keep your drill bit from wandering. They're also used for marking, starting wood screws, perforating, embossing, simulating rivets and countersinking miniature nails. Just set variable pressure adjustment screw for light, medium or heavy stroke, press point against surface and the self-contained hammer mechanism automatically releases.

#10101 Machinist's Type Center Punch
 Hardened and tempered point.
 1/2" dia. x 5" long. **\$14.95**

#10102 Jeweler's Type Center Punch
 Lightweight, pencil size with aluminum body, pocket clip and hardened steel point.
 5/16" diameter x 5-1/2" long. **\$29.95**

Gentle Jaws Hold Parts Securely Without Marring

#80848

#89241

Non-marring jaw faces hold parts securely, yet gently, preventing damage to soft and delicate items. Magnets on the back side keep the jaws in place on steel and cast iron vises (like #21134, at left). Gentle Jaws are 3" wide. Sold in sets of 2.

#80848 Rubber-Lined Gentle Jaws, 3" wide x 1-1/4" tall. List \$25.00 Our Price **\$14.95**

#89241 Leather-Lined Gentle Jaws, 3" wide x 1-3/8" tall. **\$14.95**

#86136 Pin Vise with Wood Swivel Head

Wood swivel head fits your palm perfectly while drilling, tapping and holding workpieces. Sure-grip knurled barrel contains two blackened steel, double-ended collets

that hold all sizes from 0 to 1/8" diameter. 4" long overall. **\$14.95**

#90317 Slim Line Precision Pin Vise offers a contoured non-slip plastic handle with an "X" sliced precision collet. Accepts #61 - 80 drills bits for delicate, balanced drilling. 3-3/4" long with knurled metal collet nut. Collet closes to zero. **\$9.95**

Use Pin Vises for Holding Drill Bits, Reamers, Needle Files, Screws, Taps, Wires... Even Pins

#21106 Heavy Duty Pin Vise for holding larger size drill bits, files, taps, etc. Plastic handle with keyless Jacobs type chuck holds all shanks from #72 (.025") – 1/4" dia. 6" long. **\$14.95**

#21105 Swivel Head Pin Vise with freewheeling head is especially suited for drilling and tapping. Nickel plated steel with two double-ended collets: 0, 1/16, 3/32 and 1/8". 3-1/2" long overall. **\$13.95**

#15116 High Precision Micro Pin Vise This exceptionally well-made Swiss tool holds micro-size drill bits from #61 (.039") through #80 (.0135"). Can be used by hand or locked in a drill press. Made of nickel plated solid brass. 2" long overall. **\$14.95**

#82110 Deluxe Pin Vise We've combined the comfort and ease of use of our Ball End Pin Vise with the convenience of our Universal Chuck to provide a tool that's sure to become one of your favorites. Holds all drills, taps and bits with shank diameters from 1/64" through 1/8". Includes four collets: 0, 1/16, 3/32 and 1/8". 4-3/4" long overall. List \$40.00... Our Price **\$29.95**

#21104 Double-End Pin Vise with reversible steel collets in each end. Hex head prevents rolling on bench. Includes 4 collets: 0, 1/16, 3/32 and 1/8". Nickel plated brass. 4-1/8" long overall. **\$12.95**

#60348 Micro Drill for Delicate Hand Drilling Knurled ring slides up and down the spiral brass handle, causing the drill bit to turn. Drill holes in wood, plastic and thin brass in half the time as an ordinary pin vise. Swivel head lets you exert downward pressure while drilling. Steel chuck holds bits from no. 61 through 80. A nicely made tool and a worthwhile addition to any modeler's or miniaturist's workshop. 4" long overall. **\$14.95**

#26101 Spiral Push Drill Often used by jewelers, this unique drill operates by pushing the handle up and down along the spiral bar. Fast, easy, accurate and portable. Better than a pin vise for drilling multiple small holes in hard-to-reach places. Steel collets hold drill bit sizes from 0" to .059" (#53). Approx. 7-1/2" long. **\$24.95**

Special Chucks Fit Cordless Screwdrivers for Slow Speed Drilling

Most drills and rotary tools spin too fast for working in plastic and for doing fine detail work. These special chucks have 1/4" hex shanks that fit slow-turning cordless screwdrivers and other cordless drills to solve this problem. Make the most of the quick-change feature of the 1/4" shank... buy several chucks and keep your most-used drill bits ready to go.

#82541 Precision Micro Chuck for Cordless Screwdriver. Holds drill bits from #60 to #80. **\$13.95**
3 or more \$9.80 ea.

#81852 Mini Chuck for Cordless Screwdriver. Holds drill bits from #59 to 1/8". **\$12.95**
3 or more \$9.75 ea.

Also works as an adapter for your oversized drill chuck, quickly converting it for precise drilling with micro-size bits.

#82416 The Rogers Drill Bit Set...

Preferred by Experienced Modelers

Ultra-sharp high-speed steel drill bits, easy-to-read markings and convenient arrangement makes this set very popular with experienced makers. Includes twenty bits (nos. 61 through 80), drill stand and clear plastic dome for safe storage. List \$36.00... Our Price **\$29.95**

Also fits Dremel drill presses and workstations.

The slots in our vise and the mounting screws we provide let you position your work in almost any location. The spring action spindle latch holds work tightly or releases in an instant. Made of steel and cast aluminum. Jaws are 2-3/4" wide x 1" deep. One jaw has horizontal V grooves to hold round stock. 2-5/8" capacity; closes to 0. A great vise for a wide variety of uses.

#82546 Quick-Jaw Vise Super Buy \$29.95

Bit & Screw Gauges

#10123 Drill Bit and Screw Gauge

Measures drill bits from #1 – #60. Includes decimal equivalents, tap, tap drill and body drill size chart for machine screw sizes from 2-56 – 1/4-28. Made of hardened and ground carbon steel. Overall size: 2-1/2" x 6-1/2". **\$19.95**

#14521 Micro Drill Bit Gauge quickly identifies micro drill bits from no. 61 – no. 80. Easy-to-read markings indicate bit number and decimal inch size. Overall size: 3" x 1". High-quality hardened and ground carbon steel. **\$19.95**

4-piece Machinist's Pin Vise Set

This well-made steel pin vise set features knurled no-slip grips and a black oxide finish to resist corrosion. Set holds drill bits and wire from 0 to 3/16". Handles are 3-1/2" to 4-1/4" long, 5/16" to 1/2" dia.

#81497 4-piece Pin Vise Set \$18.95

#85711 French-Style Pin Vise Set Beautifully crafted set of six pin vises with straight-knurled brass barrels for superior grip. Square collet nuts keep them from rolling off your workbench. Lengths range from 3" to 5". Includes 12 steel collets to handle all sizes of drill bits and pins from 0 through .144" diameter. **\$25.95**

Finger Drills for Delicate, Precise Drilling of Small Holes

These drilling tools are ideal for those times when you need the maximum amount of control for drilling in wood and plastic. And since each drill has its own handle, you won't waste time changing bits the way you have to when using a pin vise. All bits are high speed steel mounted in knurled, no-slip aluminum handles.

#60931 Set of 4, #50 (.0700"), #52 (.0635"), #54 (.0550") and #56 (.0465") \$20.95

#60932 Set of 4, #58 (.0420"), #60 (.0400"), #62 (.0380") and #64 (.0360") \$20.95

#60933 Set of 4, #66 (.0330"), #68 (.0310"), #70 (.0280") and #72 (.0250") \$19.95

#60935 Set of 4, 1/64", 1/32", 3/64", 1/16" \$20.95

Complete Micro Tap & Die Sets in SAE and Metric

These are the finest complete micro-size tap & die sets that we have ever seen. Premium-quality sets include combination die stock/tap handle, #1 and #2 tap inserts, **TWO** of each size tap, a selection of UNC and UNF non-split dies, and molded case with clear lid. **\$84.95 each**

#90523 SAE Micro Tap & Die Set
includes seven 15/32" dia. dies: 00-90, 0-80, 1-64, 1-72, 2-56, 2-64, 3-48; and two 5/8" dia. dies: 3-56 and 4-40, plus two of each matching taper taps.

#90524 METRIC Micro Tap & Die Set
includes seven 15/32" dia. dies: M1.0, M1.1, M1.2, M1.4, M1.6, M1.8, M2.0; and two 5/8" dia. dies: M2.2 and M2.5, plus two of each matching taper taps.

Ideal for jewelers, watchmakers, technicians, makers, DIYers and craftspeople!

Hard-to-Find Taps and Dies in Micro Miniature Sizes

Use these machine screw taps and dies for models, clocks, instruments, watches and business machines. Both taps (for putting threads in a hole made with tap drill) and dies (for putting threads on a rod) are high speed steel. Dies are 13/16" outside diameter and are adjustable for thread fit allowance. *See our website for individual taps and dies, tap drills and clearance drills.*

The Finest, Most Versatile Vise You'll Ever Own

This professional-quality vise is the most versatile you'll ever own! Tilt, turn, and rotate Panavise to any position with one turn of the control knob. 2-1/2" wide jaws open to 2-1/4" and close to zero. Includes replaceable satin-finish nylon jaw liners. Vise head and base are made from pressure-cast aluminum alloy with steel and brass inserts. Made in the USA.

#21123 Complete Panavise
List \$60.00... Our Price **\$54.95**

#21125 Extra Nylon Jaws \$5.95

#21124 Optional Steel Jaws \$13.95

#21126 Panavise Bench Clamp Mount Lets you move your Panavise to different locations. Securely mounts to edge of workbench, table or counter up to 3-1/2" thick. Mounting screws included. **\$54.95**

Precision Brass Mini Vise

Mini jeweler's vise holds small parts while working in the hand or on the workbench. Brass jaws are held in perfect alignment by metal guide pins, and the fine-pitch adjustment knob lets you dial in just the force you need to grip parts securely. Grooves in the jaw face hold round items in both horizontal and vertical positions. Jaws are 1-1/2" wide; open to 1-1/2". Closes to zero.

#83441 Precision Brass Mini Vise \$20.95

Well-Made Miniature Machinist's Vise at an Economical Price

Made in Japan

Our clamp-on miniature machinist's vise holds all types of small components securely. Smooth jaws won't mar your work the way serrated-jaw vises can. Made of cast iron with machined jaw faces and twin guide rods to keep jaws parallel. Includes a handy anvil surface for hammering. Clamps to benches up to 1" thick. Jaws are 1-1/2" wide with 1-1/2" capacity.

#60297 Machinist's Vise \$34.95

Non-Marring, Nylon Head Metal-Forming Hammer & Mallet

#90148

#90147

#90148 Non-Marring Nylon Wedge / Domed Hammer This dual-purpose, non-marring solid nylon mallet features a domed side for dapping and forming large areas of sheet metal, and a wedge-shaped side for bending sheet metal and wire. Solid lacquered wooden handle is contoured for extra grip. Circular domed head is 1-1/4" diameter with the wedge end tapering to a rounded-over 1/4" wide edge. 10-1/2" long overall. **\$13.95**

#90147 Non-Marring Nylon Head Mallet This double-sided 9-1/2" long mallet has a 6 oz nylon head that provides the extra bit of force needed when forming metals and materials without damaging them. Solid lacquered wooden handle is contoured in 2 places to fit securely in the hand. Head is 1" in diameter and 3-1/2" long. **\$13.95**

Economical Strip and Wire Bending Jig

A nice little tool for making bends in wire and metal strip stock. Steel pins are moved to different locations in the cast aluminum block depending on the shape you need. Includes triangular shape on one end for making bends less than 90° and a 1/2" radius shape on the other end for large smooth curves.

#60401 Wire/Strip Bending Jig \$12.95

Professional Quality Machine Forms Smooth Curves in Wood, Plastic and Metal

A Micro-Mark Exclusive!

There's never been a better, easier-to-use tool for making perfect bends in ship model planking. Works on wood strips up to 2-1/4" wide and 1/8" thick...even plywood! But that's not all: It will also make smooth, no kink curves in plastic and metal strip stock and in 1/16", 3/32" and 1/8" tubing and soft wire. Simply set the rollers for the desired radius and turn the crank to feed and form the material. You can even create perfect radius curves in model railroad rail from N through O scales. Precision machined of aluminum with steel gears. Rollers are 1/2" diameter by 3" long.

#81356 Bending Machine
List \$200.00 ... Our Price **\$149.95**

Make Perfect Bends, Even in Hard Music Wire

Wire, rod and strip bender makes angles, loops, eyes, U, C and S shapes in brass, copper, and steel, quickly and easily. Even bends the hardest music wire up to 1/8" diameter. Made of steel with rust resistant black oxide finish and hardened radius pins. 7" long arm and rubber grip gives extra leverage for tough materials. Must be locked in a vise during use.

#60346 Wire, Rod and Strip Bender
\$29.95

Vise not included

#88040 Mini Angled Precision Shear

Ergonomically designed shear is a pleasure to use while slicing your way through all kinds of materials. Leaf spring action takes the work out of normal shears, which require reopening the handles manually to perform long line cutting. Super-sharp blades cut plastic, leather, rubber, wood veneers, paper, and thin sheet metal with minimal effort.

\$17.95

Revolving Punch Cuts Perfect Holes

Revolving turret-head punch cuts easily through leather, plastic, canvas, cardboard...even thin wood veneers. Cuts 2 mm, 2.5 mm, 3 mm, 3.5 mm, 4 mm and 4.5 mm holes. Blackened steel with tempered steel punches, brass anvil and vinyl grip.

#82524 Hole Punch \$24.95

Jig for Precise Wire Forming

Intricate wire forms can be easily shaped with this jeweler's tool. The base has 326 holes drilled 1/4" apart on a diamond grid into which you place pins in the pattern you need. Wrap wire around these pins to make your wire form. 1/4" thick clear acrylic base lets you position a pattern underneath for easy pin placement. Includes 25 pins .078" diameter x 1" long. Base is 4" x 6".

#85135 Wire Forming Jig \$20.95

No-Kink Benders for Small Tubing

Make smooth, no-kink bends in small diameter tubing. 5-piece set bends 1/16", 3/32", 1/8", 5/32" and 3/16" outside diameters. Zinc plated steel.

#60360
Tubing Bender Set \$9.95

A Good Quality All-Position Vise for Less Money

#81314 All-Position Vise The head rotates 360° and also tilts from 0 to 90°, letting you position your work at the most accessible angle. All movements are locked by a single lever. For portability, the vise clamps to the edge of your workbench (up to 2-1/8" thick). Made of die-cast aluminum and nickel-plated steel. Jaws are 3" wide, open to 2" and feature slide-off rubber pads. Overall height above workbench is 6-1/4" (vertical position). A great value! **\$39.95**

Micro Punch Set is Ideal for Making Mini Gauges, Lenses, Gaskets, Washers and More!

A Micro-Mark Exclusive!

Toolmaker-grade micro punch set makes perfect miniature disks from plastic, wood veneer, cloth - even metal! And it punches tiny holes in materials virtually impossible to drill: thin metal sheet, cork, rubber, vinyl, and more. Use it on pre-printed paper gauge-faces and clear acetate sheet to create the most realistic miniature instrument panels you've ever seen. Also makes custom size washers and miniature gaskets. Includes 9 precisely ground and hardened steel punches ranging from 1.0 mm (0.039") to 5.0 mm (0.197") dia. in 0.5 mm (0.0197") increments. Approx. overall size: 1-1/4" x 2-5/8".

#83513 Micro Punch Set \$59.95

Precision-Made Mini Mallet with Muscle

This is the kind of mallet a professional toolmaker would fabricate for himself. The fully-machined 4 oz head includes screw-on tips with 1/2" dia. brass and nylon inserts for no-mar hammering. Comfortably contoured hardwood handle is secured with a screw fastener for wobble-free accuracy. Excellent for use with the Punch Set above. 9" long.

#83434 Brass/Nylon Mallet \$24.95

#83435 Set of extra tips
(one brass; one nylon) **\$9.95**

MicroLux® High-Precision Heavy-Duty 7 x 16 Lathe and R8 Mini Milling Machine... The ONLY "True Inch™" Machines on the Market!

Feature-packed design and robust construction make the MicroLux® 7 x 16 Lathe and R8 Miniature Milling Machine well-suited for your most demanding turning and machining projects. Powerful 500W (2/3 hp) variable-speed brushless motors with ultra-quiet belt-driven spindles provide the muscle, versatility and smooth operation required to create fine finishes on all machinable metals including carbon steel, stainless steel, cast iron, aluminum, brass, copper, bronze, and nickel-silver, plus non-metals such as wood and plastic. Careful workmanship and features including hardened and accurately finished main spindles supported by high precision centripetal roller bearings give you high dimensional accuracy and long life. For operating convenience, we've equipped both machines with .050 inch-per-turn "True Inch" table feed screws and dials...no tedious metric conversions required. And, with the optional accessories available separately, these machines will perform virtually any task you'll ever need. See our website for complete specifications.

Lathe features include: Super rigid, heat-treated cast-iron bed with precision-ground V-ways • Carriage power feed • Reversing switch for bi-directional automatic feed and thread cutting • Zero-resettable handwheels • Four-position tool post • Cam-lock tailstock • Packed in sub-assemblies for safe, easy transport.

#84631 MicroLux® 7x16 Lathe includes:

3-jaw self-centering chuck with inside/outside jaws and wrench, compound slide with 5/8" capacity four-position tool post and chip deflector, MT2 dead center for tailstock, carriage power feed with change-gear set for threading, thread position indicator, splash guard, chip tray, tool set and instruction manual/parts diagram.

List \$1,800.00 ... Our Price **\$1,599.95***

Milling Machine features include: Super rigid, heat-treated cast-iron base, column and headstock with precision-ground V-ways • Tilting column for angle milling/drilling • .050" per turn table feed screws with zero-resettable dials • Powerful adjustable-speed motor with feedback-sensing power boost circuitry • Lever-actuated spring-assisted headstock.

#84630 MicroLux® R8 Miniature Milling Machine includes: 1/2" drill chuck and drawbar, table locks, column lock and drill stop, power supply with feedback-sensing power boost circuitry, V-way chip guards, chuck/collet chip guard, indicator scales for the X and Z directions, fine-adjust knob for the Z direction, safety cut-off switch, wrench set and instruction manual/parts diagram.

#86680 Handwheel & Lever Kit Chrome-plated levers and anodized aluminum handwheels add gleaming shine and a blast of color, giving your MicroLux® machine the look of a hotrod in about 30 minutes. Plus, they feel as good as they look! **\$84.95**

#86681 Metal Gear Kit A superb upgrade to your MicroLux® Lathe, this kit replaces all of your lathe's stock plastic change gears for thread cutting, along with the two plastic 80 tooth gears for the power feed, with strong, dependable steel gears. A must-have item for the dedicated machinist. **\$139.95**

#84692 Digital Speed Readout for 7 x 16 Lathe and R8 Milling Machine includes magnetic base. Plugs into control panel to display spindle speed in RPM. **\$229.95**

MicroLux® R8 Milling Machine Accessories

#87348 Super Duty Power Feed

Saves laborious hand cranking and feeds table at uniform rate to produce fine milled finishes. Electronic circuitry controls table speed from 0 to 20" per minute in both directions to automatically power off motor at end of run. Includes adjustable limit stops and clutch mechanism to disengage motor for easy hand-cranking of the table. Motor/clutch assembly mounts directly to the left end of the mill table. Limit switch assembly requires 6 holes to be drilled and tapped on back of mill table. Designed for use with MicroLux® Milling Machine. List \$450.00 ... Our Price **\$429.95**

#87923 Digital Rotary Table can be mounted horizontally or vertically to the milling table for machining a wide variety of precision parts. One revolution of the handwheel rotates the 4" diameter table 5". Table has rotational accuracy of 10 seconds (0.0027"). Digital readout unit can be set to display in degrees and minutes or in decimal degrees. Readout resolution: 1 minute (0.0166"). Table has a MT2 hole and includes an adapter plate for mounting our #82512 3-jaw lathe chuck and #82505 4-jaw lathe chuck (sold separately). For use with MicroLux® Milling Machine. List \$450.00 ... #84834 Extra Tool Bits (2) **\$11.95**

Use the Radius Tool to make these shapes:

#83164 Rotating 3-jaw Live Tailstock Chuck spins on smooth, sealed bearing to support small diameter stock while turning in the lathe. Use when there is insufficient room for follower rest. MT2 shank. Includes chuck key. 1/2" capacity. **\$74.95**

#82505 4-Jaw Independent Chuck
Allows turning off-center or holding irregular parts. Body dia. = 3.150". Internal jaws clamping range = .196 to 1.378". External jaws clamping range = 1.378 to 3.150". Approx. 7/8" diameter thru-hole. **\$109.95**

#86679 Carriage Stop provides adjustable stop for multi-pass turning. Speeds-up machining process and helps to lock carriage in position for facing cuts. Locking lever allows quick tool-less adjustment. **\$29.95**

#82507 Tailstock Chuck MT2 shank. Holds drills 1/32" to 1/2" diameter. Includes key. **\$49.95**

#82502 Face Plate bolts to lathe headstock spindle using bolts from 3-jaw chuck. 6-1/4" diameter. **\$39.95**

#82501 Carbide Cutters 11-piece set with 5/16" square shanks. **\$74.95**

Most Popular Milling Machine Accessories

For Lathes & Mills!

#84700

ER Collet Sets for Milling Machines and Lathes have a wide gripping range (about .040") and provide a fast, easy and accurate way of holding tooling. When used in a lathe, they hold stock more accurately and have a better grip than chucks, and thin-wall tubes can be gripped without distortion. They're quick to set up and can be used at high speed. Our ER collet sets include a precision ground shank, "snap-in" collets with compression nut, a spanner for easy tightening, and a custom molded case.

Set #	Price	Type	Shank	Drawbar Hole
#84699	\$149.95	ER25	MT3 (Lathe)	M12 x 1.75
Includes collet sizes: 3/64, 3/32, 1/8, 3/16, 7/32, 1/4, 5/16, 11/32, 3/8, 13/32, 7/16, 1/2, 17/32, 9/16, 5/8				
#84700	\$149.95	ER25	R8 (Milling Machine)	7/16-20
Includes collet sizes: 3/64, 3/32, 1/8, 3/16, 7/32, 1/4, 5/16, 11/32, 3/8, 13/32, 7/16, 1/2, 17/32, 9/16, 5/8				

#87469

#83383

#87469 2" Self-Centering Machinist's Vise This 360°-rotating, self-centering vise features an adjustable gib to control side-play in the movement of the jaws, a removable handle that slides off for quick and easy repositioning, and 2" wide steel jaws that open to 2-1/16" to accommodate a wide variety of projects. Best of all, your workpiece will always be precisely aligned, thanks to the vise's unique self-centering design. 1/2" thick base includes 3/8" wide x 1/2" long slots at each end for mounting, either to T-slots on machine tool tables, or to a workbench. List \$210.00 ... Our Price **\$189.95**

#83383 Two-Way Vise for Milling Machine and Drill Press Mounts to milling machine or drill press table. Rotates 360 degrees and inclines from 0 to 90 degrees to mill or drill at any angle in-between. 2" wide x 1" deep jaws open 1-7/8". Height at 0 incline is 3-5/8". Includes engraved markings for degrees of incline and rotation. **\$169.95**

#84644 Precision 1-2-3 Blocks (1"x2"x3") are case hardened on all sides to 55-60 Rc and ground parallel, flat and square within 0.0003". They have 5 tapped holes (3/8-16) and 18 untapped holes so they can be bolted together in pairs to form custom sizes, angle plates, V-blocks, etc. Set includes 2 matched blocks. **\$30.95** per set

#82578 42-piece Clamping Set Includes 12 studs, 6 pairs of step blocks, 4 tee nuts (for 12 mm wide slots), 4 flange nuts, 4 coupling nuts and 6 hold-down bars, plus easy-access storage rack. **\$89.95***

#82283 3-piece Countersink Set High-speed steel, six-flute design makes smooth 82° countersinks for flush mounting flat head screws in wood, plastic, aluminum, brass and soft steel. 3-piece set includes 3/16", 1/4" and 3/8" dia. with 3/16" and 1/4" shanks. **\$24.95**

More Lathe and Milling Machine Accessories *Check tool holder capacity and shank size before ordering. User provides mounting hardware.*

#83371 Self-Centering 4-Jaw Chuck with 5/8" dia. bore. Body dia. = 3.150". Internal jaws clamping range = .079 to .866". Internal jaws jamming range = .984 to 2.756". External jaws clamping range = .866 to 2.480". Includes internal and external jaws, plus key. **\$149.95**

#82512 Self-Centering 3-Jaw Chuck Body dia. = 3.150". Internal jaws clamping range = .079 to .866". Internal jaws jamming range = .984 to 2.756". External jaws clamping range = .866 to 2.480". Approx. 5/8" dia. thru-hole. **\$139.95**

#83266 Larger Capacity Self-Centering 3-Jaw Chuck with 7/8" dia. bore allows full use of hole through Microlux® Lathe spindle. Body dia. = 3.937". Internal jaws clamping range = .078 to 1.181". Internal jaws jamming range = 1.181 to 3.543". External jaws clamping range = 1.181 to 3.150". **\$179.95**

HSS Lathe Tool Bit Sets include 8 different pre-shaped high-speed steel square shank lathe tool bits that turn, thread, groove, bore and cut-off. Choose shank size below:

#82757 Eight-Piece HSS MINI Tool Bit Set, 1/4" Square Shank x 2-1/2" long. \$44.95

#82761 Eight-Piece HSS MICRO Tool Bit Set, 1/8" Square Shank x 2-3/8" long. \$39.95

#82689 Rocker Tool Post lets you adjust position of tool bit to exact center of workpiece without shimming. Compensates for worn or resharpened cutting tools. Double-sided to hold two bits. Indexes on compound rest. 5/8" capacity. **\$49.95**

#82506 Quick Change Tool Post Mounting base with dovetail lock and three adjustable holders (3/8" capacity) let you preset tool bits to the perfect cutting height without shimming. Makes tool bit changes quick and easy. **\$129.95**

#82574 Extra Tool Holders (Set of 3) \$69.95

#82734 Milling Attachment for Mini Lathes bolts to top of cross slide to hold stock while milling with a cutter mounted in the headstock. Moves 3-1/2" vertically. Rotates on the cross slide pivot. Tilts up to 50° left or right of vertical. Heavy duty 2-5/8" wide vise holds workpieces up to 2" high. 16 tpi lead screw. Includes adjustable gibs and lock lever. Cast iron and steel with molded handwheel. **\$299.95***

#89335 6-piece Shim Set for Lathe Tool Post provides just the right selection of thicknesses to achieve critical centerline alignment when mounting a cutter. Use individually or combined to achieve the height required. Set includes: .004", .011", .019", .039", .059", and .078". Each shim is 3/8" wide x 1-3/4" long. **\$9.95**

#82766 Jumbo Cut-Off Tool and Holder Super sharp 1/2" high blade for heavy duty cutting-off of large diameter stock. 3/8" tool holder with black oxide finish fits lathe tool post. Blade is 4-1/2" long x 3/32" wide. *Note: Must be used with #82506 Quick Change Tool Post.* **\$29.95**

#82767 Extra 1/2" Cut-Off Blade \$12.95

#82753 Micro Cut-Off Tool Holder with Blade includes 1/16" wide x 3/16" high x 2-1/2" long pre-sharpened HSS cut-off blade and hex wrench. 5/16" square shank. Black oxide finish. 3" long. **\$11.95**

#82754 Extra Cut-Off Blade \$8.95

#82503 Steady Rest clamps onto bed to support long stock up to 1" in diameter. **\$59.95**

#82504 Follower Rest bolts to carriage. Follows cutting tool to prevent deflection of thin stock. **\$49.95**

#82570 Tool Rest & Spur Driver for Lathe Tool rest mounts to tool post for use with wood turning tools. Includes MT3 spur driver for headstock. **\$64.95**

A. – C. Rotary Table, Dividing Plate & Tailstock Set

Buy these 3 precision milling tools together at a money-saving combo price. Set includes:

A. Rotary Table 4" diameter. One revolution of the handwheel rotates the table 5°. Allows you to create an incredible variety of precision parts. Table has MT2 hole. Includes adapter plate to mount the #82512 3-Jaw Chuck and #82505 4-Jaw Chuck (available separately). T-slot size = 5/16". See website for full specifications.

B. Dividing Plate Replaces the handwheel on the rotary table. Accurately rotates stock a set number of degrees. Examples: for milling teeth on a gear, flats on a nut, or drilling equally-spaced holes.

C. Tailstock Supports the end of a shaft when the rotary table is placed vertically on the machine table.

#82795 Rotary Table, Dividing Plate & Tailstock Set. Value \$521.85 Our Price \$479.95*

Each item is available separately. See #82792, #82793 and #82794 at micromark.com

#89327 Bell Punch Center Finder quickly and easily locates the center of any solid, round rod from 3/8" to 1-1/2" in diameter and in any material, including wood, plastic and soft metals typically used for production on lathes, mills and drill presses. To use, insert the rod into the "bell" until the rod is in full 360° contact with the interior wall of the bell. Tap the punch shaft with a hammer to make a perfectly centered mark. A quality tool, made of machined steel. **\$25.95**

#82577 Quick-Lock Milling Vise bolts directly to top of milling table. Jaws are 4" wide x 7/8" deep and open 3-1/8". 2-5/8" high. Made of machined steel. **\$109.95**

Digital Readout Kits Provide Ultimate Accuracy for Machining, Woodworking and More

Digital Readout Kits for metalworking and woodworking machines include a remote digital display that can be positioned up to 6 feet away for easy viewing. Readings are displayed in .0005", 1/128", and .01 mm increments. Resettable to zero at any position. Includes USB data port, AC adapter power port, mounting hardware and batteries.

#86678 Knurling Tool produces a fine (0.8 mm pitch) diamond-pattern knurl on stock up to 2" (50 mm) in diameter. 13 mm mounting bar fits the stock tool post of MicroLux® Mini Lathe and many other machines. Tool is adjustable for various diameter workpieces and is designed to absorb the stress of the knurling operation without putting additional strain on your lathe. **\$64.95**

#82771 Diamond Pattern Knurling Tool Raises a series of crossed, angled ridges in a diamond pattern on workpieces and shafts, making decorative finishes and/or slip-proof grips. Pivoting head assures equal pressure of both wheels on workpiece. Dual 3/4" dia. x 5/16" wide wheels; 1/2" square x 4" long black oxide steel shank. **\$19.95**

#82743 Mini Cut-Off and Boring Bar Set includes extra-sharp 3/8" high x 1/16" wide high speed steel cut-off blade with 3/8" holder, plus 3/8" dia. carbide-tipped boring tool bit (makes cuts inside a cylinder) and 1/2" square holder. Note: Mini Cut-Off holder fits #82689 Rocker Tool Post (sold separately) and standard tool post provided with our #84631 7x16 Lathe. Not for use with #82506 Quick Change Tool Post. **\$49.95**

#82768 3-piece Fly Cutter Set Used in the milling machine to cut a large flat surface on a piece of stock. Includes 3 black oxide steel holders: 3/4", 1-1/8" and 1-3/8" diameter, 3 ready-to-sharpen tool blanks, and wood storage rack. 1/2" shanks. **\$29.95**
#82769 Set of 3 Fly Cutter Tool Blanks (one for each holder) **\$9.95**

#14255 Precision Ground V Blocks

V Blocks are the best way to hold round tubing or bar stock securely for milling, cutting, grinding, drilling and filing. Fine quality hardened tool steel is milled and polished on all 6 sides, making a perfectly matched set with all sides square to each other. Holds stock up to 1" dia. Blocks are approximately 1-1/4" square x 1-5/8" long. Set includes two V Blocks and two clamps. **\$49.95**

Keep Your Cool While You Work

#83338 MicroFlow™ Coolant System Compressor-less system directs a very fine stream of lubricating coolant only where the cutter meets the workpiece. Includes 4 liter heavy-duty tank with self-contained low-voltage pump and on/off switch, magnetic base with adjustable nozzle holder, 3 nozzles to adjust flow rate and 32' of tubing. Use with oil-less synthetic coolants only (see below). **\$59.95**

#83340 MicroFlow™ Coolant & Lubricant 16 ounce concentrate makes up to 4 gallons when mixed with water. **\$9.95**

#82284 Center Drill Set Drills properly contoured holes so workpiece can be mounted between centers. Four-piece set includes nos. 1, 2, 3 and 4. **\$19.95**

#82883 Grinder Attachment for Mini Lathe bolts to top of cross slide of mini lathes to grind stock smooth while turning in the headstock. 1/3 hp motor turns grinding wheels 6,000 rpm; plugs into 120VAC wall outlet. Includes two 3-1/8" dia. x 3/8" wide grinding wheels. **\$209.95***
Replacement Grinding Wheels – \$24.95 ea.

#82961 Wheel for workpieces (pink, 60/80 grit)

#82962 Wheel for tool bits (green, 60/80 grit)

#84683 Indexable Tool Holder Set Five 6 mm (.235") square x 2-1/2" long blackened steel shanks fit MicroLux® and other mini lathe tool holders. Triangular carbide inserts with 1/64" radius cutting tips index to 3 positions to restore the cutting edge when needed. Grade PC300 TiN-TiC-TiN coated for cutting at higher speeds and with greater lubricity. Includes 5 cutting angles: 2 left, 2 right, and 1 center, plus T8 wrench for retaining screws. **\$59.95**

#84684 5-piece Replacement Insert Set **\$39.95**

High-Precision Miniature Digital Level Measures Exact Angles of Machine Tool Set Ups

Carpenter levels are just too large and inaccurate for machine set-up. So, we encased our high precision digital level in a compact housing that's only 2" square by 1" deep. At the press of a button, the large LCD reads the relative angle between machine surfaces or the percent grade from sea level. Magnets embedded in the housing attach it securely to cast-iron/steel surfaces for hands-free measurement. Range: 0 to 45°/100%. Readability: 0.05°/0.01%. Hold button remembers last reading. The housing is made from durable CNC-machined, satin-finish alloy. Includes 9V battery and auto shut-off battery saver.

#84519 Digital Level. List \$80.00 ... Our Price **\$49.95**

**#90469 iGaging 8-piece "Right On" Precision Setup Block Set**

Used to set bit and blade heights, drill press depth stop, plunge routers and virtually every machine in your shop physically, precisely and accurately. Each 3" long block is cast in solid aluminum with anodized finish. Blocks are accurate to within a thousandth of an inch in the following thicknesses: 1/16", 3/32", 1/8", 3/16", 1/4", 3/8", 1/2", 7/8". Includes foam-lined case. **\$39.95**

**#89415 iGaging 15-piece "Right On" Precision Setup Block Set**

Used to set bit and blade heights, drill press depth stop, plunge routers and virtually every machine in your shop physically, precisely and accurately. Each 3" long block is cast in solid aluminum with anodized finish. Blocks are accurate to within a thousandth of an inch in the following thicknesses: 1/16", 3/32", 1/8", 5/32", 3/16", 7/32", 1/4", 5/16", 3/8", 7/16", 15/32", 1/2", 23/32" and 3/4". Also includes a precision 1"x2"x3" block engraved in 1/32" increments, plus case. **\$79.95**

#89414 iGaging Digital Saw Gauge This digital alignment tool will allow you to test your table saw and fence alignment, saw, router and drill press arbor run out, set jointer knives, saw blade run out and more. The Digi Align provides accurate measurements on any steel (cast iron) machine with a standard miter slot (3/8" x 3/4"). The magnetic miter bar holds the tool tight against the edge of the miter slot, while still allowing for sliding movement. The easy to read, 3-way digital indicator gives you readings in metric, inch or fractional increments. It has a 1" range, will read to within 0.0005" and features both an ABS Hold function and a data output for your computer. Battery included. **\$64.95**

Variable Speed Mini Band Saw Cuts Intricate Shapes in Wood, Metal, Plastic, Stone, Bone, Tile, Glass and More!

Band saws designed for cutting wood run too fast to cut metal, and plastic comes away as a gooey mess. The electronic speed control on our professional quality band saw lets you dial-in the exact speed you need to cut these materials. Make designs you never dreamed possible... cutting metal is so smooth and fast you'll complete your work in just 1/10th the time of other methods. You can even stack workpieces to make exact duplicates in one pass. And, with the optional diamond blade and cooling system sold below, you can easily cut intricate designs in glass, tile and other hard materials. Overall size (band saw only): 15" wide x 20" high x 11" deep; weighs 13 lbs. Includes one .180" wide x .031" kerf x 14 tpi blade, adjustable ball bearing blade guide and instructions. Made in Japan. **One great saw, so many options!**

Create Your Own Functional Mini Rivets and Eyelets for a Wide Variety of Projects

This riveting tool kit provides the main components needed to easily create aesthetically appealing, professional, uniform rivets in metal materials for hard, fast (cold) connections, and to create tubing eyelets to allow pivoting movement of layered sheeting of metals when designing jewelry and other projects. Set includes 2 oz. crosspeen/flattening hammer, adjustable-depth hole puncher for 12, 14, 16, and 18 gauge wires (hex wrench included), and hardened steel riveting block. The riveting block includes a total of thirteen precision-formed dimples, rings and holes specifically designed to create perfect mini rivets and eyelets. With a little bit of practice, you'll be creating all kinds of beautiful and functional pieces. **#90462 3-Piece Riveting Tool Kit \$59.95**

#90963 12-piece Pro File Set includes two each of the six most popular shapes: triangle, square, flat, round, half-round and warding (tapered). Each file has a fine double-cut pattern and has been heat treated to a Rockwell Hardness of 60 for long life. Rubberized handles make the files easy to hold and guide. Each file is 4" long with 2"-long handles. File pattern covers approximately 75% of the file length. This well-made set can be used on metals, plastics and more. **\$17.95**

#87913

Silicone Work Pad

Ingenious, flexible, semi-soft silicone pad provides both impact-deadening and roll-resistance, keeping miniature hardware, model parts and other tiny components from bouncing into the black hole of oblivion while handling. The pad is also naturally resistant to paint and glue, making it a great surface for scale model assembly and detailing as well. 13-1/2" x 9-1/4" x 3/32" thick. **\$24.95**

Use a Jeweler's Saw for the Finest Cuts in Any Material

Model makers, miniaturists and jewelers know how indispensable this well-balanced saw frame can be when it comes to intricate cutting. Blades will cut soft metals, wood, fiberglass, styrofoam and plastic. Adjustable frame permits blades to be drawn taut, and adjusts for blades 2-1/2" to 5-1/2" long... even accommodates broken blades. Nicely made with a steel bow and hardwood handle. Cuts up to 2-1/2" deep. Use with our jeweler's saw blades for the finest cuts you've ever seen. **Blades are not included. Order below.** Shown with optional V Block Extension. Saw frame may vary.

#22105 Jeweler's Saw \$19.95

Need a saw?

#22105 Jeweler's Saw (see details on left), is ideal for use with #87915 Bench Pin. **\$19.95**

#87915 Professional Bench Pin for Model and Jewelry Makers

Provides solid support for hand-sawing and filing soft metals, wood and more. Mounts quickly and easily with custom C-clamp (included) to work tables from 1/2" to 2-1/4" thick; dismounts just as simply. Specially designed for facilitating interior saw cuts, Bench Pin includes 3 round cut-outs and 2 oval cut-outs (one left and one right), plus an elongated V for maximum versatility. Bench Pin is approx. 3-7/8" wide x 6" long x 3/8" thick. **\$22.95**

#20127 V Block Bench Extension gives you extra control, support and space while using your jeweler's saw. Also helpful when filing and drilling. Included clamp fits any table up to 2" thick. 2-1/2" x 7". **\$9.95**

\$6.95

#80924 Toolmaker's Bench Block A nicely made tool machined from a solid block of tool steel. The smooth surface supports your work and the nine holes (from 1/8" to 5/8") allow clearance for cutting tools and punches. Use for drilling, tapping, reaming, pin punching and more. Has a V groove across the top surface for holding round and odd shaped stock. 3" dia. x 1-3/8" high. List \$45.00... Our Price **\$29.95**

#85779

Combo Bench Block

Interchangeable steel and nylon blocks fit into a non-slip rubber base that absorbs shock...lets you hammer at your work bench without creating excessive noise and vibration. Steel and nylon blocks are 5/8" x 3" dia. Rubber base is 1" thick x 4" dia. List \$40.00... Our Price **\$29.95**

#89668 Tight Mesh Heavy Duty Brass Parts Cleaning Basket

At 2" (50 mm) in diameter, our Tight Mesh Heavy Duty Brass Parts Cleaning Basket is twice the size of others on the market. Super-tight 15 thousandths-of-an-inch mesh screen keeps loose parts safe and secure within its roomy 1.5" interior. Designed for use in ultrasonic cleaners, parts washers and solvent baths, this basket holds all components, jewelry pieces and more without letting them slip through the screen. The two halves of the basket simply screw together, making it easy to open and close and reliable to use. Two deeply knurled rings around the basket provide a no-slip grip, even when wet with cleaning solution. **\$18.95**

#89250 Pocket-Size Micro Plier Set with Case At less than half the size of ordinary pliers, these Micro Pliers fit into tight spaces and confined areas where other tools simply can't! You'll be very pleasantly surprised at just how much these little tools can do! Set includes chain nose, flat nose, round nose and diagonal soft-wire cutter in a velvet-lined, zippered leather case. Each plier is just over 3" in length with leaf-spring return. **\$24.95**

#87914 1,000-Piece Metric Phillips Micro Screw Set

You asked for them, and now you've got them! Approximately 60 each of 18 micro sizes. Used by jewelers, modelers, machinists, scratch-builders, repair technicians, and countless other makers. These nickel-plated-steel screws have 1.2 mm thread diameter with 0.25 mm thread pitch. Set includes a selection screws with 1.6 mm diameter heads in 1.6, 2.0, 2.5, 3.0, 3.5, 4.0, 4.5, 5.0 and 5.5 mm lengths and screws with 2 mm diameter heads in 2.0, 2.5, 3.0, 3.5, 4.0, 5.0, 5.5 and 6.0 mm lengths, all neatly packed in a plastic storage box. **\$24.95**

#89122 Heavy Duty Pry Knife

Designed for opening fine watch cases without damaging or scratching, this handy tool is also great for quickly and safely opening battery boxes, model locomotives, key fobs and more. It might look like a knife, but the beveled steel blade is not at all sharp. Instead, its finely tapered edge is designed to easily slide between mating parts to do its job. 5-1/2" long; 7/8" diameter. Includes 2 blades and hex wrench. **\$17.95**

#89667 Deluxe Deep Cut Jeweler's Saw

4" throat provides 62% more depth capacity than our standard-size saw for added versatility. The sturdy frame features a built-in blade tensioner for straighter cuts.

NOTE: BLADE IS NOT INCLUDED.

Accepts blades up to 6" long (see below). 12-1/2" long overall. **\$28.95**

#89243 Pocket-Size Bow Saw Measuring just 4-1/4" long, this mini saw not only provides delicate control, go-anywhere versatility and precision when sawing a wide range of materials, its clever design allows you to work with virtually any jeweler's saw blade...even the still-good fragments of previously useless broken blades! Well-made of steel, brass and lacquered wood, this handy saw includes 2 knurled nuts spaced only 1-3/8" apart to tightly secure the blade. **\$14.95**

#10118 4" Blade, 2-1/2" Beam **\$19.95**

#10119 5" Blade, 3" Beam **\$22.95**

#83226 Set of 3. List \$57.85 Price **\$39.95**

#86729 Cup Burr Tool Simple and economical, it works faster than a file and makes a neat, smooth, rounded end on wire up to 18 gauge. 5" long overall with a 1.8 mm (1/16") diameter cup. **\$12.95**

#86700 Jewelry with Wire, by Suzanne McNeill, softcover

Learn to bend 20-gauge wire into swirls and curls to create fabulous jewelry. Add a few beads for color and you will be stunned at the results. The jewelry is so beautiful and striking that you will have friends asking you to make one for them. Step-by-step photos and instructions for more than 50 beautiful projects! All the foundation skills you'll need to design your own wire jewelry: shaping wire, closures, chain styles, bead units, jump rings, coils, cloverleaves, spirals, incorporating beads and stones, and more! **\$9.95**

#86732 Wire Straightener Tool Nylon rollers make it easy to straighten and smooth wire that has already been worked. Saves money by allowing you to reuse wire that would otherwise be wasted. How it works: Put the rollers in your hand in the open position with each of the rollers side by side. Lay the end of a piece of wire that requires straightening on the three rollers, then move the rollers until they form a triangle with the wire in the center. Grasp the rollers in one hand holding tightly, then pull the wire through the rollers to straighten. Nylon rollers help keep wire coating intact. **\$14.95**

#86733 One-Step Looper

With this fantastic tool, you can create and trim eye pins all in one motion. Works with dead-soft or half-hard precious metal wire, craft wire, copper or brass core wire between 26 and 18 gauge. This tool is fast and easy to use, and makes perfect 1.5 mm diameter loops every time with just a squeeze of the handle. For clean and consistent eye pin loops, this tool is the best! Not for use with hard wire. **\$34.95**

"Parrot Peak" Gem-Setting Pliers

These three specialized pliers are essential for properly setting gems and adjusting the prongs of fine jewelry pieces. Commonly called Parrot Peak pliers, each has been designed to accomplish specific operations.

#90143 Parrot Peak Prong Opening Plier

Grooved, specially formed tip gently bends prongs outward to remove gems. **\$14.95**

#90142 Parrot Peak Stone Setting Plier

Offset, grooved jaw holds prongs securely, yet gently while tightening. **\$14.95**

#90149 Jeweler's Vectoring Plier

Flat, tapered jaws draw prongs toward each other laterally around the gem ensuring a perfect fit. **\$14.95**

#89247 Wire Bending and Wrapping Jig packs a grid of 193 holes into just 5-3/4" x 1-1/4" x 1/2" of space, allowing you to form thin-gauge brass, copper, aluminum and precious metal wire into shapes from smooth and simple to intricate and complex. And, creating duplicates of even the most involved design is a breeze! Includes jig, 20 each 3/32" and 1/8" dia. steel pins and a selection of plastic wrapping tubes. **\$34.95**

Step Up to Our Very Best Wire Cutters

These slim precision tools are right at home working in confined spaces; plus, their carbide cutting inserts leave a smooth, burr-free edge on both hard and soft wire. Made of high carbon 420 Japanese surgical stainless steel with gold electro-polished handle ends, these powerful cutters will even slice through music wire up to .026" with ease. Set includes a 45° angled flush cutter that cleanly snips wire right-to-the-tip, and a straight-jaw cutter with a perfectly matched pair of "L" shaped carbide edges that act as a male / female die set, leaving a flat, distortion-free end. These beautifully made cutters are ideal for jewelry designers and other serious makers. Each plier is 5" long.

#89944 Slim Line 2-piece Hard Wire and Soft Wire Cutter Set
List \$175.00 ... Our Price **\$69.95**

Slim Line Titanium Coated Precision Metal Forming Plier Set

These beautifully-crafted wire forming pliers are made of surgical-quality Japanese stainless steel and titanium plated for precision and durability. Set includes a Micro 3-Step Looping Plier with 3/64", 1/16" and 5/64" looping pin and matching concave receiver on the opposite side, and a 4-Step Bending Plier with 1/8", 11/64", 7/32" and 1/4" steps and flat-facing internal jaws with one slightly serrated side for gripping and one non-serrated side. These high-quality tools are excellent for use in jewelry design and other fine wire work. Each plier is 5" long.

#89945 Slim Line 2-piece Titanium Coated Precision Metal Forming Plier Set
List \$65.00 ... Our Price **\$49.95**

Our high-quality, non-marring, Nylon-Head Metal Forming Pliers are perfect for forming and contouring brass, copper and precious metal wire and metal strip stock without marring the material. Made of stainless steel, these pliers feature box-joint construction, leaf spring return and medium density foam handles which provide superior comfort and ergonomics compared to pliers with PVC-coated handles. Also, the nylon heads can be customized to your own design, if desired, by carving and shaping the existing head shape to your own specifications. Each plier includes an additional head for this purpose, or, to use as a replacement if the original head becomes damaged. Pliers are 5-3/4" long.

#89796 Large-Radius Nylon-Head Metal Forming Plier Perfect for creating wide-diameter rings, earrings, cuff bracelets, and more. Head is 7/8" x 3/8"; forms 3" to 4" circles. **\$12.95**

#89797 Medium-Radius Nylon-Head Metal Forming Plier Makes 5/8" to 1" diameter circles. Head is 3/4" x 3/8". **\$12.95**

#89798 Medium U-Shape Nylon-Head Metal Forming Plier makes smooth curves up to 3/8". Head is 13/16" x 3/8"; inner "U" shape has a 13/32" wide male head centered in the female side of the head. **\$12.95**

#89799 V-Shape Nylon-Head Metal Forming Plier makes 1°-90° angular bends; also forms rings and curves when light bends are made at close intervals. Head is 1-1/8" with a 1/2" wide x 9/32" deep V notch. **\$14.95**

#89245 16-Slot Wooden Tool Organizer Store up to 16 small tools in 7" x 4" x 3-1/4" of space with this handsome organizer. Offset rows keep tools visible and accessible. **\$18.95 2 or more \$14.95 ea.**

#89244 12-Space Wooden Tool Organizer

Hold up to 12 small tools in a 4" diameter space with this nicely-made wooden organizer. Round holes are approx. 1/2" diameter. Approx. 3" tall. **\$15.95 2 or more \$12.95 ea.**

#90145 Non-Marring Nylon Jaw Tube and Rod Plier Nylon jaw inserts eliminate marks and nicks when working with wire, rods and tubing. Designed with mating semi-circular indentations in each jaw side, the plier safely holds #6 - #16 gauge wire and tubing, and rods from .050" to .160" dia. Tips close to zero to grab even thinner material. 6-1/2"-long stainless steel plier features leaf springs, box joint construction, and foam grip handles. Includes an extra pair of nylon jaw linings and screws. **\$15.95**

#90144 Non-Marring Brass Jaw Flat-Nosed Plier This non-marring brass-lined plier offers a much firmer platform than the nylon-lined type for superior bending, and the flat, half-hard brass won't damage the material being formed. The 1/4" wide by 7/8" long brass jaw linings have tips that close to zero. Made from stainless steel, this 5-3/4"-long plier features leaf springs, box joint construction, and super-comfortable foam grip handles. **\$15.95**

Not for use with soft wire.

#89117 Hard Wire-Cutting Plier with Carbide Jaw Inserts Got a hard wire cutting job? Either you can get this plier or plan on trashing anything else! Carbide inserts at the jaws' cutting edge bite through music wire up to 13 gauge (.031") and other spring-type wire up to .048" with ease. Other quality features include box joint fulcrum for exceptional leverage without straining and spring return action. 7" long overall with 1" nose. **\$29.95**

#89119 90° Bent Nose Plier This clever variation of needle nose pliers features non-serrated tapered jaws that are bent at a 90° angle, 3/8" from the tip. This allows the jaws to grip in tight spaces and at angles which ordinary pliers can't. Useful for many applications including soldering, wire and jewelry work, model building and more. Box joint construction with leaf spring return. 5-1/2" long. **\$9.95**

#90146 Coil Cutting Plier for Jump Rings It may look funny on its own, but this unique specialty plier was specifically designed to make perfectly round jump rings quickly and easily. Review our video and see how well this special tool performs an otherwise arduous and time-consuming task. Made from stainless steel, this 7"-long plier features leaf springs, box joint construction, and super-comfortable foam grip handles. Works best on 1/8" to 5/16" diameter jump rings. **\$15.95**

#90189 Brass Parallel Hand Vise This well-made mini vise securely holds small parts while working in the hand or on the workbench. Inner faces of the jaws are grooved to hold round stock. Jaws are 3/8" wide x 11/16" deep, and open from zero to 9/16". Machined and lacquered hex-shaped handle feels comfortable in your hand. Overall length is 6". **\$20.95**

3-piece Aerospace-Style Angled Mini Shear Set

Extra fine jaws reach into confined spaces. Tip angles of 21°, 45° and a unique *reverse angle* of -45° permit both front and back cuts. 3-plier set has corrosion-resistant blackened steel jaws, spring-loaded handles and cushioned no-slip grips. All pliers are 5" long. *Not for use on steel. Grip color may vary.*

#82526 Angled Mini Shear Set \$34.95

Screw Chek'r Instantly Identifies Drill Bits, Screw Sizes and More

Our popular inch and metric Screw Chek'r are ingenious, threaded gauges which quickly tell you size, threads per inch, tap drill size, clearance drill size, length and basic diameter.

They also straighten bent screws and clean up rusty and battered threads. Made in the USA of heavy gauge, satin chrome plated steel. Instructions included.

List \$35.00 each ... Our Price **\$27.95 each**

#60361 Inch Screw Chek'r for American and Unified screws from number 1 through 5/16". Also identifies wood screws, sheet metal screws, rivets, cotter pins.

#60345 Metric Screw Chek'r for metric screws from 2 mm through 7 mm.

Miniature Pry Bar

Great for pulling miniature pins and nails, railroad spikes, staples, etc. Has .040" wide x .137" long slot in a chamfered tip; 2" long blade.

#81576
Miniature
Pry Bar **\$11.95**

Economical Nut Starter

#2116X3
Gripster has micro spring fingers that grab the outside of the nut. Works on miniature sizes #00 - #10. Releases by pressing trigger on back end. 4-1/2" long. Set of 3. **\$9.95**

#86628 Universal Mini Nut Starter Miniature nuts are a pain. They're hard to pick up and even harder to thread. This tool does both so easily that you'll think you're cheating. Holds all of our miniature nuts from .056" to .125". Cap nuts, star nuts, lock nuts or round nuts...any pattern works. Grab the nut right from your workbench and screw it on! Also great for holding round shanks and hex screws in the same size range, and for eyeglass hinge screws as well. If it's tiny and needs twisting, this tool can do it 3-3/4" long.

\$24.95

8-piece Open Ended Wrench Sets

Made in the USA! These high-quality miniature wrenches are offered in sought-after small sizes. Moody Brand Acu-Min Multi-Steel handle with 30° offset. 4" long. Comes in vinyl pouch with clear front and secure flap-snap.

#88396 4-Piece Gripster Tool Set

Press the top of these unique tools and 2, 3, 4 or 5 slim, stainless steel prongs emerge from the tip. Release pressure and the prongs close around the object, gripping it tightly. Set includes four Gripsters and fitted wood storage box. **\$29.95**

#90654 Silicone Anti-Skid Bench Protection Mat

Two-sided 14" x 24" lab-quality mat provides a smooth, non-stick work surface for a variety of uses. Also keeps high-vibration benchtop power tools from moving around during operation. Includes embedded magnets to hold small parts and components. Dishwasher-safe. **\$49.95**

Grab Small Items with the Push of a Button

#80240 4-piece Nutdriver Set is sized specifically for use with our miniature hardware at right. Includes 4 special nutdrivers for 00-90 (5/64"), 0-80 (3/32"), 1-72 (7/64") and 2-56 (1/8") hex head screws and nuts. **\$29.95**

Self-Closing Stainless Steel Specialty Tweezers Provide New Angles on Small Parts Placement

A Micro-Mark **Exclusive!**

#90700

#90701

#90702

#90700 Bird Beak Fine-Point Tweezer goes where no other tweezer can. Smooth-curved shank takes an "L" shaped turn, allowing you to go around obstacles to place and remove delicate parts. Self-closing action provides sure grip until you are ready to release the part. Also holds tiny parts with limited gripping area while you manipulate, paint and trim. 4-1/4" long with 1/4" angled tip. Only 1/32" wide when closed. **\$10.95**

#90701 45° Reverse-Angle Fine-Point Tweezer enables the user to work in confined areas and to manipulate delicate components and parts at a different angle than straight-tipped fine-pointed tweezers. Use with the tip pointed upward or downward. Self-closing feature alleviates hand weakness for maintaining grip. Tweezer is 5" long with 3/16"-long tip. Opens to 1/2" wide; only 1/16" wide when closed. **\$10.95**

#90702 Reverse-Angle Wide-Grip Tweezer Wide, serrated tip pads provide more gripping action than typical fine-pointed tweezers. 5-1/2" long with 1/4" wide tips. **\$10.95**

A Micro-Mark **Exclusive!**

A Micro-Mark Exclusive!

#60662 Super Leverage Metal Shear The unique design cuts like a male/female punch and die, not like a scissor. That's why it's the only tool we know of for under \$100.00 that will cut sheet steel up to 18 gauge (.0478"). It will also cut thicker, softer metals (aluminum and brass up to .065") with a lot less effort. Spacing between the hardened steel jaws can be adjusted to accommodate wear and different thicknesses of metal. Made entirely of steel with vinyl grip handles. 10" long overall. **\$13.95**

Jaw Detail

#83260 Bits and Pieces of Metal Nearly 1 lb. of assorted sizes and shapes of metal tubes and rods in lengths up to 5". **\$28.95**

#81774 101-piece Spring Assortment Includes a selection of industrial quality extension, and compression springs for a variety of applications and uses. **\$11.95**

#86588 Xuron Micro Bending Plier Uniquely shaped jaws form intricate shapes in wire and light gauge strips of brass and aluminum. Features Xuron's Light-Touch™ return spring plus non-slip Xuro-Rubber™ grips for comfort and control. **\$21.95**

Finally... A Metal-to-Metal Glue that Really Works!

Sometimes you just want to join metal parts and assemblies to other metal parts and assemblies without the hassles of soldering or welding. This instant-cure metal-to-metal glue makes that process quick and easy. Tested in the Micro-Mark shop, this product gets the job done like no other. 1 oz bottle with applicator tip.

Note: As with other CA adhesives, safe handling is important. See our website for details.

Ships by ground to 48 contiguous U.S. only.

#89160 Altec MR Metal Cyanoacrylate Adhesive, 1 oz **\$24.95**

Versatile Hand-Held Cutting Jig for Metal and Wood

Use this nicely made, hand-held mitering tool to make quick, accurate 15°, 30°, 45° and 90° angled cuts in round metal tubing, rods and wood dowels, as well as making clean 90° cuts in metal and wood strip stock, model train rail and more. Hardened, machined steel head is mounted onto an ergonomically-contoured 4" wood handle. Includes an integrated hold-down bar to keep fingers clear of the cutting area and 0 to 1" adjustable/removable stop for making repeated cuts. Slotted head accommodates saw blades up to .015" thick. For added capability, the head can be removed from the handle and secured in a vise. V-grooved channel holds stock from .010" to .25" high.

#87908 Multi-Angle Metal & Wood-Cutting Jig. List \$75.00 ... Our Price **\$59.95**

#84255 Pipe and Tube Tweezer Set Specially contoured tweezers securely hold round or hex-shaped objects while fabricating, assembling and soldering. Angular tip lets you access tight places. Set of 4 works on sizes down to approx. 1/8" dia. Made of durable, non-magnetic stainless steel. **\$19.95**

A Micro-Mark Exclusive!

Small enough to work with fine parts requiring precision and control, yet sturdy enough to apply a hefty 250 lbs. of force, **Press-It** is perfect for press-fitting small assemblies together and for removing gears and wheels from axles. Use as a hole punch with optional tooling (below). Includes press with 3/32" press tip, die bore plug, ram thumbscrew, adjustable nylon glib and instructions. Constructed of steel and aluminum alloy. Base is 7" x 3". Throat depth is 4-1/4".

#83539 Press-It. List \$125.00 ... Our Price **\$79.95**

#83708 9-piece Tooling Set for Press-It includes 1/16" tip; bored cone for pointed axles; 3/16" blank; oversize 1/2" O.D. tip; center punch tip; and 1.5 mm, 2 mm, 3/32" and 1/8" bored tips. **\$19.95**

#83709 9-piece Hole Punch Set for Press-It includes one punch and one die in each of the following inch sizes: 1/16, 5/64, 3/32, and 1/8, plus adapter needed to mount punch to bottom of ram. Note: Maximum thickness for all hole punching is .020" half-hard brass or equivalent. List \$75.00 ... Our Price **\$39.95**

#88038 8-piece Fiber Grip Tweezer Set with Leather Case

This set of exceptional tweezers is perfect for use in many applications, including jewelry work, brazing, soldering and any type of small parts handling. Set features 6 cross-lock type (self-closing) and 2 non-locking, all with fiber grips that protect the user from excessive heat when soldering parts. Sizes range from 6-1/4" to 6-3/4" long with serrated tips for sure grip. Cross-lock tweezers include straight, oblong (5/16" to 1" capacity), round (5/8" to 1-3/8" capacity), square (1" to 1-3/4" capacity), angled and curved; non-locking tweezers have straight tips and open/close from 0 to 3/4". 6-1/4" to 6-3/4" long. All are packed in a zippered leather case. List \$40.00 ... Our Price **\$29.95**

Unique Fiber Grip Tweezer Set

#84746 Wheel & Gear Remover is made to safely remove wheels and gears from axles and shafts. Use the included hex key to turn in the threaded ram; the shaft will be pushed out of the gear. Same for axles and wheels. Works on axles and shafts 1/16" dia. and larger; wheels and gears up to 1-5/8" dia. Includes 2 rams (approx. .058" and .098" diameter tips), plus V-plate for small wheels, gears and shafts. Clearance under ram 3/4"; slot width 1/2". **\$29.95**

Bare-Metal Foil Adds the Finishing Touch to Models

No matter how hard you try or what paints you use, no painted surface compares to real metal. The pro modeler's choice for decades, Bare-Metal Foil is adhesive-backed real metal, only .0005" thick. It's easy to apply, conforms to all curvatures, and allows details to show through. And now, with the widest selection of colors and finishes that we've offered, you'll be able to quickly replicate nearly any metal surface more realistically than ever before. Each package includes **TWO** 6"x 12" sheets and instructions. Choose color/finish below. **\$16.95/pkg.**

#80795 Matte Aluminum

#81636 Ultra-Bright Chrome

#90985 Chrome

#90986 Black Chrome

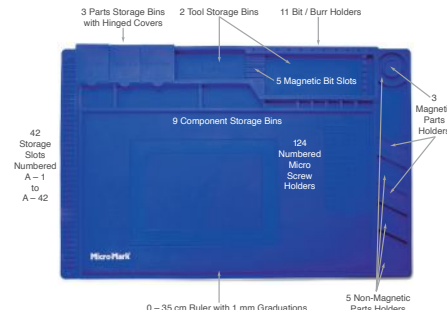

#90988 Gold

#90989 How to Use Bare-Metal Foil, by master modeler Dennis Doty, is a detailed, step-by-step explanation of the best techniques for applying Bare-Metal Foil. **\$5.95**

#82328 5-piece Burnishing Set for Bare-Metal Foil, masking materials, and more. **\$14.95**

#82747 Quick-Lock Milling/Drilling Vise Specially designed vise adjusts quickly and easily to hold stock securely while drilling, machining and more. 2" wide x 5/8" deep jaws have grooves for holding round objects; opens 1-1/2". Overall height 1-5/8". Made of machined steel. **\$74.95**

#90965 Micro-Mark Silicone Work Mat features multiple magnetic areas and over 150 compartments to help keep small hardware, bits, etc. in place and organized. 17.3" x 11.8" workspace provides ample room for a wide variety of projects, then rolls up for easy storage. Made of soft yet durable silicone, the mat's naturally non-stick surface protects delicate items from damage while assembling, repairing, painting, and more. Heat-resistant to 932°F, this multi-purpose mat is also great for soldering work. **\$19.95**

High-Performance, Professional Quality Resistance Soldering at an Affordable Price!

A Micro-Mark Exclusive!

Complete outfit includes everything shown here for one low price!

Easy-to-use MicroLux® Resistance Soldering Unit generates heat only at the joint, so that already-soldered parts won't fall off while adding new ones. How it works: With the ground clip connected, place the carbon electrode on the tip of the handpiece in contact with the part to be soldered and step on the foot switch. The transformer passes a safe, low-voltage electrical current through the part, which heats it to soldering temperature within seconds. Apply the solder, then release the foot switch to instantly cool for a strong, durable joint. Includes 63 watt* transformer with dual power outputs for heavy-weight and light-weight parts, handpiece, 6 carbon electrodes, ground lead, on/off foot switch, and instructions.

#85522 MicroLux® Resistance Soldering Unit with Single Electrode Handpiece \$179.95

**Since a resistance soldering unit concentrates heat at the joint, it will heat larger work than will a conventional soldering iron of the same power.*

#87726 MicroLux® Resistance Soldering Super Value Package includes soldering unit set, soldering tweezer, stand, Stay Brite silver solder and flux, 6" x 6" soldering pad, T-pins and metal assortment. Value \$323.69 **Super Buy \$229.95**

#87726K Resistance Soldering Accessory Value Package includes everything in the set above except the resistance soldering unit. Value \$143.19 **Super Buy \$119.95**

#86589 MicroLux® Soldering Tweezer holds tiny parts together while applying gentle isolated heat. Works great on a wide variety of materials. Designed for use at the low power setting of the MicroLux® Resistance Soldering Unit. List \$80.00... Our Price **\$59.95**

#85824 Grounding Vise for Resistance Soldering Unit is the perfect "workstation" for resistance soldering. Universal vise with heavy, cast-iron base holds your workpiece securely while you solder. 3-foot long cable connects directly to your resistance soldering unit; eliminates the clip lead. Repositionable vise pins securely hold objects of any shape. Base diameter: 6". List \$100.00 Our Price **\$69.95**

Resistance Soldering Outfits from American Beauty

Tweezer Handpiece

Plier Handpiece

Single Electrode Handpiece

Includes On/Off Foot Switch

Use for soldering power feeds to model railroad track (the fast, pinpoint concentration of heat won't melt nearby plastic ties), brass trestle construction, turnout fabrication, rail joining, brass scratch-built items, ship model railings, fittings and more. Works on any material that can be soldered. Use the tweezer handpiece for delicate work: fine wire, chain, etched detail parts, railroad rail. The plier handpiece is for larger parts: castings, brass structural shapes, etc. American Beauty brand made in the USA to heavy-duty industrial standards.

Each set includes 120VAC* power supply, handpiece and foot switch

Item #	Power	Handpiece Type	List Price	Our Price
#85075A	100 watts	Single Electrode	\$550.00	\$469.95
#80417A	100 watts	Tweezer	\$550.00	\$469.95
#80462A	250 watts	Tweezer	\$650.00	\$529.95
#81561A	250 watts	Plier	\$700.00	\$549.95

**120VAC versions are available at www.micromark.com*

#80765 Tweezer Handpiece only with .078" diameter pointed electrodes **\$169.95**

#80418 Extra Electrodes for Tweezer Handpiece (6) **\$24.95**

#81527 Plier Handpiece only with 1/4" square shapable carbon electrodes **\$209.95**

#81559 Extra Electrodes for Plier Handpiece (2) **\$29.95**

#80419A Single Electrode Handpiece with 48" cord plus ground lead with clip and 60" cord. Use for applications that are not suitable for tweezer or plier use. Clip is attached to one part and electrode is touched to the other. **\$169.95**

#80420 Extra Electrodes for Single Electrode Handpiece (6) **\$59.95**

Iso-Tip Cordless Soldering Iron

Now you can perform soldering operations away from your workbench without power cords that weigh you down or get tangled. Convenient recharging stand keeps your iron easy to reach, on constant charge and ready to solder. Recharges completely in 3 to 4-1/2 hours; a partially discharged battery returns to full capacity in less than one hour. Set includes cordless soldering iron, recharging stand, work light and "lock-off" switch, one fine tip (our #50314), 1 heavy duty tip (our #50315) and instruction booklet.

Power: 25 watts; maximum temperature: 900°F

#50313 Iso-Tip Cordless Soldering Iron. List \$89.95 Price **\$74.95**

Extra Soldering Tips - \$12.95 each

#50317 Micro Tip

#50314 Fine Tip

#50315 Heavy Duty Tip (high wattage)

#87467 3-in-1 Pen Torch You'll appreciate the precise control this mini torch gives you for delicate soldering jobs. The pin-point torch flame can be adjusted from 3/8" to over 1/2" in length and reach up to a maximum temperature of 2450°F. Includes a soldering attachment that converts your torch to a cordless soldering iron in seconds, with a tip temperature up to 750°F. Torch may also be converted to a Hot Air Blower. Burns up to 1 hour as a torch, 2 hours as a soldering iron. Torch is 7" long, (8-1/4" with soldering head attached) with 3/4" diameter barrel. Fills easily from a standard butane can (sold separately). List \$35.00 Price **\$24.95**

#60909 Butane Fuel, 42 grams (ground ship to 48 contiguous U.S. only) **\$7.95**

Torch includes integrated flip-down stand and soldering attachment with 2 pointed soldering heads.

Soldering Tweezers with Built-in Stands Hold Wires for You

A Micro-Mark Exclusive!

Self-closing tweezers include built-in 4-sided stands which hold workpieces and wires for you, elevating them above the benchtop or soldering pad and keeping both hands free for you to solder. Fiber handles protect your fingers from residual heat. Serrated steel tips open to 1". Overall length approx. 6-1/2". Use several tweezers and different combinations to hold parts in perfect alignment and just where you want them while soldering.

#85151 Soldering Tweezer with Stand **\$14.95** 2 or more **\$10.95 ea.**

#88576 Double Soldering Tweezer with Stand **A Micro-Mark Exclusive! \$24.95**

Use these small, light duty hemostats as super-slim needle nose pliers, clamps, heat sinks, vises, etc. Quality box joint construction. 5" long. Serrated jaws. **\$12.95 ea.**

2 or more, same no., stainless only **\$9.50 ea.**

#21110 Straight Tip, stainless steel

#21111 Curved Tip, stainless steel

#88583 Straight Tip, titanium plated **\$14.95**

#88584 Curved Tip, titanium plated **\$15.95**

A Micro-Mark Exclusive!

#87864 **Splice-It-Easy Soldering Tweezer** Specially designed tweezer is ideal for splicing wires faster, easier and cleaner than ever before. A simple one-handed pinch to lock or single thumb-flick to unlock is all it takes for this amazing "third hand" to do its job. Just locate your splice in the center of the 1/2" x 5/8" window and let the tool's serrated jaws and clever locking mechanism do the rest. Made of solder-resistant stainless steel. Holds stranded and solid wire from #28 to #18. Overall length: 8-1/8". List \$26.00... Our Price **\$19.95**

Tix – The Hardest Soft Solder on Earth

#17110 **Tix Solder** Easy flowing solder melts at only 275°F and yet has the holding power of 4,300 lbs. per square inch. Adheres to all solderable metals and works with soldering iron, gun or torch. Will not tarnish. The jeweler's choice for years. Package of twenty 3" long sticks. **\$21.95**

#17111X2 Tix Flux

Cleans and prepares metal for best solder adhesion. Works with any soft solder. Washes off with water. Note: Not for use with printed circuit boards.

Two 1/2 oz bottles. **\$12.95**

#17112X2 Tix Anti-Flux

Prevents solder from flowing to unwanted areas. Brushes on easily. Two 1/2 oz bottles. **\$12.95**

A Micro-Mark Exclusive!

#89083 Tix Soldering Rack by MicroLux®

is custom-made to hold two sets of Tix Soldering Sticks, Tix Flux and Tix Anti Flux (not included; available separately). Rack not only keeps Tix products neat and organized, it helps prevent the small bottles from tipping over during use. Rack measures 4-3/4" long x 3-3/4" deep; 2-1/4" high. Makes a great companion to our #88700 MicroLux® Paint Rack and #88879 MicroLux® Gluing Station (available separately). Assembly required. **\$14.99**

#60381 Soldering Iron Stand

Chrome-plated coils with a 3-1/4" x 5" enameled steel base. Fits our #17107 Soldering Iron/Knife and other soldering irons and pen-type torches with barrels up to 3/4", 5-1/2" high. **\$12.95**

**HOT ITEM!**

Micro-Mark Variable Temperature Soldering Station Has All the Features and Performance You Want...Without the High Price Tag

#84383 **Micro-Mark Variable Temperature Soldering Station** gives you a higher level of performance than you can get with a standard gun or iron, but without the cost of an industrial-type soldering tool. Features variable power control from 5W to 40W (up to 900° F), allowing one tool to do the work of several. Includes soldering iron with cushioned foam grip, soldering tip, on/off switch with power-on light, safety guard iron holder and sponge pad for tip cleaning. List \$45.00... Our Price **\$29.95**

#84384 Set of 3 tips for #84383 **\$7.95**

#84385 Set of 3 sponges for #84383 **\$6.95**

Stainless Steel Micro Mini Clamps Hold Where Others Can't

#14533X2 **Micro-Mini Clamps, Alligator Jaw (3/8" Capacity, Set of 12)**

Our spring-loaded micro-mini clamps are ideal for all types of small applications. Jaws may be filed or ground to any shape. Especially good for soldering since solder won't stick. **\$12.95**

The Easy Way to UNSolder

Place our desoldering braid in contact with the joint you want to unsolder and heat with your soldering iron. The flux-impregnated braid will quickly and safely draw the solder out of the joint. You can then separate and renew the joint easily. Works on mechanical assemblies and electronic circuitry. Supplied in a 0.100" wide x 25 foot-long roll.

#85289 Desoldering Braid **\$24.95**

Stay-Brite™ Silver Solder

Stay-Brite™ premium silver solder works on **all** metals except aluminum (even stainless steel and cast iron). It flows freely and smoothly and has over twice the tensile strength of regular solder. Melts and flows at only 430°F, providing strength without distortion. Includes a 1/2 oz coil of solder and 1/2 oz bottle of Stay Clean flux. Can be used with resistance soldering equipment, soldering iron or torch. Stay-Brite is lead free.

#80822 Stay-Brite Silver Solder **\$24.95***

#60664 **Solder-It Soldering Paste** Just apply a small amount from the convenient, no waste syringe and heat with soldering iron or torch. The paste bubbles away, leaving a clean, bright, hard joint that won't tarnish. Has over twice the tensile strength of regular solder. Flows smoothly at just 430°F. Solders all metals, except aluminum, zinc and pot metals (even solders stainless steel). Ideal for jewelry, models, autos, electrical connections and more. Contains no lead or corrosive materials. 7.1 grams. **\$12.95**

#60393 **Cross-Locking Heat Sink Tweezer with Slotted Tips** holds small diameter hook-up wire in place and draws heat away from the insulation so it won't melt. Keeps soldering jobs neat while preventing short circuits and burned fingers. A half-round slot milled in both jaws holds wire securely. Made of stainless steel with heat resistant grips. 6" long. **\$14.95**

#21120

**"Third Hands"
Keeps Your
Two Hands
Free to Solder,
Assemble, Etc.**

#21120 Triple Grip Third Hand Used by jewelers, model builders, miniaturists and electronic hobbyists. Keeps your hands free for soldering, gluing and positioning while work is held firmly at any angle required. Has 3 alligator-type spring clamps mounted in ball joints for flexibility. Nickel plated steel with heavy iron base for no-tip stability. **\$9.95**

#84453 Lighted Third Hand with Magnifier includes 2 alligator-type spring clamps, 2-1/4" dia. 3x magnifier, and miniature goose-neck LED lamp. List \$23.00... Our Price **\$19.95**

Ceramic Fiber Soldering Pads keep small components together as you solder. Half-inch-thick pads withstand temperatures up to 2,280°F, yet are soft enough to accept our T-pins (below) to hold parts securely.

#70219 Soldering Pad, 6" x 6" **\$15.95**

#80751 Soldering Pad, 6" x 12" **\$34.95**

#70220 Soldering Pad, 12" x 12" **\$29.95**

#14318 "T" Pins, package of 50 **\$7.95**

General Purpose Solder Wire for Electronic and Model Assembly

Flux-coated for easy flow and maximum adhesion, and only 1 mm (.039") diameter for good control, this is the preferred solder for electronic assembly. Works for model assembly as well...especially on brass and copper. Alloy is 40% tin/60% lead...an economic alternative to higher tin alloys, and with a wide melting range of 361° - 460° F. Sold as a set of 3 rolls; total weight 300 grams (10.6 ounces).

#86295 Flux-coated Solder (300 g) **\$21.95**

Magiclasp Forceps for Delicate Work in Confined Areas

Magiclasp Forceps have a special in-line latching system and a petite outline that gives you perfect control over grasping, latching and releasing in tight locations (smooth tips are only 1/16" wide!). Made of satin stainless steel. 5-1/2" long x 3/8" wide with no-slip grips and integral leaf springs.

#82488 Magiclasp Forceps **\$19.95**

#84453

Scratch Brush Cleans Metal for Soldering

The Scratch Brush easily cleans away oxidation, dust and paint from brass, steel, copper, nickel silver and other solderable metals so that solder sticks properly. Retractable metal bristles adjust like a mechanical pencil so that Scratch Brush can reach where larger brushes can't.

#82466A Scratch Brush **\$16.95**

#82467 Brush Refills (3) **\$7.95**

Miniature Brushes Get into the Tightest Corners

Unusual brushes are excellent for removing rust and dirt from smallest parts and for scratching metal and glossy plastic for better solder and glue adhesion. Bristles feed out like a mechanical pencil.

#14258 Brass Bristle Brush **\$12.95**

#14259 Fiberglass Bristle Brush **\$12.95**

#14342 Two-piece Set, one each of above List \$25.00... Our Price **\$19.95**

#14343 Brass Refills, 2/pkg. **\$7.95**

#14344 Fiberglass Refills, 2/pkg. **\$5.95**

#81850 Ultra Micro Fiberglass Brush **\$11.95**

#82027 Ultra Micro Fiberglass Refills, 12/pkg. **\$13.95**

Hard-to-Find Wire Stripper for Micro Thin Wire

A beautifully made, professional quality wire stripper/cutter for fine wire sizes used in electronic, R/C and model railroad work. Strips AWG wire sizes #20 to #30. Tempered steel with cushion grip handles and spring return. 6" long.

#14221 Micro-Size Wire Stripper **\$24.95**

Shrink Tubing Protects Electrical Connections

Heat Shrink tubing makes wiring jobs look neat and prevents shorting. After soldering or crimping the connection, slip the tubing over the joint and use a heat gun to shrink the plastic tubing over the joint. 127-piece assortment includes 7 sizes from 1/16" dia. x 1-1/2" long to 1/2" dia. x 3-3/8" long. Trim to length with scissor or wire cutter. Includes compartmented storage box.

#83544 Heat Shrink Tubing Assortment with Storage Box **\$9.95**
3 or more \$6.45 ea.

#85219 72-piece Heat Shrink Tubing Assortment includes 24 each of 1 mm (.039"), 2 mm (.078") and 3 mm (.117") dia. tubes. All are 160 mm (6-1/4") long. Trim to length as needed. **\$9.95**

Liquid Electrical Tape

Keeps Connections Moisture-Proof and Safe

Liquid rubber coating insulates electrical connections and seals out corrosion-causing moisture. Use on control panels, model railroad wiring, lighting circuits, PC boards, around the house and on auto, truck and boat wiring. Keeps terminal screws from vibrating loose. Just brush on and let dry. Won't crack, peel or harden. 4 fluid oz can with brush applicator cap. Black color. Ships by ground to 48 contiguous U.S. only.

#84902 Liquid Electrical Tape **\$11.95**

Wire Stripper Automatically Adjusts to Any Wire Size

Heavy-duty wire stripper automatically adjusts for wire sizes from #10 through #26. Use for thin wire found in model railroads and R/C models, as well as heavier household and automotive wire. It's faster, easier and safer to use than other kinds of strippers. Also cuts wire, crimps terminals and even strips twin wire cable. Made of steel with vinyl coated handles. 8-1/4" long.

#81317 Wire Stripper **\$19.95**

Mini Heat Gun is the Perfect Size for Hobby and Craft Use

Mini heat gun generates a hot, but gentle air stream that gets the job done without blowing parts off your workbench. Compact and lightweight, it includes a built-in stand, on/off switch and 6' line cord that plugs into standard 120VAC outlet. Heats virtually instantaneously. Use for shrinking electrical insulation, paint removal and more. Max. temp: 650°; 360 watts, 3 amps.

#84433 Mini Heat Gun **\$24.95**

#82611 Micro Switches

Single-pole, double-throw contacts switch power from one terminal to another, or make or break a circuit depending on hookup. Small size (only 1/4" x 1/2" x 3/4") to fit in tight places. Contacts rated 1 amp. Includes wiring diagrams. 10-pack. **\$19.95**

Shown at
actual size

Micro-Precision Wire Stripper

#90338 Jokari Micro-Precision Stripping Tool is ideal for fast, safe and precise stripping of the delicate wires and strands used in electronic, telecommunications and modeling applications. Features include an adjustable length stopper and integrated cutter for cable diameters of up to 0.8 mm Ø. The tool has a lightweight design and is great for PVC, Teflon, Kynar, Tefzel, Mylar and other wire types with diameters AWG 30, 28, 26, 24, 22, 20 (0.25, 0.30, 0.40, 0.50, 0.60, 0.80 mm Ø). Made in Germany. **\$57.95**

**#91143 Wiha Insulated 6.3" Industrial Long-Nose Plier**

With features including ergonomic cushion grip handles for comfort and control, dual durometer construction for long-lasting durability, and handles directly molded to the steel for a permanent bond, Wiha Insulated SoftFinish® Cushion Grip Pliers and Cutters set the standard for premium quality. Highest grade tool steel provides strength and durability, and induction hardened cutting edges and jaws offer superior sharpness and longevity. Each plier is tested to 10,000 volts AC and rated to 1,000VAC (1,500VDC) for safety and peace of mind. **\$24.95**

**Fujiya "Kuorkin" (Black Gold) Premium Quality Wire-Work Plier**

Professional quality 8.5"-long electrician's and mechanic's plier by Fujiya is beautifully crafted and well-balanced. Angled channels guide stranded and solid core wire into super-sharp cutting edges that easily remove wire coatings from 10 to 22-gauge wire. 3" long serrated nose reaches into narrow openings to retrieve wires, and concave, serrated jaw tips are ideal for grasping bolt heads. Two integral screw cutters (M4 .125" and M3 .094") cut-off screws that are too long for the job, and two built-in crimpers put the finishing touch on wire connectors.

#89634 Fujiya Electrician's Plier
List \$50.00 ... Our Price **\$44.95**

Tool is designed for use with copper and tin-coated copper wires only.

**Hard Wire and Cable Cutter Cuts Cleanly...Eliminates Frayed Ends**

Sharp, hardened jaws and 15-to-1 leverage combine to produce a powerful shearing action that cleanly cuts music and spring wire up to 1/16" diameter and wire rope (control cable and picture-hanging wire) up to 3/16" diameter without frayed ends. Blackened steel handle has return spring and vinyl grips. 7-1/2" long.

#82477 Hard Wire Cutter \$19.95

**Stainless Steel Box Joint Wire Loop Pliers**

Beautifully made, highly polished stainless steel pliers make perfect loops, rings and tight radius bends in wire and strip material. One jaw has a stepped tip for making 3 different radius bends, the other jaw has a matching curved recess, making pliers work like a male/female bending die. Sturdy box joint construction. 5-1/2" to 6" long overall.

#14483 Large Wire Loop Plier with 1/8", 3/16" and 1/4" stepped jaw **\$14.95**

#14484 Small Wire Loop Plier with 3/32", 1/8" and 3/16" stepped jaw **\$14.95**

#50295 BEST BUY! Set of both Wire Loop Pliers. List \$29.90 ... Our Price **\$24.95**

Miniature Swivel-Head Precision Bench Vise is Ideal for Makers

Made entirely of steel and aluminum, this high-quality vise is engineered to securely grip items of almost any shape at virtually every angle. With a compact footprint of only 2.75" wide x 3.5" long and standing 4" high, this solidly-built vise weighs just over 1 lb., allowing it to hold a variety of items without tipping. Spring-loaded, perfectly square machined steel jaws glide along steel pins to a maximum capacity of 0.75" x 0.625" deep. The head assembly is mounted to a steel ball swivel which can be rotated quickly to the exact position to suit your project, then locked down with the lever. Ten holes in the top of the 0.75" x 0.375" jaws accommodate the included steel pins, allowing the vise to hold irregularly-shaped items.

#91059 Mini Precision Bench Vise \$54.95

**Little Mini Vise Holds Odd Shapes Gently, Yet Securely**

Ideal for holding small, odd-shaped parts while drilling, filing, painting, carving, sanding, grinding, etc. Non-marring plastic pins can be placed in different locations to conform to parts. Or, remove pins and use as a conventional vise. Jaws are 1-3/4" wide x 1/2" deep; 3/4" capacity. 12 pin holes.

#80769 Little Mini Vise \$16.95

**Ultrafine Needle Point Plier Works Like Tweezers**

This beautifully made tool is used by surgeons to remove glass, wood and metal splinters from accident victims and when tweezers won't give them a strong enough grip. You'll use them when you need an extra fine needle nose plier for gripping the smallest miniature items and for making tiny bends in wire and strip metal. Made of polished, surgical quality stainless steel with box joints and spring return. 6" long overall.

#60720 Surgeon's Splinter Forceps \$24.95

**Parallel Jaw Pliers Hold Like No Others**

Parallel jaw pliers have a special hinge that holds the jaws parallel to each other. So, objects being held won't slip out of your grasp like they do with standard plier's angled jaws. Smooth-faced jaws won't mar, and the double-jointed hinge exerts a vise-like grip with easy hand pressure. In a pinch, you can also use these pliers to grasp hex-head bolts without damage. Made of nickel-plated steel with blackened steel jaws or brass lined jaws. Grip range: 0 to approx. 3/8"; overall length 5".

#85932 Flat Nose Parallel Jaw Plier with straight jaws and 1/4" wide tips **\$24.95**

#85931 Chain Nose Parallel Jaw Plier with tapered jaws and 3/32" wide tips **\$19.95**

#86632 Brass Lined Plier allows for non-marring bending and gripping of delicate parts. Lining is 1/4" wide and 7/8" long. Exceptional quality with spring-action handles. **\$24.95**

#88140 BEST BUY! Set of all 3 Parallel Jaw Pliers. List \$70.00 ... Our Price **\$59.95**

#85161**Non-Scratch Plier**

Use this special plier when you want to get a grip on things without ruining the finish. Nylon inserts embedded in the jaws of this steel plier protect gripped objects from damage. Eight-step adjustment with spring loaded pivots grips objects up to 1-3/4". Includes comfortable rubber handle covers. Ideal for flywheels and other R/C model assembly and maintenance. Made in Japan. List \$50.00 ... Our Price **\$39.95**

Model & accessories not included

Make Your Own Photo-Etched Parts with Pro-Etch!

Nothing adds the WOW factor to your models and miniatures like precision-crafted photo-etched metal details...and now, with the revolutionary Pro-Etch System, you can make them right at home.

This is a true photo-resist metal etching system that employs advanced technologies and materials previously available only to industrial users. It uses your computer, an inkjet printer, and materials included in the system to achieve incredibly fine results. Virtually any small item that can be made from a flat piece of metal can be created with the Pro-Etch System in a fraction of the time it would take using other tools and methods (if it could be done at all). You can even create sophisticated 3-dimensional objects with a combination of careful design and folding of the flat photo-etched pieces. In almost no time you'll be making precision metal parts with fine-line details you never thought possible.

Set includes: specially developed, high resolution, inkjet film (two, 8-1/2" x 11") • Photo-resist material (one, 19" x 12") • Brass and stainless steel sheet metal (one each, 6" x 12") • Photo-resist laminating machine and carrier sheets • Exposure frame and clamps • Sodium Hydroxide* developing/stripping solution (16 oz) • Plastic developing/stripping tanks • Etching tank with circulating pump • Ferric Chloride* etchant solution (16 oz) • Metal-prep pad, plastic tweezer, measuring cup, apron, goggles and gloves • How-To manual to guide you through each step of the process. *See our website for refills.*

Note: Maximum overall size of etched sheet: 3" square x .010" thick.

#83123 Pro-Etch System (ships by ground to 48 contiguous U.S. only). List \$180.00 ... Our Price **\$119.95**

**Note: System contains chemicals that are highly caustic. Careful handling of these chemicals and good ventilation are prerequisites for the use of this system. Not for use with aluminum.*

If You're Serious about Photo-Etch, Step Up to Etch Buddy

A Micro-Mark Exclusive!

Etch Buddy is a superior-quality tool that you use to fold, bend and shape photo-etched flat parts into 3D objects with unparalleled precision and efficiency. It has a wide assortment of finger widths and contours to accommodate all shapes and sizes of photo-etch sheet up to 6-1/2" long. The top plate may be rotated 180° for long, straight bends. *Note: For full length bends, we recommend substituting a metal ruler, such as #10115 (sold separately), for the blade.* Unique features ensure perfectly square bends every time. Beautifully made of CNC-machined aluminum.

A Great Mini Plier Value

A Micro-Mark Exclusive!

Because we purchase in large quantities, we convinced the manufacturer to make our Miniature Plier Set exclusively for us in the price / quality / style combination we know our customers want. All pliers are made of drop forged, high carbon steel with foam cushioned handles and spring return. **Six-piece set includes:** end nipper, needle nose, flat nose, round nose, diagonal cutter and bent nose. Pliers range from 4" to 5-1/4" long. Needle and bent nose pliers have serrated jaws for better grip. **#80974** 6-piece Plier Set **\$39.95**

#86325 Soft Touch Model Mat prevents damage as you work on your projects. Textured closed-cell foam keeps models from sliding around while you work. 12" x 18" x 3/8" thick. **\$16.95**

Model, tools and supplies not included.

#88837

Micro-Mark Cutting Mat

Place this 18" x 12" mat on your workbench or even your dining room table and never worry about knife damage again. **\$19.95**

Semi-Flat Retractable No.11 Craft Knife Can't Roll Away

Pick up this unique tool and you'll feel the quality immediately. Unlike other precision craft knives, this unique design is retractable with perfect cutting angles at each stop including 45° and 60°. Only 5 mm thick, suitable for precise work for left- and right-handed users. Requires #89455 replacement blades. **#89355** Nova Retractable Craft Knife **\$12.95**

#89455 Nova No.11 Blades, 120 Pack Designed specifically for use with our #89355 Retractable Craft Knife and packaged in a money-saving 120 pack storage box. **\$17.95**

Retractable Cutter Allows for Adjustable Blade Exposure

Nova Slim Adjustable Auto Retractable Cutter allows you to make precision cuts every time with adjustable blade exposure down to 0.1 mm. Blade length adjusts from 0 to 40 mm and is safely hidden when not in use (user must hold slider button while cutting).

Requires #89454 replacement blades.

#89356 Nova Safety Slim Adjustable Auto Retractable Cutter **\$9.95**

#89454 Nova 30° Pointed-Tip, 9 mm Blade, Package of 10 Designed specifically for use with our #89356 Slim Adjustable Auto Retractable Cutter. Made of stainless steel, the blade is durable yet flexible. Package of ten. **\$5.95**

Mini Photo-Etch Bender from Infini Models

#90071 Infini Metal-Etched Part Bending Tool transforms flat photo-etched parts into complex 3D objects. Made of stainless steel. **\$9.95**

Use these sprockets and chain to power animated displays, robotics, model trains and other miniature mechanisms. They're made of tough, self-lubricating, durable acetal resin and easy to use. All sprockets are designed to press-fit on a 1/8" diameter shaft* and the chain links snap apart for easy adjustment.

**Knurling or pinning is recommended.*

#84738K 8-Piece Mini Sprocket Set

Includes 1 of each sprocket shown. All sprockets are 5/16" deep. Hubs are 1/4" outside diameter, except for #1, which is .236". List \$30.00 **\$19.95**

Pitch .1227; width .162; thickness .082;
Sold only in increments of one foot.

Spring-Loaded Small Parts Holder

Borrowed from the dental industry, this small spring-loaded parts holder opens and closes easily with one hand. Small parts are securely held in the broad, flat jaws while you paint, place, assemble, etc. The tool can also be held in a vise to free up both hands for various operations. The lightly serrated, 3/16"-wide jaws open to 1/4". Made of high-quality stainless steel, 7" long overall with a 3/8" diameter handle.

#90699 Spring-Loaded Flat-Blade Parts Holder \$19.95

Stainless Steel Tweezer Set

These stainless steel tweezers are made exclusively for Micro-Mark by a manufacturer of surgical quality instruments. Beautifully polished, all purpose set lets you grasp, position and manipulate the smallest of items. Made of stainless steel, gives you a lifetime of service. Set contains 4-1/2" sharp point, 4-3/4" flat point, 6" blunt point, 6" bent sharp point, 6-1/2" cross locking tweezers.

#60365 5-piece Stainless Steel Tweezer Set \$24.95

Stainless Steel Mini Tweezer Set

A nicely made, never-rust set that's about 40% smaller than other sets we sell, making them ideal for handling micro size items. Includes self locking, needle point, angle point and flat smooth point. The flat point is good for applying decals and other items that could be marred by sharp points. All tweezers are approx. 4-1/2" long.

#60699 Mini Tweezer Set
List \$18.00 ... Our Price **\$13.95**

**Professional Quality Tweezers – Now in Titanium!**

With most of our selection coming from the jewelry, watchmaking and dental trades, these tweezers are among the finest quality you'll find anywhere. All except #60904 and #19110 are now available in titanium plated versions.

Swiss-Style Watchmaker's Tweezer
Fine, smooth points. 4-5/8" long.

**Pearl Tweezer – The Best Way to Grip Small, Irregular Objects**

Spherical indentations in the tips of our Pearl Tweezer securely grip round and irregularly contoured small objects, preventing them from flying off into space and disappearing forever. Perfect for placing miniature hardware and tiny detail parts. Made of satin-finish stainless steel; approx. 4-1/2" long.

#82426 Pearl Tweezer **\$14.95**
#88590 Titanium Plated Pearl Tweezer **\$19.95**

**Crocodile-Action Ear Polypus**

#82561
12.0"

#60357
5.5"

#15265
3.5"

The Polypus is a brilliantly designed surgical instrument for removing foreign objects and performing surgery inside the ear. Unlike a hemostat, only the "crocodile" jaws at the very end open. You can actually pass the end through a very small hole and still open and close the jaws! An extremely versatile tool for placement and retrieval of micro-size objects. Use for ship model rigging, dioramas, dollhouse miniatures, model railroad car interiors and any other micro-manipulation. Precision instruments crafted of highly polished stainless steel.

#15265 Ear Polypus (Narrow part of "neck" reaches 2-1/2"; fits thru a 5/32" hole) **\$24.95**
#60357 Ear Polypus (Narrow part of "neck" reaches 4-1/2"; fits thru a 3/16" hole) **\$29.95**
#82561 Ear Polypus (Narrow part of "neck" reaches 10-1/2"; fits thru a 1/4" hole) **\$49.95**

Universal Cylindrical Tweezer

Finally, one tweezer that does the job of many! The cylindrically-shaped channels at the tips act as a universal holder, allowing you to grasp and manipulate virtually all types of screws, as well as easily pick up washers, nuts and beads as well. 5/16"-long cylindrical channels run all the way to the tip, allowing you to place items precisely where you need them. Made of non-magnetic stainless steel, approx. 5" in length. Tips grasp objects from 5/64" to 1/2".

#87119 Universal Tweezer **\$11.95**

Great Tweezers, Great Price

Set of 8 tweezers made of acid-proof, anti-magnetic, stainless steel for a lifetime of use. Includes extra fine, fine, angled and long tips. Overall length: 4-1/2" to 5-1/2".

#84256 8-piece Tweezer Set **\$19.95**

Gripster Grabs It with the Push of a Button

Press the top of this unique tool and 4 slim, stainless steel prongs emerge from the tip. Release, and the prongs close around the object, grasping it securely. Perfect for tasks where fingers can't reach and tweezers aren't strong enough. Set includes two Gripsters, one 4-1/2" long and one 6-1/4" long. Prongs open to 5/8" and extend 1/2" from tool tip.

#88022 Gripster Set
List \$18.00 ... Our Price **\$9.95**

Special Tweezer Places Objects Without Damaging Fine Details

Stainless steel tweezer with rubber-coated angled tips are perfect for no-mar, non-slip placement of small, irregularly shaped items, such as the figures shown above. 6" long.

#83251 Rubber-Tipped Tweezer **\$8.95**

**Micro-Mark® Premier Elite Titanium Plated Micro Chisel and Gouge Sets – Ultimate Carving Tools for the Discerning Craftsperson**

For years, Micro-Mark customers have been asking us for an expansion line to our super-popular 7-Piece Stainless Steel Chisel Set. After much work to develop an exclusive selection, we are proud to introduce The Premier Elite Line of Chisels and Gouges by Micro-Mark. Over a 2-year period, we designed and tested a wide variety of materials, shapes and designs to provide our customers with the best micro hand-chiseling tools on the market in terms of quality, durability and utility. We then secured a manufacturer with decades of experience, capable of meeting or exceeding our requirements for consistently high workmanship. We are pleased to say that we have not been disappointed, and neither will you!

Expertly crafted from premium Japanese and French stainless steels and combined our special titanium plating process, each top-quality chisel and gouge is hand-honed to perfection. Their unique handle design employs a joined deep diamond knurling with lateral channels that provide a positive gripping area for precise control. Unless otherwise noted, each tool is 6-1/2" long with 3/8" diameter handle. Premier Elite chisels feature an extremely low profile of approximately 25°. These exceptional and handsome tool sets will provide the precision and long-life that enthusiasts demand and deserve.

Introducing our Premier Elite U Gouge and Dogleg V Gouge Sets

Complementing and expanding our line of Premier Elite tools are these U and V Gouge sets. Both sets are ideal for adding detail, texturing, creating soft curves and delicate undercuts in your projects. These beautifully made gouges are hand-honed on the top and bottom of the cutting edge to provide the very sharpest cuts.

#88704 Premier Elite 7-piece U Gouge Set

This set is equivalent to a #8 design, as we consider the #8 to be one of most useful U Gouge styles. U Gouge widths included are approximately: 2.5 mm, 3 mm, 4 mm, 5 mm, 6 mm, 7 mm and 7.5 mm. Each tool is 5-3/4" long. List \$120.00 ... Our Price **\$89.95**

#88707 Premier Elite 5-piece Dogleg V Gouge Set

Also known as parting tools, these Dogleg V Gouges include the following approximate widths: 2.5 mm, 3 mm, 4 mm, 4.5 mm and 5.5 mm. Each tool is 6-5/8" long. List \$120.00 ... Our Price **\$89.95**

**#88702 Premier Elite 10-piece Straight Tip Micro Chisel Set**

in widths separated by approximately .5 mm in the following sizes: 0.5, 1.0, 1.5, 2.0, 2.5, 3.0, 3.5, 4.0, 4.5 and 5.0 mm. List \$170.00 Our Price **\$129.95**

**#88701 Premier Elite 10-piece Skew Tip Micro Chisel Set**

in widths separated by approximately .5 mm in the following sizes: 0.5, 1.0, 1.5, 2.0, 2.5, 3.0, 3.5, 4.0, 4.5 and 5.0 mm. List \$170.00 Our Price **\$129.95**

**#88705 Premier Elite 3-piece Specialty Blade Chisel Set**

features the most sought-after angles and shapes for working in places where standard chisels cannot go. Includes "sheep's foot" straight-angled side chisel, needle point angled chisel and concave curved chisel for side removal and pull removal in carvings. List \$45.00 Our Price **\$34.95**

**#89589 Titanium Plated "B&W" Micro Squeeze Scissor Set**

These unique scissors provide the most delicate, precise control imaginable, even in awkward positions. Fingertip squeezing action actuates the ultra-sharp, super-hard, 60° angled offset blades for the finest cuts. Made of Japanese surgical stainless steel combined with our special titanium plating process, these professional-quality, long-lasting scissors will be your go-to choice for precision cutting from the moment you try them. The "B" style scissor is 2-1/2" long; the "W" style is 4-3/8" long; cutting tips of both are 3/8" long. **\$44.95**

#88703 Premier Elite 10-piece Left and Right Radius Chisel Set with widths separated by approximately 1 mm in the following sizes for both left and right removal: 1, 2, 3, 4 and 5 mm. The range provided allows easy carving of slow and tight-area curved forms on flat surfaces **and**, since the working angle is from the side, it enables you to carve raised (convex) and recessed (concave) sloped sections as well, such as carving ears in a figure, for example. These shapes cannot be carved with straight or skewed chisels since the direction of removal is forward only. List \$160.00 Our Price **\$124.95**

#88706 Premier Elite 5-piece Dogleg Chisel Set in widths of 1, 2, 3, 4 and 5 mm, provide a higher angle of stock removal for deeper, quicker carving than standard straight chisels. The location of the bevel is ideal for finishing flat recesses and backgrounds on a relief carving where clearance is limited. List \$78.00 ... Our Price **\$69.95**

#89775 Specialty Tool Protective Case

Synthetic leather zippered tool case stores, protects and transports up to 15 of your most prized tools. **\$14.95**

The All-In-One Carving Set You've Been Asking for is Here!

#88708 Premier Elite 15-piece Micro Chisel and Gouge Set This exceptional and most useful 15-piece collection of our Premier Elite Chisels and Gouges allows the user to jump right into the world of wood carving. These beautiful tools are sure to become your favorites. Set includes three Skew Chisels, 1 mm, 2.5 mm and 4 mm; three Straight Chisels, 2 mm, 3 mm and 5 mm; two Radius Chisels, 3 mm left and 3 mm right; one Specialty Needle Point Angled Chisel; two Dog Leg Straight Chisels, 1 mm and 3 mm, two #8 U Gouges, 2 mm and 4 mm; and two V Gouges, 2 mm and 4 mm. This exclusive set also includes a custom-designed, cushioned and zippered case for safe-keeping and transporting in style. List \$235.00 ... Our Price **\$179.95**

The Ultimate Titanium Tweezer Set is Now Available!

#90817 Micro-Mark 15-piece Titanium Tweezer Set This ultimate collection contains virtually every tweezer you would reach for as a maker, DIYer, hobbyist, and professional. Tip styles include straight fine point, curved fine point, 45°, 90°, blunt tip, locking, flat, universal, bead or pearl, long, short, micro fine point and offset V. Each tweezer is beautifully crafted with Japanese and French stainless steels and plated with vibrant cool-blue Titanium for amazing luster and long life. As a bonus, this set is provided in an attractive, high-quality, zippered, embossed leatherette case. Interior elastic strap holds each tweezer securely for safe transport and storage for a lifetime of use. List \$290.00 ... Our Price **\$169.95**

#88578 Curved Watchmaker's Tweezer
Titanium plated.

Titanium plated for luster and durability. Fine serrated points. 6" long. **\$14.95**

#88591 4-piece Titanium Plated Super-Fine Tweezer Set \$89.95

With the luster and durability of titanium, these super-fine-tipped, non-serrated forceps/tweezers have perfectly mating halves for ultimate precision. Set includes:

2 Dynamic Blue Titanium Forceps, one featuring a super-fine, shouldered and angled tip, weight-reducing oblong cut-out, and grooved gripping area; the other is a Boley-style, featuring a long nose and super-fine, non-shouldered, pointed tip. Dynamic Blue Forceps are 3-5/8" and 4-3/4" long overall.

2 Rose Gold Titanium Forceps, each with 3 pairs of stamped holes in the handle for reduced weight and non-slip grip. Raised 1/4" flat shoulders inside the tip halves provide extra gripping power. Rose Gold Forceps are 3-1/2" and 4-1/4" long.

#88589 Giant Long-Reach Tweezer
Titanium plated for luster and durability.
Serrated tips. 12" long. **\$24.95**

Surgical Hemostats, Titanium Plated

Originally made for surgeons, hemostats are now used extensively by makers. Use these small, light duty hemostats as a super slim needle nose plier, clamp, heat sink, vise, etc. Quality box joint construction. Titanium plated for luster and durability. Approx. 5" long. Choose tip style below:

#88583 Surgical Hemostat, Straight Tip \$14.95

#88584 Hemostat, Curved Tip \$15.95

#88590 Pearl Tweezer

Spherical indentations in the tips of our Pearl Tweezer securely grip round or irregularly contoured objects so you can easily place them in the exact position you need. Titanium plated for luster and durability. Approx. 4-1/2" long. **\$22.95**

Micro-Mark® Miniature Lumber Yard

All Micro-Mark miniature lumber is clear, kiln-dried No.1 grade. Wood sheets are micro-sanded both sides. Siding and moldings are precision milled and require no sanding. For cutting sheet stock into narrow strips, we recommend Table Saw #87775 for thicknesses up to 1/4". For sizes thicker than 1/4", and for plywood, use the MicroLux® Tilting Arbor Table Saw, #80463.

Our siding, hardwoods and plywood are also ideal for laser cutting!

Duplicating Jig for Cutting Strip and Tube Stock

V-shaped groove in precision-machined fixture holds stock while cutting with a razor saw. Integral slot guides saw blade for perfectly square cut. Sliding gauge locks in place for cutting multiple pieces in lengths up to 3". Works on any shape stock up to 1/4" in any one dimension. Bolt to bench or hold in vise. Made of blackened steel. Razor saw not included.

#84388 Duplicating Jig \$29.95

Miter Master Makes Clean, Sharp Miters in Plastic and Wood

An excellent tool for ship modelers, miniaturists, airplane modelers, model railroaders and picture framers! Cuts miniature molding, model railroad timbers, dowels, plastic and wood structural shapes, strip stock, ship model planking, even full size picture frame molding, and it can also cut your assembly time in half. Razor sharp blade cuts across the grain with a clean, smooth shaving action and it's as easy to use as a pair of scissors! Has left and right hand, 45° miter fence and scored marks for lining up stock for other angles. Precision made nickel-plated steel handles and aluminum alloy anvil. Will cut stock up to 1/2" thick x 1-1/2" wide. An industrial quality tool originally made to cut automobile interior trim.

#50348 Miter Master \$34.95 **#50349 Extra Blade \$16.95**

Beware of cheap imitations!

Angled anvil assures square cuts

Miter Box and Saw for Precision 45° Cuts in Wood and Soft Metal

Aluminum miter box with 1/16", 3/32", 1/8", 5/32", 3/16" and 1/4" slots to hold narrow strips of wood or metal. Two 45° and one 90° cutting slots, machined for accuracy. 3/4" x 1-3/4" capacity. 5-1/4" long. Includes handle and 1-1/4" deep, 5" long, 46 tpi steel blade.

Chop-It Makes Accurate Miter Cuts Easy

Chop-It XL Makes Precision Miter Cuts in Long Strip Stock

One of the most useful tools for the hobbyist working in wood or plastic strip material. Make perfect, feather-free miter cuts every time with the 30°, 45° and 60° guides included. An adjustable stop permits the exact duplication of pieces. Excellent for model ship planking, model railroad structures, plus hundreds of other uses. Comes completely assembled and includes 3 blades. Base is 7-1/2" x 7-1/2". Cuts material up to 3/32" thick.

#84046 Chop-It \$39.95 #14292 Razor Blades (100) \$12.95

Sand-It Gives Precision Finish on Small Parts

Sand-It is designed to give you a quick, precision finish on wood, plastic and metal sheet and strip stock. Also works beautifully to square-up cut ends of brass tubing. Use whenever you need a fine, precise fit of parts, such as inlay work, marquetry and more. Works on material up to 4" wide x 1" thick x any length. 4-sided sanding block lets you have four different grits mounted at the same time. Includes pre-set angle guides for 30°, 45°, 60° and 90° plus protractor-type guide for any angle in between.

#84048 Sand-It \$35.95

#86620 20-piece Sanding Strip Set includes 5 each of 180, 220, 320 and 400 grit strips. \$11.95

A Micro-Mark Exclusive!

Miter-Rite is Precision in Miniature

Next to our powered Miter/Cut-Off machine, this is the finest miniature tool you can buy for making perfect angle cuts in wood, plastic and soft metal. Cuts are adjustable in 1° increments with a range of 65° on each side of 90°. Blade holder keeps blade absolutely perpendicular to the base, assuring straight and accurate cuts. Made of tough "football helmet" Cycloc plastic for a lifetime of use. Comes with one 54 tpi saw blade. Cuts stock up to 5/8" thick x 2" wide x any length.

#15215 Dobson Miter-Rite \$39.95

#22118X2 Replacement Blades (2) \$11.95

Razor Blades...with Teeth!

Special-designed razor-thin blades are actually ultra fine saws with 70 teeth per edge and only .005" thick. You'll get the finest, smoothest cuts in plastic, resin and wood without leaving large gaps in the material. You can even cut 1/32" off the end of brass tubing with ease. Double-edged for twice the life. Package of 5 blades. #85853 Ultra Fine Saw Blades (5) \$17.95

#86084 Ergonomically contoured Wood Handle for Ultra Fine Saw Blades (#85853, sold separately) assembles in seconds and is comfortable to use. Handle is 6-1/4" long. \$11.95 3 or more \$7.95 ea.

World's Smallest Miter Box?

Make the finest 30°, 45° and 90° miter cuts in wood, metal and plastic strips, rods and tubes up to .25" wide x any length! Ships by ground to 48 contiguous U.S. only.

Modeler's Multi-Tool Does it All!

First, this is the most comfortable knife handle you've ever used and the adjustable chuck will hold every hobbycraft blade made. Second, it's the finest pin vise we've ever seen. The brass chuck and 4 collets will hold drill bits up to #41 (.096"). Closes to zero. Third, it's an indispensable hand vise for holding micro-size parts while filing, drilling, cutting and more. The knurled brass tensioning knob at the back end draws all items tightly into the chuck. Handle and vise head are molded nylon. All other components are solid brass. 1/2" x 5" handle. 1/2" vise capacity. A beautifully made tool!

#60531 Modeler's Multi-Tool

List \$50.00... Our Price \$39.95

Wood Strip Cutter with Micrometer Accuracy

Cut wood strips quickly and easily with this precision cutter. One turn of the vernier hand wheel moves the blade in precise 1/32" increments. Cuts strips up to 1/2" wide. Uses standard #11 blades for Balsa or #2 blades for harder woods. Made of tough glass-filled nylon.

#14568 Wood Strip Cutter \$15.95

#14360 #11 Blade (15) \$7.95

Another Ingenious Way to Sand and File from Infini Model

Precision filing and sanding in confined, tight and narrow areas is an ongoing challenge for makers. And even if you can find a tool that fits in the space, chances are, you won't have the right grit. This ingenious Precision Sanding/Filing system from Infini Model is the most clever solution to this problem we've seen. Starting with six finely crafted photo-etched stainless steel wands in 2 mm, 3 mm, 5 mm and 10 mm widths, plus two triangle shapes, Infini provides eight adhesive-backed sheets of their exceptional sanding film in 400, 600, 800, 1000, 2000, 3000, 5000 and 7000 grit which you adhere to the wand of your choice and cut to size. With this system, you will always have the perfect size, shape and grit for the job, right at your fingertips. Use wet or dry. Two-pack 9" x 3-3/4" adhesive-backed sanding film refills for each grit available separately.

#89381 Infini Model Precision Sanding/Filing System **\$34.95**

Premium Ultra-Precision Softback Sanding and Polishing Sponges by Infini Model for Superior Quality and Longer Life

Unlike regular sandpaper which is prone to wrinkling and tearing, the flexible, cushioned sponge backing of Infini Model's Softback Sanding Sponges is designed to follow the contours of your project perfectly, resulting in a finer finish in less time. Softback Sanding Sponges can be used for dry or wet applications for maximum versatility. Dust and dirt caused by polishing doesn't stick to the sanding sponges easily, and they can be washed off, providing 50% longer lifespan than similar products! Set of six single-sided 5-1/2" x 4-1/8" Softback Sanding Sponges includes one each 220, 400, 600, 800, 1000 and 1500 grit.

#88077 Softback Sanding Sponges, Set of 6 **\$13.95**

#88085K Softback Polishing Sponges, Set of 4 **\$11.95**

2-pack refills of each grit available separately.

...And, Ultra-Precision Softback Sanding & Polishing Sticks

What happens when you take the premium abrasives above, make them narrower and more maneuverable, add a semi-flexible plastic backbone for a firm grip and added pressure when working in confined areas, AND make them double-sided for twice the life? You get this amazingly versatile Softback Sanding and Polishing Set. Set of eight 6-3/4" x 1-1/8" Softback Sanding Sticks includes one each 220, 400, 600, 800, 1000, 1500, 2500 and 4000 grit. 2-pack refills of each grit available separately.

#88086K Softback Sanding & Polishing Stick Set. List \$52.00... Our Price **\$29.95**

Premium Elastic Sanding Film Set Stretches, Wraps and Conforms

Made with the same premium abrasives as above and electrostatically bonded to the thinnest, stretchy elastic backing, this unique sanding film goes where no conventional sandpaper dares to try! Use wet or dry. Set includes **two each** 220, 400, 600, 800, 1000, 1500 and 2500 grit sanding films. 6-pack refills of each grit sold separately.

#88963 Premium Elastic Sanding Film Set **\$19.95**

#90526 Deluxe 5-Piece Scratch Brush Set Removes dust, paint, rust, dirt and grime from metals, plastic and more. Bristles feed out and in like a mechanical pencil with a twist of the rear cap. Red - Fiberglass, Blue - Nylon Hard, Green - Nylon Soft, Yellow - Brass, Black - Steel. Brushes are 4.75" long with metal ferrules. **\$14.95**

#90527 15-piece Scratch Brush Refills Set Extend the life of your scratch brushes with this refill set. Includes 3 each Nylon Soft, Nylon Hard, Fiberglass, Brass and Steel. **\$11.95**

Zebra Premium Sanding Twigs by Infini

NEW!

Our Zebra Premium Sanding Twigs are always the same size, always the same grits, for reliable performance every time. Double-sided for maximum utility and longer life, each 3/16" wide x 6-7/8"-long sanding twig is built on a semi-flexible cushioned core designed to create perfect, smooth finishes on plastic, wood, resin and more, even in the tightest spaces. Each package contains 100 sanding twigs in 5 different grits: 80, 220, 400, 600 and 800, all color-coded for fast and easy grit identification.

#91145 Micro-Mark Zebra Premium Sanding Twigs, package of 100 in 5 grits **\$19.95**

Innovative Clear Tempered Glass Files Allow You to See Your Progress as You Sand, File and Polish to Perfection!

Infini does it again! Starting with a crystal clear tempered glass substrate, Infini uses an ingenious process to permanently bond only the abrasive material to the substrate, allowing you to see right through the file to the workpiece. Gone are the days of removing too much material or ruining the shape of a part because you couldn't see it as it was happening. Use this 3-piece system to sand, file and polish - wet or dry - on plastic, resin, wood...even fingernails! When you're done, rinse with water to avoid buildup of sanding residue and to ensure longer life. Each Clear File Set includes one each medium (220 - 400 grit), fine (600 - 800 grit) and super-fine (1000 - 1500 grit) files.* Choose from 2 sizes: Small (3-1/2" x approx. 1/4" x 3/32" thick) and Large (4-1/4" x 1/2" x 3/32" thick). Get these and see what you've been missing! *Grits are approximate.

#89825 Infini 3-piece Clear File System, Small **\$29.95**

#89826 Infini 3-piece Clear File System, Large **\$29.95**

Micro Sanding Wands for Delicate Control

These Micro Sanding Wands use 1/4" wide, abrasive belts that can be used wet or dry and work well on almost any material. Made of tough, impact resistant polypropylene with a spring loaded tensioning device that allows a quick belt change. Color coded so you can instantly identify different sanding grits.

#81471 Set of four includes one each; Yellow, 400 Grit; Green, 320 Grit; Blue, 240 Grit; Red, 120 Grit **\$18.95**

Amazing "Easy Cutting Guides" are Ideal for Masking Projects

Perfect for modelers and crafters, we tracked down these hard-to-find precision cutting guides because we need them, too! Until you try one, you just won't believe how smooth, clean and sharp the cuts you make can be using an ordinary hobby knife and a fresh blade. Delicate laser-etched grooves in the acrylic surface are almost too fine to feel with your finger, yet provide surgically accurate cuts with almost zero effort. Take it from us, you need these! See our website for details. **\$22.95 each**

A. Cyanoacrylates (CAs) – Instant “Super Glues” for Every Project

Quick Cure Zap (pink label) Thin consistency flows into the tightest joints...even when parts are already clamped together. Cures in 1–5 seconds. Penetrating action acts as a sealer on wood. Bonds metal, plastic, wood, glass, jewelry. Includes applicator bottle.

#80875 Zap CA 1 oz \$10.95 #80876 Zap CA 2 oz \$15.95

#85243 Micro-Mark Insta-Cure CA, 2 oz \$11.95

Mid Cure Zap-A-Gap (green label) Best for general purpose construction and assembly. Thicker consistency fills minor gaps and irregularities. Cures in 20 seconds. Preferred over Quick Cure for bonding wood. Includes applicator bottle.

#80877 Zap-A-Gap 1 oz \$10.95 2 or more \$9 ea. #80878 Zap-A-Gap 2 oz \$15.95

#85244 Micro-Mark Insta-Cure +, 2 oz \$11.95

Slow Cure Slo-Zap (yellow label) Extra thick consistency fills larger gaps and irregularities and forms fillets on models. Slow, 90 second cure allows positioning time. Recommended for laminating, sheeting and other large surface applications. Spreads easily. Preferred for use on balsa, basswood and other porous woods.

#80879 Slo-Zap 1 oz \$10.95 #80880 Slo-Zap 2 oz \$17.95

#85245 Micro-Mark Maxi-Cure, 2 oz \$11.95

Zip Kicker Instant glue accelerator. After applying instant glue to the joint, give it a light spray of Zip Kicker and the glue will set up instantly. Also excellent for bridging gaps in bad fitting joints and for end grain gluing. Safe for plastics.

#83118 Zip Kicker 2 oz Spray \$8.95* #80885 Zip Kicker 8 oz liquid \$13.95*

#80887 Z-7 Debonder dissolves all brands of cyanoacrylate adhesives like magic! Also removes cured residue from model parts, skin, tools, clothes, etc. Will not attack plastics. This odorless product is essential for correcting assembly errors, cleaning up spills and other workbench disasters. 1 oz. applicator bottle. If you use CA glue, you need Z-7. **\$6.95***

B. – C. Precision Applicators for Glue and Accelerator

Simply touch the tip to the object to transfer the glue with precision control, eliminating blobs and other mishaps. Also applies accelerator without messy sprays and harmful vapors.

B. #81669 Mini Glue Applicator. Holds a single drop of glue or accelerator in the loop at its tip. All Stainless steel. Approx. 6” long. **\$9.95**

C. #82448 Micro Glue Applicator. Holds a miniscule drop of glue or accelerator in the forked stainless steel tip. Nickel ferrule and wood handle. 7” long. **\$9.95**

D. “Touch-N-Flow” Precision Applicator

The Touch-N-Flow Applicator lets you apply just the amount of liquid plastic cement (solvent type) or C/A accelerator you need. How it works: Capillary action draws liquid into the glass tube. Touching the micro-tip to the joint causes the liquid to flow from the tube. Application is easily controlled and precisely positioned. *Note: not for use with cyanoacrylates or other thick glues.* **#81778 Touch-N-Flow Applicator \$12.95**

E. SAME STUFF Liquid Plastic Welder

Solvent-type cement welds styrene, acrylic, butyrate and ABS plastic. To apply, place the parts together and then put a drop on the seam with the included Touch-N-Flow applicator (described above). Hold for 15 seconds. In that amount of time, SAME STUFF bonds and starts to cure. This method is far superior to thicker plastic cement which is messy, harder to control and can damage expensive model kits.

#84131 SAME STUFF with Touch-N-Flow Applicator. Value \$28.85 ... Our Price \$24.95

#84113 SAME STUFF Refill (2 oz) \$8.95 2 or more \$7 each

F. Applicator Caps & Precision Tips for Micro-Mark CA Bottles

Replace those clogged and damaged applicator caps! Use for Micro-Mark CA glues and other screw-on CA applicator bottles. Package of 24. **#85823 Applicator Caps \$12.95**

#90990 BSI™ Extra-Fine Extender Tips for Micro-Mark CA Bottles (and many others) offer far more control over the rate and flow of thin-consistency CA glues when compared to straight-from-the-bottle application. Essential for precision gluing. Package of 12. **\$7.95**

Glue Looper is a Patented Micro Fluid Applicator

Made for Exact Glue Placement Fits any standard hobby knife handle with a flat clamping front view.

Reusable for multiple applications. **\$19.95/pkg.**

#88400 V2 Glue Looper for Thin Glues, pack of 10; 3 sizes

#88401 V4 Glue Looper for Thin Glues, pack of 7

#82031 Pin-Point Glue and Paint Dispenser Place a drop of glue or paint in the mini-cup. Then dip a toothpick or micro-brush to pick up and place a pin-point size dab of glue or single stroke of paint. V-groove holds applicators and weighted metal base prevents tip-over. Use with any glue or paint. Includes 250 toothpicks and 20 mini-cups. 1-1/4” diameter. **\$13.95**

G. Disposable Double-Ended Loop Applicators for CA & More!

FINALLY! We’ve been searching for these for years, and now we’ve got them! Precisely apply any type of CA glue, liquid cement, epoxy, lubricant, etc. without fear of ruining your favorite applicator. Another must-have Micro-Mark item.

#91009 Disposable Double-Ended Loop Applicator, 20/pkg. \$8.95 2 or more \$6/pkg.

H. Microbrushes – Disposable Applicators for Exact Placement

Use a Microbrush to apply a tiny amount of liquid glue, paint or lubricant exactly where you want it without spilling, dripping or staining. Non-linting, non-absorbent. Bendable handles. **\$14.95/pkg. of 100 #83168 Regular #83170 Fine #83172 Super Fine**

J. Chemical-Resistant Applicators for Glue, Accelerator and More

Bellows-type container with fine 20-gauge x 1-3/4” long stainless steel applicator is ideal for placing small drops/beads of glue, liquid cement, accelerator, oil, and more exactly where you want them. Tight-fitting cap prevents evaporation and curing inside container. Applicator snaps off for refilling. Choose from 1 oz and 2 oz sizes below. Pkg. of 2. **#60363 1 oz Applicators \$6.95 #83514 2 oz Applicators \$8.95**

K. Ready-to-Use Scenery Cement Holds Securely, Stays Flexible

Add ballast, turf and grass to your layout or diorama, then apply our ready-to-use Scenery Cement straight from the bottle to hold it in place. The included dispenser cap makes application easy and fast. Dries invisible, but remains flexible. Water-based for easy cleanup.

#85043 Scenery and Ballast Cement (16 fluid oz) \$10.95 2 or more \$8 each

L. Detail Tack – Repositionable Glue for Model Figures & More

Special formula dries clear, but remains tacky so that figures and details can be easily repositioned. **#84774 Detail Tack (2 oz) \$10.95 2 or more \$9 each**

M. Liquid PSA** Eliminates Glue Drips, Runs and Smears

Perfect for models with intricate trim, window glazing and signs. Just apply a thin coat to the surface to be joined. It will quickly dry and turn clear, but remains tacky. Then, simply press together. Since the glue is dry, nothing oozes out to ruin the finish of an otherwise perfect model. Parts go together quickly and are repositionable. Washes off with water until dry. **#84775 Liquid PSA (4 oz) \$17.95 **Pressure Sensitive Adhesive**

N. Watch Crystal Cement for Clear Contoured Plastic

Special cement dries crystal clear and won’t attack plastic, making it ideal for cementing plastic canopies and windshields on airplane and car models. Special needle-point applicator tip makes precise placement easy. Wire-in-cap keeps applicator free flowing. Cures to the touch in 15 minutes; uncured cement cleans up easily with ordinary rubbing alcohol. Two 1/3 oz tubes. **#80343 Crystal Cement \$11.95***

#90813 Scale Motorsport "The Tool Box" Model Builder's Tool Kit is a collection of some of Scale Motorsport's most popular plastic modeler's tools, including: 5 GrabitStix™, their revolutionary small parts placement tool designed to use in place of a tweezer; 10 PolishingStix™, Micro-Mesh laminated onto pliable polystyrene for wet or dry use (Micro-Mesh 3,400 through 12,000 grit), and 8 stainless steel scribe and saw blades. **\$27.95**

Plasti-Zap The best CA for assembling plastic model kits. Cuts through plastic mold release agents and will not chemically attack or soften plastic parts. Medium viscosity, non-flammable formula cures clear in 15 – 30 seconds and is sandable and paintable. Can be removed from plastic parts with Debonder.

#80881 Plasti-Zap CA, .33 oz **\$6.95**

#88761 Plasti-Zap Brush-On, .25 oz **\$4.95**

#84368 Zap Goo is an all-purpose adhesive and sealant. Not a super glue. Bonds virtually anything to anything. Gooney, strong, clear and remains flexible. For porous and non-porous surfaces. 1 oz tube. **\$4.95**

#80888 5-Minute Quick Cure Z-Poxy is specially formulated to bond wood, metals, plastics, fiberglass and more. Shock and solvent-resistant Z-Poxy is non-shrinking and is great for gap-filling. Produces a tough, permanent bond in just 5 minutes. Two-part system; mix equal quantities of A & B. Two bottles, 8 fl. oz total. **\$18.95**

#83655 Zap-O Foam-Safe Odorless CA Glue has the same gap filling properties as Zap-A-Gap CA+ but without the fumes. Works great on a wide range of materials and for gluing foam shapes and various materials to foam products. Medium thick formula cures in 15 seconds. 0.7 oz/20 g bottle. **\$15.95**

For Micro-Precision Glue Application, Nothing Beats the Diamond Pro Micropipettor

If you have ever over-glued a model kit with a toothpick or glue bottle applicator, this revolutionary new modeling tool will cure that frustration. Whether gluing hard-to-reach areas or the smallest of parts, this Diamond Pro Pipette is the Cadillac of glue applicators. Originally designed for scientific applications, this magnificent precision tool operates on the air displacement principle and uses disposable tips. Draw in only the amount of glue you wish to apply and slowly distribute to your part or seam with the easy-to-use control dial and plunger. Pipette works with all consistency of CA glues. Includes certificate of calibration, a recalibration tool kit and a full one year manufacturer's warranty. Take your modeling to the next level with this ultimate gluing system.

A Micro-Mark Exclusive!

For Square and True Assembly and Repair – and for Holding Items Clamps Can't Grasp – Nothing Beats Our Magnetic Gluing Jig

One of our all-time favorite items, the Magnetic Gluing Jig is an essential tool in the shop, in the studio, in the home...everywhere!

Woodworkers, model builders, DIYers and crafters rely on it every day for joining and holding components perfectly square and true while glue dries, and for holding together and gluing oddly-shaped items on which ordinary clamps would never work. Its beauty is in its simplicity. 8 powerful magnets sandwiched between a fixed plate and a removable/repositionable plate allow you to place the magnets' strong holding force just where you need it on the 10-1/4" x 10-1/4", 21 gauge steel jig plate. The plate's 7/8" flanges are bent up at a 90° angle to hold items squarely and securely. Open ends allow long, thin wood pieces to extend outside the jig if needed. Includes 8 magnetic holding plates.

#60304 Magnetic Gluing Jig **\$29.95**

#60305 Extra Magnetic Plates (8) **\$12.95**

#90245 Multi-Use Syringe Set

Ideal for a wide variety of applications, this handy syringe set includes seven frequently used sizes: 1 ml, 2 ml, 3 ml, 5 ml, 10 ml, 20 ml, and 60 ml. Washable and reusable, each syringe includes graduated markings for consistent measuring and dispensing of material. **\$12.95**

Mr. Hobby "Mr. Basic" Tool Set for Plastic Model Kits

Sprue Nipper

Metal File

Angled Tweezer

Panel Line Marker

#91024 Mr. Hobby Mr. Basic Tool Set for Plastic Model Kits This handy set includes a sprue nipper, metal file, angled tweezer and panel line marker, all in a durable and convenient plastic carry case. **\$26.95**

#90319 Modeler's Scraping, Scribing, Shaving & Boring Set This 4-piece triple-duty set provides the "extra" modeling tools you didn't know you needed, but will quickly become invaluable for all of your projects. Made from high-end martensitic stainless steel, these durable tools are designed to scrape, shave, scribe and bore plastics and other non-hardened materials. Set includes the following four blade types: single-edge, low-angled left-hand blade; double-edge, high-tapered blade; double-edge, high-angle tapered blade with sharp point; and double blade-edge with a long, straight blade on one side and a sharp tip on the other that makes an excellent panel scribe. Comfortable, secure-grip foam handles are color-coded for easy identification. **\$24.95**

Trust Us – You Need These!

#90662 Mini Aluminum Trays, Pack of 50 These 4" diameter trays are useful for an incredibly wide variety of applications, including mixing epoxies, putties and paints, holding glue, weathering powders, and hardware, cleaning small parts, and so much more. Depending on the project, you can easily clean and re-use, or simply discard and grab a new one. Once you try these, you'll find them to be so versatile that they will become an indispensable addition to your shop. **\$18.95**

Our Magnetic Clamps are Perfect for Model Structure Assembly

Set of 4 Clamps

A Micro-Mark Exclusive!

Set of four paired magnetic squares for assembling precisely aligned 90-degree angles. Works with both laser-cut wood and plastic. Separate the magnets, position on opposite sides of the two pieces to be joined, snap together and apply your glue. Suitable for multiple scales. Includes instructions. Minimal assembly required.

#91163 Magnetic Assembly Squares by Scientific **\$39.95**

Build it Better with the "Right Clamp"

Parts held by Right Clamp's thumbscrew adjustable foam-lined jaws are held gently, yet securely at a perfect 90° right angle to each other. A slot in the clamp's rear frame lets you apply glue to parts while they're being held in the clamp, ensuring parts won't move out of position before the glue sets. Overall length: 3". Clamping surface: 1-1/2" long x 3/8" wide (2 places).

#83044 Original Right Clamp \$39.95

F. #60929 Aluminum clamp with steel spring. 2-1/2" long with 1/4" capacity. Jaws are designed to hold odd or irregular shapes as well as flat, smooth shapes. All metal construction makes them ideal for holding parts together while soldering. Can also be used as a heat sink. Set of 5. **\$11.95 2 or more sets \$8.90/set**

G. #60928 Nickel plated steel clamps with vinyl coated cushion grips. 1-3/8" long with 3/16" capacity. Ideal for holding small, flat objects and for keeping ship model rigging lines taut during assembly. Set of 5. **\$14.95 2 or more sets \$11.60/set**

H. Vise-Grip® Locking Pliers in Miniature Sizes

These small, lock grip pliers are perfect for all types of miniature work. They're fully adjustable and hold fragile items securely without crushing and the long nose pliers will get into tight spots like no other lock jaw pliers can.

#14565 Curved jaw with wire cutter, 4-1/2" long, 1" capacity. **\$19.95**
#14564 Long nose with wire cutter, 5-1/2" long, 1-1/2" capacity. **\$24.95**

J. Cross-Locking Clamps for Ship Modeling and Miniature Work

Miniature spring clamps hold small objects tightly together while soldering, gluing or positioning. The weight is just right for keeping ship model rigging lines taut while glue dries. 2-1/4" long, 1/4" capacity. Smooth jaws won't leave marks. Six per package.

#60903 Cross-Locking Clamps (6 per pkg.) **\$14.95** 2 or more pkgs. **\$12.95/pkg.**

K. Super Hand Vise

Six grooves cut into the jaw surfaces let you securely position and hold wire while you shape and assemble. Useful for holding other metal, plastic and wood shapes as well. Turning the hardwood handle tightens the steel jaws. Hole through handle lets you hold long stock.

#85139 Super Hand Vise **\$24.95**

L. Miniature Spring Clamps for Small Assemblies

2-1/4" long clamps with strong springs hold securely while glue dries. Pivot tips adjust to match surfaces being clamped. Molded in 6 neon colors for identification...one even has a key ring. 3/4" capacity with textured sure-grip handles.

#82780 6-piece Hobby Clamp Set **\$9.95**

The More Clamps, the Better!

#82979 Bag of 50 Mini Clamps Contains 50 of the same type of colorful spring clamps above at a bargain price. **\$24.95**

#84984 Bucket of 100 Mini Clamps **Best Buy! \$39.95**

M. – N. Stainless Steel Mini Clamps Hold Where Others Can't

Our spring-loaded mini clamps are ideal for all types of small applications. Jaws may be filed or ground to any shape. Especially good for soldering since solder won't stick.

M. #14532 Smooth Jaw. 1/2" wide, 5/16" capacity. Set of six. **\$9.95** 2 or more **\$7/set**

N. #14533X2 "Alligator" Jaw. 3/8" wide, 3/8" capacity. Set of 12. **\$12.95** 2 or more **\$10/set**

P. Mini 4-Corner Clamps Speed Assembly

Great for clamping miniature picture frames, furniture, model railroad rolling stock and structures, ship models and whenever you need to clamp 4 corners tightly together. They adjust easily to hold items from 1/2" x 1/2" to 5" x 5".

#60716 Mini 4-Corner Clamp **\$19.95** 2 or more **\$17.95 each**

Q. Universal Clamp Holds the Oddest Shapes

This ingenious tool is used to hold small and odd-shaped parts for engraving, carving, sawing, filing, sharpening, etc. The four steel pins adjust to 60 different positions to hold the most irregular shapes. 2" diameter solid aluminum head with steel guide pins and screw. Handle can be removed for locking the head in a bench vise. 5-3/4" long overall.

#21129 Universal Clamp. List \$35.00 ... Our Price **\$24.95**

R. Spreading Plier

A Micro-Mark Exclusive!

Working with a large producer of quality pliers, we designed the body, handles and jaw tips of this spreading plier to provide more comfort and durability with easy spring return action. Hefty handles fit perfectly in the palm of your hand for delicate control and maximum gripping power. The further down the jaw material is placed, the more force that can be applied to your spreading action. Lifetime warranty against manufacturing defects. When fully opened the stepped tips spread to 7/8" and the lowest notch spreads to nearly 3/4".

#87935 Micro-Mark Spreading Plier **\$24.95**

S. 90° Angle Jig Builds Projects Square and True

If you assemble models or miniatures over a building board, you'll wonder how you got along without this unique tool. How it works: Just position the 90° aluminum angle next to the item you want to hold. Then press the push pin through the hole in the angle and into the building board. Place the item against the vertical face of the angle and hold in place with the mini clamp. Designed specifically for holding wing ribs during model airplane wing assembly. They're also ideal for dollhouse furniture, ship model bulkheads and anytime you need to hold a part at 90° over a building board. Set includes six 1" x 1" x 1" aluminum angles, six push pins and six stainless steel smooth jaw spring clamps.

#80344 90° Angle Jigs (Set of 6) **\$22.95** 2 or more sets **\$19.50/set**

T. Toolmaker's Angle Plate Holds Work at a Perfect 90° Angle

Use these hard-to-find tools whenever you want to join or hold two parts edge-to-edge or edge-to-surface at a 90° angle. Also used to square up table saw, drill press or disk sander tables. Precision cast with machined faces and edges.

#60713 1" x 1" x 1" **\$14.95**

#20123 2" x 2" x 2" **\$23.95**

#60626 3" x 3" x 3" **\$28.95**

(one of each size) List \$67.85 **\$49.95 SAVE!**

U. Solid Brass Miniature Bar Clamps

The best clamps you can own for clamping small wooden boxes, dollhouse miniatures, model railroad structures and rolling stock, ship models, model airplanes, clock kits, and more. Beautifully made of solid brass at an unbeatable price.

#14256 12" long bar clamps, approx. 10-1/2" clamping capacity. Set of 2. **\$24.95**

#60103 7" long bar clamps, approx. 6" clamping capacity. Set of 2. **\$24.95**

#14257 4-3/4" long bar clamps, approx. 3-3/4" clamping capacity. Set of 2. **\$24.95**

#60396 Ultra-mini brass bar clamps with knurled tightening screws for delicate control. 3-3/4" long, approximately 3" clamping capacity. Set of 2. **\$24.95**

V. Use Vacuum Power for Hard-to-Hold Parts

Unique tool uses vacuum power to hold and position small parts. Simply press the button on the 6" handle to create suction. Then, press again to release. Includes two rotatable extension tips (straight and angled), four rubber suction tips (1/8", 1/4", 3/8", and 1/2" dia.), and a convenient pocket clip. **#82304** Hobby Pal Deluxe Vacuum Tool **\$24.95**

Micro-Mark mold-making and resin-casting materials are provided in practical, user-friendly quantities for maximum efficiency and exceptional results. These professional-grade products are easy to use and easy to master, unlocking a world of possibilities for all makers. There is no limit to what you can do!

One-to-One mold-making products are easy to mix and easy use for exceptional results

One-to-One / Express

- 6 minute pot life; 30 minute cure time.
- 2.6 lb. kit contains approx. 32 fl. oz. total material. Blue color; platinum cure.

#86226 \$44.95

One-to-One products are economical general purpose mold rubbers that are easy to mix: Simply stir equal volumes of A and B together and pour. Use your molds again and again to make multiple resin castings, even those with slight undercuts. De-airs without vacuum.

One-to-One / Rapid

- 30 minute pot life; 4 hour cure time.
- 3.2 lb. kit contains approx. 32 fl. oz. total material. Blue color; tin cure.

#82083 \$39.95

#90529 **Silicone Anti-Skid Bench Protection Mat** Two-sided 14" x 24" lab-quality mat provides a smooth, non-stick work surface for a wide variety of applications. Includes embedded magnets to hold small parts and components. Dishwasher-safe. **\$49.95**

General Purpose Casting Resins

Make parts fast...
and faster

CR-300 Quick-Cure Casting Resin

- 1 minute pot life; 15 min. de-mold time.
- 2.4 lb. kit contains approx. 32 fluid oz total material. Cures to white color.

#81544 \$38.95

CR-600 Casting Resin

- 7 minute pot life; 30 min. de-mold time.
- 2.4 lb. kit contains approx. 32 fluid oz total material. Cures to white color.

#82057 \$38.95

ColorCast is the ideal resin for making detailed castings in color

ColorCast Pigmentable Casting Resin

- 3 min. pot life; 15 min. de-mold time.
- 2.4 lb. kit contains approx. 32 fluid oz total material.

#82133 \$35.95

ColorCast has the same properties as our water-thin CR-300 resin, but cures to a transparent neutral-amber color that lets you cast-in color by adding pigments (available separately).

Ten-to-One Mold Rubber is excellent for complex molds and casting thin sections

Ten-to-One / High Tear-Strength

- 45 minute pot life; 24 hour cure time.
- 2.2 lb. kit contains approx. 28 fluid oz total material (2 lbs. A/0.2 lbs. B). Tin cure.

#82663 \$49.95

Special formula is ideal for making durable molds, even those with thin sections and/or deep undercuts that put extraordinary stress on mold rubber when castings are removed. Mix 10 parts of A with 1 part of B by weight* and pour into mold box.

*#83825 **Digital Scale** is ideal for measuring #82663 Ten-to-One High Tear Strength Mold Rubber! **\$29.95**

High-Strength CR-900 is perfect for making thin, detailed castings

CR-900 High-Strength Casting Resin

- 20 min. pot life; 16 hour de-mold time.
- 2 lb. kit contains approx. 26 fluid oz total material.

#82659 \$39.95

CR-900 attains extra-high levels of strength and rigidity needed for very thin castings (less than 3/16"). 1:1 mix parts A and B. Cures to near-white color. Reaches ultimate strength in 48 hours.

Improved platinum cure RTV Silicone Putties are the fastest, easiest ways to make molds

RTV Silicone Mold Putty

- Maximum mixing time is 3 minutes; total working time is 8 minutes; cure time is 30 minutes.

Each 1 lb., 2-part kit contains approx. 11 fluid oz total material. Platinum cure. In order to provide maximum versatility for makers, we now offer our easy-to-use, 1:1 mix ratio RTV Mold Putty in 3 different Durometer (hardness) levels. The higher the "Duro" number, the harder the rubber mold when cured. Delicate patterns require the flexibility of lower Duro putties to prevent damage to both the pattern and the casting when making the mold and when de-molding. The best results for harder, stiffer patterns designed to produce straight, strong castings are achieved with higher Duro putties. Our RTV Putties capture exceptional detail when casting with resins, plaster, wax, low-temp metals and more. **\$38.95 per kit**

#91141 RTV Silicone Mold Putty 25 (soft)

#91144 RTV Silicone Mold Putty 35 (med.)

#91142 RTV Silicone Mold Putty 50 (hard)

#91144JP Micro-Mark Jig Putty 35 (med.) safely and securely holds fragile, delicate, and irregularly-shaped items while you drill, sand, file, engrave, saw, paint, etc.

Expand Your Casting Creativity with these Specialty Products from Smooth-On

#88551 **Rebound™ 25 Mold Rubber** is an easy-to-use platinum-cure silicone rubber which self-thickens for making brush-on molds of almost any model. Perfect for subjects with deep undercuts, can be applied vertically without sagging, and cures with negligible shrinkage to a soft rubber mold. 4 thin layers are all that is needed. 20 minute pot life; 6 hour cure time. 2 lb. kit. **\$39.95**

#88558 Smooth-Cast® 326 Colormatch Pigmentable Resin

This fast-cast, 1:1 mix resin was developed specifically for adding color pigments to achieve true color representation. Formulated "color neutral," small amounts of pigment will yield accurate, vivid colors using 50-Strong® pigments. 9 minute pot life; 60 minute cure time. 1.9 lb. kit. **\$29.95**

MICRO-MARK CASTING RESINS...

Are user-friendly, water-thin, odorless, and pour easily, resulting in perfectly formed, bubble-free castings. Just mix equal volumes of A and B together and you are ready to go! Each resin product provides excellent reproduction quality, and can be painted, sanded, sawn, filed, tapped, milled and drilled. These resins are compatible with all mold-making materials, including latex, clay and RTV silicone, and may even be used as a super-strong glue for bonding metals, soft woods and plastics. Resistant to fuels, acids and most chemicals when cured, non-tacky, and with no oily residue after curing like other casting resins. Each resin product includes complete instructions.

Our Complete Resin Casting Starter Set Has Everything You Need in One Convenient Package

#82698 **Complete Resin Casting Starter Set** includes one each of the following:

- ONE-TO-ONE / Rapid Mold Rubber
- CR-600 Casting Resin
- Rubber-to-Rubber Mold Release
- Modeling Clay
- Mixing Set
- Rubber-to-Resin Mold Release

Set ships by ground to 48 contiguous U.S. only.

Value \$126.50 ... Our Price **\$99.95**

#90791 Smooth-On EpoxiCast 690 Clear Casting Resin is an optically clear casting epoxy, ideal for making a rigid, crystal-clear finished product. EpoxiCast 690 may be colored with SpectraLuce color tints. Mix ratio is 10 parts A to 3 parts B by weight. Recommended casting thickness 2"/5 cm max. 5 hour pot life; 24 hour cure. 2.2 lbs. total material; 2 lbs. part A and 0.60 lbs. part B. **\$59.95**

Casting Your Own Metal Figures, "Minis," Fittings, Accessories and More Has Never Been This Easy (and Fun)!

Taking the idea of a metal foundry and reducing it to desktop-size, our Mini Melting Pot is ideal for casting your own metal figures, "Minis," components, accessories and more. This unit is also perfectly suited for tinning wires to create clean, strong solder joints. With a footprint of only 6" x 3.5" and 2.5" high, our self-contained, free-standing melting pot features a built-in heating element capable of producing temperatures from 100°F to 600°F, temperature control knob, and a 2" diameter x 1" deep boiler, all enclosed in a compact metal housing with non-slip rubber feet and a 53" power cord which plugs into standard household outlets.

#91014 Micro-Mark Mini Melting Pot \$29.95

These User-Friendly Casting and Mold-Making Materials from **SMOOTH-ON** Provide AMAZING Results for Props, Special Effects and More!

#88555 FlexFoam-IT!™ X is ideal for a wide variety of special effects props including rocks, bricks, swords, knives, hammers, etc., plus scenery, cushions, and so much more. Mix 1:1, pour into a mold, and FlexFoam-IT quickly expands approx. 6x, then cures to a solid, yet flexible white foam. 50 second pot life; 2 hour cure time. Ventilation and safe handling required. **\$28.95***

#88559 Smooth-Cast™ 6SD Semi-Rigid Urethane Resin cures quickly to a semi-rigid plastic that offers excellent abrasion and impact resistance. 1:1 mix ratio and low viscosity. Suitable for roto-casting and tinting. 2.5 minute pot life; 15 minute cure. 1.9 lb. kit. **\$29.95** For best results, use with **#86627 Ease Release 2831** **\$38.95***

#88560 Smooth-Cast™ ONYX™ SLOW urethane resin cures at room temperature to a deep black, hard, solid plastic. Ultra-black and darker than competitive black resins, ONYX can be polished and buffed to a high gloss shine. And, unlike other black resins, ONYX is mercury-free. 1:1 mix ratio with very low viscosity. 5 minute pot life; 90 minute cure time. 2.2 lb. kit. **\$32.95**

#88556 Ecoflex™ 00-20 is a versatile, easy-to-use platinum-catalyzed silicone. Certified Skin Safe, cured Ecoflex™ is very soft, super strong and may be stretched to many times its size without tearing, then rebound to its original form without distortion. 1:1 mix ratio. 30 minute pot life; 4 hour cure time. 2 lb. kit. **\$39.95**

#88557 Dragon Skin™ 10 FAST is THE time-tested, versatile material for creating everything from amazing skin effects to medical prosthetics to production molds. Soft, super-strong and very stretchy, cured Dragon Skin™ 10 is Certified Skin Safe. Infinite color effects can be achieved by adding Silc Pig™ or Cast Magic™. 1:1 mix ratio. 8 minute pot life; 75 minute cure time. 2 lb. kit. **\$39.95**

#88550 Free Form™ AIR Lightweight Epoxy Putty This low-odor, low-shrinkage 1:1 mix putty is unique and easy to use. Strong and rigid, but so lightweight it will float when cured. It can be pressed into a mold, sanded, shaped, drilled, tapped, machined and routed. Dries to gray. Accepts any paint and may be tinted with 50-Strong® pigments. 1.8 lb. kit. **\$39.95**

Our Micro-Mark Cosplay Construction Materials, Tools and Tool Packages are Innovative Game Changers You Won't Find Anywhere Else

Micro-Mark MTP™ Moldable ThermoPlastic is the Ultimate Heat-Formable Construction Material

MTP™ captures far more detail than Worbla when pressed in a mold

What non-toxic, solvent-free material cuts easily with a scissor, is self-adhesive and forms like magic with heat, can be layered, carved, sculpted and even laser-cut, and has virtually zero waste because scraps can be reincorporated and reused? Micro-Mark MTP™! Imported exclusively for Micro-Mark, our MTP™ (Moldable ThermoPlastic) is the same material professional costumers and prop makers from Broadway to Hollywood rely upon for creating the most realistic, highly-detailed, rigid, light-weight and extremely durable simulated armor, weaponry, props, sculptures and more. Sand color, 1 mm thick sheets.

ALL MICRO-MARK MTP™ SHIPS FREE!

Helmet made with CosFoam™ and MTP™

These light-weight, wearable fantasy horns are made of Micro-Mark Foam Clay and painted with Micro-Mark Acrylics.

#91069 Micro-Mark Foam Clay, 500 g Light-weight, sculptable, moldable, and intuitive, Micro-Mark Foam Clay can be used to create almost anything. Ready-to-use right out of the bag, you can tear off a piece and get to work. Sculpt it freehand or with tools, press it into a mold or onto textured surfaces, roll it out and cut it into shapes. This non-toxic, odor-free, non-staining material does pretty much whatever you want. Once dry, it can be painted, weathered, glued, etc. You can also build fresh Foam Clay onto existing creations. Just keep in mind that the material will shrink a bit as it dries. Trial and error experimentation will yield the best results, but the fun factor begins as soon as you open the bag. **\$9.95**

#84433K Thermoplastic Workstation Package Use the foot switch to turn the heat gun on and off while your hands are busy shaping and forming. Silicone Mat allows you to press and shape thermoplastic without sticking. **\$59.95**

#89204 Cosplay Mini Belt Sander Package This is the most efficient tool you'll ever use to contour, smooth, and create the finest beveled edges in EVA foam. Set includes Mini Belt Sander, 12V Transformer, 80 and 120 grit sanding belts. Step up to the best! **\$164.95**

#89297X2 Plasti-Dip is what the pros use to coat EVA foam pieces before applying paint. Matte black; TWO 11 oz spray cans. **\$22.95** Ships by ground only.

#89094 Micro-Mark Cosplay Airbrush Super Value Package Chosen for its value, versatility, ease of operation and near-silent running, this high-quality package brings together our own Dual-Action Airbrush (trigger controls both airflow and line thickness) and the Whisper Air Compressor. Ideally suited for cosplay, this impressive set works equally well for creating professional paint jobs on armor, weaponry and more, and for flawless application of special effects and costume makeup. Value \$180.00... Our Price **\$169.95**

#89206 Micro-Mark EasyFlo™ Contact Cement Dispenser Set eliminates the mess, waste and overwhelming fumes while applying contact cement to EVA foam. Use for the neatest, cleanest joints you've ever made! Set of five 4 oz bottles with caps. **\$11.95**

#89205 Micro-Mark MagiCut™ EVA Foam Scalpel Package provides surgical precision and 10 times the amount of clean, smooth cuts in EVA foam vs. ordinary hobby blades. Includes ergonomic handle and 10 carbon steel no. 11 scalpel blades. **\$14.95**

#90468 Cosplayer's Ultimate Guide to EVA Foam, by Beverly Downen Turn your wildest costume dreams into reality! Whether you are a master-level cosplayer or brand-new to making costumes and props, this is the ultimate reference guide to using different kinds of EVA foam and other up-to-date materials. Make epic costumes, accessories, props, and other amazing projects! **\$29.95**

NEW!

#91136 Armor Up! Thermoplastics, by Christopher Tock This first volume in the Ultimate Cosplay Encyclopedia series includes everything you need to know about working with plastics and synthetic materials. From basic to expert-level tutorials, key professionals guide you to create the base piece and polish the finished product with techniques on modifying, color, heat forming, and detailing with modern materials. When heated, thermoplastics harden to form a firm shell. Cosplay swords, shields, and more have a high-quality look and feel with the modern materials and pattern-making covered in this great book. **\$29.95**

Flitz Polish Does It All!

Micro-Mark Tip for railroad modelers:
Polishing railheads with Flitz promotes electrical contact and protects against corrosion for months.

Flitz is the universal polish that cleans, shines and protects aluminum, stainless steel, brass, copper, chrome, gold and silver. It's also an excellent fiberglass cleaner, and it restores painted finishes as well. Use Flitz paste anywhere; especially on vertical surfaces and other places where a liquid could drip, spill or run.

#60436 Flitz, Polish Paste 1.76 oz \$11.95

#86638 Flitz, Liquid Polish, 7.6 oz \$17.95

#91150 Micro-Mark Performance-Pro Cleaning & Polishing Cloths, Pack of 3 Throw away all those t-shirt scraps, old socks and tattered towels – these cloths clean and shine like a champ! Micro-Mark Performance-PRO Cleaning & Polishing Cloths are woven from the finest double-sided premium quality microfiber material. Soft texture creates sheen and luster when used to buff surfaces. Lint free cloths remove dust, dirt, fingerprints, grease and oil and leave a streak-free finish on most surfaces. Tightly interlocking weave and generous 16" x 16" size make them perfect for transporting your prized models to shows, meets and conventions. Durable, washable and reusable. Pack of 3 cloths. **\$15.95**

If You Can Imagine It, You Can Create It – with Hot Wire Foam Factory Cutting and Sculpting Tools

Unleash your creativity! There has never been an easier way to sculpt anything, from scale model railroad scenery, to 1-to-1 architectural elements to larger-than-life-size creatures and more. With these easy-to-use tools, inexpensive, ordinary light-weight foam can be cut, shaped and transformed into virtually anything you can dream up. There has never been a quicker, more cost-effective way to bring your vision to reality. And, with our variety of finishing products, the pieces you create can even be made to withstand the elements outdoors.

#87709 Pro Model 5-In-1 3D Deluxe 24" Table Kit Need to do scroll cutting, routing, milling, and lathe cutting? You will get all that and more in this ultimate multi-function professional foam cutting system. Kit includes 3D Deluxe 24-Inch Table • 3" Hot Knife, Sculpting Tool, Precision Engraver and Freehand Router • Variable-Heat Pro Power Station • 11.5" Vertical Blades; allow unlimited length horizontal cuts • Ultra-fine 8" Precision Blades; slice foam paper thin • 10" Router Blades; can be bent with fingers to any shape • Ribbon Blades for cutting foam moldings • Stationary Fence for controlled slicing • Unique Traveling Fence for controllable complex angles • Second horizontal rod for overhead milling operations • Instructional DVD • Printed instructions. **\$349.95**

#87637 4-In-1 Pro Model Kit with Variable-Heat Pro Power Station One of the most popular foam cutting tool kits – not only

See our website for our full line of individual Hot Wire Foam Factory tools, finishing supplies, accessories and more!

because it's a great value, but because it's got everything you've ever needed for your foam projects, big or small. Kit includes 3" Hot Knife, Sculpting Tool, Precision Engraver and Freehand Router • Power Station • 85-minute Hot Wire Foam Factory DVD • Large, sturdy carrying case • Printed instructions. **\$209.95**

This extra power allows the use of a larger diameter wire that you pre-form into any desired shape. Kit includes L-shaped Scroll Table • Stationary Fence for precision cuts and paper-thin slicing • Traveling Fence for complex angle cutting and for shaping cylinders and cones • 4 Pro Scroll Blades • 4 Precision Pro Scroll Blades • Variable-Heat Pro Power Station • Instructional DVD • Printed instructions. **\$149.95**

Self-Powered Economy Hot Wire Tool for Basic Foam Shaping

Hot wire slices up to 5" deep into styrene foam board up to 4" thick. Comfortable handle has spring-loaded trigger for on-demand instant heating. Includes 2 contoured rods, 2 adjustable collars, .010" diameter wire, and 120VAC plug-in transformer.

#82104 Economy Hot Wire Foam Cutter \$39.95

#82115 Extra .010" diameter cutting wire (4' long) \$5.95

Portable, Powerful Mini 3 Gallon Wet/Dry Vacuum is a Must-Have for Every Shop

Versatile and lightweight, the Micro-Mark Mini 3 Gallon Wet/Dry Vacuum not only has plenty of cleaning power to keep your shop neat and dust-free, it does double duty as the power source and waste-free grit collection unit for your MicroLux Grit Blaster (#82775, sold separately). Includes: vacuum head unit with integrated top-carry handle, tip-resistant collection tank with integrated locking handles and 4 free-rolling wheels, and water-protected On/Off switch, plus 1-1/4" x 53" flexible hose with twist-lock connector, two 16" extension tubes, floor/upholstery head, 2-in-1 crevice nozzle with brush, and reusable dry filter. Vacuum is approx. 16" tall x 12" in diameter; 8.5 lbs. **#90533 Micro-Mark Mini Wet / Dry Vacuum \$74.95**

#81064 Mini Vacuum Attachment Set All the mini attachments you need for cleaning even the most delicate items in areas where a regular vacuum cleaner would never fit. Set includes adapter, straight and curved extensions, oval brush, round brush, crevice tool and 36" long x 1/2" dia. hose. Fits any standard-size vacuum with 1-1/4" fittings. **\$9.95**

For even greater versatility, miniaturize your vacuum further with the optional **#81064 Mini Vacuum Attachment Set**

Make Your Own Decals the Easy, Inexpensive Way

Create your own railroad names, logos, stripes, road racing emblems, stained glass windows, signs, aircraft and military markings and other custom artwork faster and at a fraction of the cost of custom decal services. Copy any pre-printed design, use any computer drawing program, or create your own artwork with ink and paper. Then, print out your artwork onto the blank decal paper using a computer printer or copy machine. Our decal paper works like any other water-slide decal. Just cut out the decal, dip in water, and slide it into place on your project. Use clear decal film for most lettering and graphics; use white decal film when white is needed as a background color. Each sheet of decal paper is 8-1/2" x 11". Complete instructions included. *Note: Decal Papers have been tested in most brands of printers, but the user must determine compatibility with their own equipment.*

See our website for more information, instructions, and a video demo on producing and applying your own decals using Micro-Mark products.

Decal Finishing System is the "Solution" for Perfect Decaling

Decal application can make or break an otherwise flawless model. Put decals on properly, and they become one with the surface of your model for ultimate realism; put them on wrong, and your model is ruined. Give yourself the professional's advantage with our Decal Finishing System. Made by Microscale Industries, this Micro-Mark Exclusive Set includes one ounce each of: Micro Set, to soften decals and improve adhesion or to remove decals; Micro Sol, to "melt" decal film onto irregular surfaces; plus Micro Flat, Micro Satin and Micro Gloss non-yellowing, water-based top coats for that perfect final finish. See our website for individual refills.

#88676 Decal Finishing System \$29.95

#86791 Inkjet Decal-Making Super Value Package includes: Clear Inkjet Decal Paper (5 Sheets), Glossy Lacquer Fixative Spray (3 oz), Squeezers, Decal Scissors, 2 Sponge Applicators, Flat/Smooth Decal Tweezers, Decal Finishing System, Palette, Golden Eagle Paint Brush (#4, Flat) **See website for full details** Value \$78.85 ... **Super Buy \$59.95***

Add Raised (3D) Rivet Heads and Other Details to Any Surface...Easily, Quickly and Economically!

We've developed a way to produce realistic scale-size rivet heads and other surface details, 3-dimensioned and contoured, on the surface of our blank decal paper. To use, simply cut out and apply like any other water-slide decal...it's that easy! Apply to virtually any material under or over paint. Each package contains over 108 square inches (**2 BIG decal sheets**) of several different rivet patterns in both straight lines and curves, plus bonus louvers and grillwork. Although described below as for HO or O scales (typically for model railroad applications), they are useful across numerous scales. Made in the USA.

#84985 HO Scale Rivet Decals \$18.95

#84987 O Scale Rivet Decals \$18.95

#84781 Adhesive Transfer Tape Clear acrylic, reverse wound, pressure-sensitive adhesive on a densified kraft paper liner. Apply, then peel off the liner to leave only the adhesive on the surface. Bonds a wide variety of similar and dissimilar materials with no mess or clean up. **One 36 yard roll, 3/4" x 2.0 mil thick. \$17.45**

#85847 Decal Fix by Acrylics Vallejo is a dull-finish clear acrylic coating specially formulated to hide the edges of decal film. Apply with a brush after the decal has dried. Set of two 17 ml (1/2 oz) dropper-top bottles (1 oz total). **\$8.95**

#86891 Scale Motorsport Decal Magic Setting Solution is biodegradable, non-toxic, and won't harm painted surfaces. 1 ounce wide-mouth, no-tip jar. **\$7.95**

Squeezers...Perfect for Decals

These precision surgical scissors will cut out decals cleaner and closer than anything else you've ever tried.

#81204 Squeezers \$32.95

Decal Blotter

#85821 Decal Blotter Sponge tip gently blots away excess water and helps position decals without damage. **Set of 2. \$11.95**

Decal Tweezer

Decal Tweezer for perfect decal placement. Stainless steel. 4-1/2" long. **#60907 \$8.95**
#88588 Titanium Plated \$12.95

The Professional Way to Decal

#89670 Micro-Mark Decal Application Station This handy desktop tool makes it neat and easy to apply decals by keeping everything contained in one compact, convenient place. Just pour some water into the bottom well, then use the built-in handle to lower the platform and dip the included foam sponge in the water. Raise the platform and place your decal on the moistened sponge until the carrier releases, then slide the decal into place on your workpiece. Also includes a handy non-marring plastic tweezer that stores behind the handle and non-slip rubber foot pads to keep the station from sliding while you work. Takes up only 7" x 3-1/2" (x 2" tall) of space on your workbench. **\$14.95**

GRAFFITI IT!

#88568 Micro-Mark Graffiti Decal Set Colorful, bold graffiti is part of the modern landscape and adds that extra level of realism to your models and scenery. Our unique, custom designed Graffiti Decal Set provides an impressive array of 32 different designs and 3 different sizes - 194 individual decals in all - spread over four 8-1/2" x 11" sheets of our clear waterslide decal paper. Decals are provided ready-to-use, so all you have to do is snip, dip and slip into place on your model! Includes instructions. Use for any scale. **\$24.95**

#29100 Tamiya Panel Line Accent Color gives scribed panel lines and recesses a more realistic appearance of depth. This pre-mixed black enamel paint is diluted to the ideal viscosity for easy application with the included bottle cap brush. Once dried, any excess may be cleaned up with enamel thinner. **Sold in a case of six 40 ml bottles. \$44.95**

Tamiya "Work Stand" Turns Any Table Top into a Complete Model Builder's Workstation...Instantly!

The 12 x 18 inch work surface incorporates a well for decal water and a holder for paint brushes, plus storage space for paint bottles, glue and more. The fully adjustable overhead arm is equipped with 6 brilliant LEDs and a large 2x magnifier to provide extraordinary viewing of your model during construction and finishing. Optional spring clips (our #83828) fit into slots in the base to hold parts during assembly and painting. Work surface can be fitted with a cutting mat (sold below). Convenient carry handles let you clear the table without disturbing your work-in-progress. Made of sturdy engineering polymers with a crystal-clear acrylic lens and ON-OFF switch for lamp. Includes rubber feet to protect table surface.

#83827 Tamiya Work Stand \$159.95

Base size: 17" wide x 14-1/2" deep. Nominal overall height: 12". Magnifier size: 6" wide x 4" deep. Battery for lamp (4 D-cells), cutting mat, tools, model and supplies not included.

Optional Accessories

#36133 8-1/2" x 12" Self-Healing Cutting Mat \$24.95

#83828 Spring clip part holders (Pkg. of 8) \$14.95

Micro Sprue Cutting Plier

Micro-Mark Modeler's Micro Sprue Cutting Plier is the perhaps the most versatile tool you will find for removing plastic parts from their trees. Low 10-degree cutting angle makes the cleanest flush cuts, even in the tightest locations. Super-sharp, ultra-thin blades minimize parts breakage and shear the most delicate sprues with zero distortion and stress-free cutting action. Unique stop-pin limits opening action as desired and spring return handles have the just-right feel of a finely-tuned instrument. Durable blades have a hardened cutting edge. For plastic sprues only.

#88288 Micro Sprue Cutting Plier \$24.95

Fujiya Cutting Plier is Like a Samurai Sword for Plastic

Through our exclusive partnership with Fujiya of Japan, Micro-Mark is proud to offer this exquisite cutting plier for the first time in the USA. Backed by over 90 years of exceptional craftsmanship, Fujiya tools are hand-finished and honed to perfection by skilled technicians. Fujiya tools are inspected for flawless alignment prior to packaging.

#87609 13" Super-Sharp Sprue Cutter Surgically clean slicing action glides through sprues with virtually zero stress, leaving the cleanest parts we've ever seen. For use with soft plastics such as styrene ABS, and other modeling thermoplastics up to 3/16" dia. Overall length: 5-1/4"; jaws are 3/8" long. **\$27.95**

Tamiya Basic Tool Set for Plastic Models and Crafts

Set contains the basic, indispensable tools for model and craft work. A pair of side cutters for plastic, angled tweezers, small Phillips and flat head screwdrivers, a craft knife and a file; all neatly packed in a handy plastic case.

#90635 Tamiya Basic Tool Set \$29.95

Panel Scribe for Plastic Models

Use for making realistic-looking recessed panel lines on models. Other scribes just move the plastic so you get a mound on the side of the line like a plowed field. Ours actually removes a thin hair of plastic without distorting the plastic. Made of stainless steel with a knurled no-slip handle. **Has scribes on both ends so it will last twice as long.** Will work equally as well on half-hard brass and aluminum. 1/4" dia. x 6" long.

#60728 Panel Scribe
List \$24.50 ... Our Price **\$18.95**

#90034 Tamiya White Modeling Putty Praised by modelers for its high quality and ease of use, Tamiya's white-colored putty fills holes and seam lines, can be used on plastic, wood, or metal; and can also be diluted with lacquer thinner for a wide range of applications. Each aluminum tube contains 1 oz (32 grams) of putty. **Set of two 1 oz tubes. \$13.95***

Tweezer-Like Nipper Desprues the Tiniest Parts

A gentle squeeze is all that's required to safely separate even the tiniest molded part from its sprue. Finely-ground double-honed tips reach into the tightest locations and flush cut the plastic so that further clean-up is not required. Custom made for Micro-Mark of the highest-quality satin-finish stainless steel. For use on plastic sprues only.

#82393 Despruing Tweezer \$19.95

Inkjet Decal-Making Super Value Package

Everything you need to make your own custom decals.

Package includes: #82272 Decal Paper for Inkjet Printers (5 Sheets) • #82858 Acrylic Gloss Fixative Spray (6 oz) • #81204 Squeezers Decal Scissors • #85821 Sponge Applicators • #60907 Flat/Smooth Decal Tweezers • #88676 Decal Finishing System • #81742 Palette • #60416 Golden Eagle Paint Brush (#4, Flat).

#86791 Inkjet Decal-Making Super Value Package
Value \$98.65 **Super Buy \$59.95***

Cut Plastic Faster, Cleaner, Safer

#82131
Plasticutter **\$7.95**
2 or more **\$5.95 ea.**

Tri-Edge Seam Scraping Tool

There are others available, but this is the only one we've tested that really works! No other tool smooths glue seams or removes parting lines and flash better than our Tri-Edge Seam Scraping Tool. The 3 super-sharp cutting edges are precision ground tool steel. The scraper is held firmly in the finely contoured lacquered handle. Has a 3" long tapered tip scraper blade and 4" long handle. Also deburrs aluminum, brass and other soft metals.

#89334 Tri-Edge Seam Scraper \$15.95

Special Chisels Easily Remove Unwanted Plastic Details

Upgrade plastic models by removing unsightly, out-of-scale molded-in details sometimes included by manufacturers. The hand-ground cutting edge easily removes unwanted details and the sturdy, non-slip handle gives you precise control over cutting force. Made exclusively for Micro-Mark of polished, surgical-quality stainless steel, these chisels are also useful for mini woodworking projects. Approx. 6-1/2" long. **Note: The outer edges of the chisels may be rounded slightly with fine sandpaper or a honing stone to prevent gouging of surfaces in surrounding areas.**

#80893 Plastic Modeler's Chisel, 4 mm wide cutting edge **\$21.95**

#82709 "Tight Spot" Plastic Modeler's Chisel, 2 mm wide cutting edge **\$21.95**

Flush Cutter with a New Angle

Micro-Mark's uniquely designed End Nipper has a cutting edge that runs **across** the narrow tip of the plier,

not along the sides of the jaws. The nipper is used "straight-in," not from the side, and the cutting edge is less than 1/8" wide, so it fits in tight places. Sharp, durable cutting edges cut flush with the surface, so cleanup is not required. Rubber-coated handles provide a comfortable grip. Cuts off pins* that protrude up to 3/4". Overall length: 5-1/2". Precision made exclusively for Micro-Mark by Xuron.

#85916 End Nipper \$26.95

**Designed for use on soft brass pins; not for use on harder materials, such as steel or music wire.*

#88064 Electric Plank Bender Place your strip on the wooden form and heat it by moving the plank bender over it several times, creating a perfect curve. Set includes soldering iron handle with round metal head, plus a wood pattern with 2 different curves. Made by Model Shipways. List \$43.74 ... Our Price **\$36.99**

Pin Collars...A Unique Way of Holding Parts During Assembly

Pin collars are special fittings that lock into position on straight or T-pins. They hold parts in place during assembly when there is no room for traditional spring, bar or screw-type clamps. Set includes 20 collars, 20 Allen head cap screws, a ball-end hex key that works at an angle for easy access, plus instructions for use. Collars are 1/4" dia. Use with #14318 T-pins (below) or similar.

#84419 Pin Collar Set \$16.95

2 or more sets \$14.50 per set

#14318 T-Pins, package of 50 \$7.95

Special Plier Makes Pin Insertion Trouble-free

Another Micro-Mark Exclusive!

Our custom-designed Pin Insertion Plier drives micro-size pins without the troublesome bending and kinking that occur when using a regular plier. Unique slotted jaws with grooved tips let you securely hold a pin near its pointed end for kink-free insertion. After the pin is started, re-grip it and push again. Then use the flat tip of the plier to push it home. Comfortable rubber handles let you work for hours. Made by Xuron.

#85282 Pin Insertion Plier \$26.95

#81844 Mini Nails, ideal for use with above. 3/8" long x .020" diameter (pkg. of 100). **\$6.95**

The No-Fuss Way to Push the Tiniest Pins and Nails

Beautifully crafted and easy-to-hold, our Push Hammer eliminates the hassle of driving tiny nails and pins with a conventional hammer. Simply insert the nail or pin head-first into the spring-loaded barrel and push for straight, lightning fast results every time. Made to Micro-Mark specifications of machined brass and steel with hardwood handle. Overall length: 7".

#83228 Push Hammer for pins with head diameter up to 3/64" **\$18.95**

Recommended pins/nails: #81844 and #14315. See our website.

#83227 Push Hammer for nails with head diameter from 3/64" to 3/32" **\$16.95**

#20124 5-piece Probe Set

Surgical quality probes have hundreds of uses for model makers, crafters, jewelers, miniaturists and more. Excellent for manipulating model ship rigging, hooking springs and for ceramic detail work as well. Polished and hardened stainless steel with needle-sharp points. 6" long. **\$19.95**

Excel Ship Modeler's Deluxe Tool Chest

#81504 Ship Modeler's Tool Set

includes: #1 and #2 knife handles, #5 knife and razor saw handle, scribing awl, needle nose plier, aluminum miter box, tweezers, sanding block and wedge, razor saw, 3 drills, 4 gouges, 15 knife blades and fitted wooden chest. List \$86.55 ... **\$64.95**

Plank Bending Plier Forms Perfect Curves in Wood, Plastic and More

This well-designed tool will bend wood strips without special fixtures, hot irons or soaking in water. One jaw is ground to a triangular edge, the other is flat. When you place a strip of wood between the jaws and squeeze the handles, the triangular jaw crimps a V shape into the back side. Since the other jaw is flat, the opposite side of the strip stays smooth. The tighter the crimps, the tighter the curves. Works on stock from 1/32" to 3/32" thick x 3/4" wide x any length.

#60379 Plank Bending Tool \$29.95

"Big Eye" Threads Needles, Deadeyes & Blocks with Ease

No more struggling to get thread through all those tiny holes when building ship models. The pointed end pierces fabric, so it's also a great tool for rigging sails. 2" long. Eye opens to 1/4".

#81009 Big Eye (Set of 3) \$8.95

#80587 Beeswax Bars

Use for removing fuzz on ship model rigging thread. Also used to lubricate bits and saw blades for cutting metal. Three 1 oz. bars per pkg. **\$8.95**
2 or more \$7/pkg.

Mini Fingers for Ship Modelers

This set of rigging tools makes ship modeling's most difficult task a lot easier. You'll be able to retrieve, hook, position, tie, gather, maneuver, hold, fish, pull and reach rigging lines on any part of your model. Slim, 7" long handles keep your fingers away from lines you've already installed so you won't have to retighten lines and make repairs. Especially useful for tying lines to belaying pins, cleats, bitts and eye bolts. Steel shanks are set in smooth lacquered artist brush handles.

#60378 5-piece Rigging Tool Set
List \$30.00 ... **Our Price \$24.95**

Triple Duty Foam Cradle for Ship Models

Our custom-designed Ship Cradle holds models while you build, decorate or repair. Concave shape holds large scale models and, with the included insert, adapts to hold small-scale models as well. Use convex shape when you want to work on the entire hull. Safely tip the model in the cradle for access with the superstructure installed. Durable CNC-cut foam rubber holds hulls from 2-3/4" to 5-1/2" (beam) gently, yet securely. Includes all 3 pieces. Overall size: 7-1/2" wide x 3-1/2" high x 15" long. Convex shape: 3" wide.

#85819 Model Ship Foam Cradle
List \$24.95 **\$19.95 3 or more \$14.95 ea.**

Loom-A-Line Makes Ship Model Rigging Fast, Neat and Easy

#60529 Loom-A-Line rigging jig helps make perfectly spaced lines with equal line tension and neatly tied knots. Off-the-model assembly lessens the chance of damage to pre-installed parts. Made of high impact plastic with 30 brass studs. 10" x 8". Instructions included. **\$19.95**

The Best Way to Clamp Ship Model Planks

These all-metal planking clamps hold ship model planks tight against the bulkhead until glue dries. The unique stepped clamp design holds the plank against its full surface so you'll get neater, tighter fitting joints, and the knurled aluminum finger grip makes turning a lot easier. The micro-size wood screw is press-fit into the finger grip and will hold in bulkheads as thin as 1/8". 1-1/4" long x 1/4" diameter. Set of ten.

#60926 Planking Clamp Set
\$24.95
2 or more sets \$19.50/set

The Best Vise for Ship Modeling

From hull construction to rigging, this special vise's cast aluminum base with ball swivel positions your model at the best angle for easy access to all components. Holds plank-on-frame and solid-hull models by the keel; holds plank-on-frame models by the bulkheads for "upside-down" planking. Two molded nylon vises hold keels or bulkheads up to 1/2" thick and are adjustable along the 15" aluminum bar to accommodate almost any size model. Can be mounted to workbench with wood screws (not included) or with C clamps (included).

#60530 Ship Modeler's Vise
\$92.95

The easiest way to form planks yet! Simply arrange one row of the adjustable formers to the desired shape and soak planks in hot water. When pliable, place the planks against the first row of formers and slide the second row against the planks to hold them tightly in place. When dry, planks will be permanently formed. Forms up to 5 planks at a time. Made of water resistant acrylic with 10 nylon formers and cap nuts, zinc plated screws and no-slip silicone rubber feet. Approx. 5" x 5" with 1" high nylon formers.

#60663 Plank Forming Jig. List \$30.00 \$24.95

Plank Forming Jig

Ship Modeler's Tight Spot Rigging Scissor

Special scissor has cutting edges that pass between ratlines, backstays and other standing rigging for easy trimming of interior lines that other scissors can't reach. Serrated teeth grip thread for no-slip cutting. 8" overall length (narrow part of "neck" reaches 4-1/2"). Made of surgical stainless steel.

Scientific is Proud to Continue the Manufacturing and Sales of Iconic Laser-Art Model Kits

Scientific/Micro-Mark has been an innovator in the hobby industry for over 96 years. Beginning with model airplane kits in 1928, the company has grown and evolved, designing and producing unique tools, laser-cut model kits and structures, 3D printed scenic accessories and more for model railroaders and diorama builders. Sam Krutt, the owner/operator of Laser-Art, said that he and his wife Marilyn "appreciate the loyal customers of Laser-Art for over 25 years and we are confident that Scientific will continue the legacy."

LASER-ART
by **SCIENTIFIC**

All kits include laser-cut basswood components, plus Tichy doors, windows and roofing. Assembly required. Paint and glue sold separately.

A. Laser-Art by Scientific Creamery Model Kit The prototype for this pre-1950s creamery was built at Clark's, near Campbell Hall, NY, on the New York, Ontario & Western Railway. Similar designs could be found throughout the Northeast United States. A perfect match to our HO Scale Ice House Kit, #41681 (see below). **#41680 HO Scale \$69.95**

B. Laser-Art by Scientific Ice House Model Kit This traditional-style ice house is based on a New York, Ontario & Western Railway design. Build it as a perfect match to our HO Scale Creamery (#41680, sold separately above), or put it to use as a stand-alone trackside structure on your layout. **#41681 HO Scale \$49.95**

C. Laser-Art by Scientific Madison Cape House Model Kit Homes like the Madison were built during the post-WWII housing boom. Classically styled yet modern, these small capes dot the landscape from coast to coast. Can be built with or without roof dormers. **#41811 N Scale \$29.95 #41611 HO Scale \$39.95 #41411 O Scale \$59.95**

D. Laser-Art by Scientific Drayton House Model Kit The Drayton House is based on a plan in the 1917 Aladdin Homes catalog. This quaint 2-bedroom bungalow-style house was one of Aladdin's smaller pre-fabricated designs. **#41824 N Scale \$19.95 #41624 HO Scale \$24.95 #41424 O Scale \$44.95**

E. Laser-Art by Scientific Thelma House Model Kit Featuring a distinctive covered corner front porch, the Thelma is another classic compact house from the 1917 Aladdin Homes catalog. This 5-room bungalow-style pre-fab is at home anywhere across the country. **#41819 N Scale \$24.95 #41619 HO Scale \$34.95 #41419 O Scale \$54.95**

F. Laser-Art by Scientific Tucson House Model Kit Another in our series of pre-fab houses from the 1917 Aladdin Homes catalog, the compact Tucson is at home on any layout. Kit replicates an early 20th century 2-story, 5-room Dutch colonial-style house. **#41839 N Scale \$24.95 #41639 HO Scale \$34.95 #41439 O Scale \$54.95**

G. Laser-Art by Scientific Company House Model Kit This replica of an early colonial farmhouse-style home is a basic 2-story, compact, single-family structure, featuring three upstairs bedrooms with the kitchen, dining room and living room downstairs. **#41805 N Scale \$24.95 #41605 HO Scale \$34.95 #41405 O Scale \$54.95**

H. Laser-Art by Scientific School House Model Kit This replica of a quaint small town school house can also be used as a library, community hall, or any number of other similar structures. **#41844 N Scale \$34.95 #41644 HO Scale \$44.95 #41444 O Scale \$64.95**

Innovative Photo-Realistic Building Papers Look and Feel Like the Real Thing

Micro-Mark again leads the way with innovative building papers that reproduce not only the look, but also the texture of brick, cinder block, stone and roof shingles on a scale model. Our building papers are exact scale photographs of real surfaces that have been printed by a special process that raises the surface of each individual stone above the "mortar" lines. No building paper or plastic sheet produced to date offers such realism! And for quick, easy application, we've applied a peel-and-stick adhesive to the back of the sheet. Accepts weathering powders and airbrushed colors for aging-effects.

\$9.95/pkg. of four 6" high x 9" wide sheets 2 or more packages (same #) \$7/pkg.

HO Scale 3D Roof Shingles in NEW Shapes and Colors!

Laser cut paper roofing shingles allow you to achieve a wide range of looks. 4" x 9" sheets offer limitless flexibility with easily removable rows that can be used by themselves, or even cut into individual shingles! Choose from 3 styles shown. **\$20.95/pkg.**

High-Power Rare Earth Super Magnets Have Dozens of Uses

With massive pull force of nearly 6.5 lbs. each, these small but powerful Super Magnets are sure to find their way into all sorts of projects where a strong and durable – yet removable – closure, holder, etc. is needed. Magnets are only 1/8" thick x 1/4" wide x 1/2" long and magnetized all the way through. Great for cosplay and prop-making applications too!

Railroad modelers: Repower, restore and improve performance of old motors by replacing original Alnico magnets with Super Magnets!

Ships by ground to 48 contiguous U.S. only.

#84991 Super Magnets (Pkg. of 20) \$19.95

Scientific Makes it Easy to Add Stairs to Your Project

HO scale kit includes six stringers, 8-1/4" long; O scale kit includes three stringers, 9" long. Each Stair Stringer Kit also includes plenty of stripwood for making stair treads. Simply cut treads to size for either single-width or double-width stairs.

Note: Our #84046 Chop-It, available separately, is ideal for this task.

#89817 HO Scale Stair Stringer Kit \$14.95

Animation Brings Your Projects to Life

What makes this high-torque, permanent magnet, DCC-compatible, 12V variable speed motor special? It is reversible*, which means you have so many more options for creating special effects and visual interest. Lifetime-lubricated motor is designed to provide consistent, reliable service and long life. Depending on power supply, you can set it to run from 6 to 60 rpm. 1:76.8 reduction ratio • 5/32" dia. x 3/8" long output shaft • 0.47" drive shaft hole • 1" dia. x 2" long, plus 9/16" output shaft and collar. *When wired with #83257 Toggle Switch.

#87360 Animation Motor \$24.95

#83257 Toggle Switch (3-Pole, Double Throw) \$6.95
10-24 pcs. **\$4.95 each** 25 or more **\$3.45 each**

You Need 'Em, We've Got 'Em!

Because these HO Scale Metal Coupler Covers are always in demand and not-so-readily available, we decided to produce our own to make it easy for you to get them and add them to your rolling stock fleet. Like their hard-to-find counterparts, Scientific's Metal Coupler Covers fit virtually all coupler styles and manufacturers. Use them to snap and lock couplers tightly into place, securing the connection between railcars. Provided in packs of 20. Couplers and rolling stock are not included.

#90246 Metal Coupler Covers, HO Scale, by Scientific, Pack of 20. \$15.95

Static King™ makes it easy to model large grassy areas and ensures static grass is applied vertically. The Static King has an ergonomic design and can be placed upside down for easy filling. It comes with different sieve sizes for creating a varied effect using 2 to 12 mm lengths of Static Grass. A divider allows the use of multiple colors and sizes at the same time for modeling realistic fields and other tall grasses.

#88638 Woodland Scenics® Static King™ Static Grass Applicator \$99.95

#88677 Woodland Scenics® Model-Vac™ Model-Vac™ has the ideal suction velocity to pick up loose landscape materials and debris while leaving your layout's glued items behind. Plus, Model-Vac is easy to empty and won't damage excess material, making it suitable for reuse after collection. Though designed primarily for use on model railroad layouts, this ergonomic cordless vacuum is super-handly in tight areas and wherever standard vacuums are too big to go. Vac requires one 9V battery (not included). **\$24.95**

Rail Nipper Track Cutter Cuts Track Clean and Square

Our rail nipper makes short work of making clean, flush cuts through model railroad track up to code 140. Spring-loaded steel jaws are hardened for a lifetime of rail-cutting. Thick rubber handles are comfortable to use.

#86461 Rail Nipper Track Cutter \$19.95
3 or more **\$15.95 ea.**

Note: Picture shows the correct way to cut rail.

NMRA Gages Assure Trouble-Free Operation of Your Model Railroad

These gages help you to make adjustments to rolling stock and track to end annoying derailments. They'll check for accurate track and switch dimensions, wheel spacing, flange depth, tire width and wobble. Gages also check for structure clearance so trains can pass without hitting tunnel portals, station platforms, scenery, etc. These are precision stainless steel measuring instruments manufactured by the National Model Railroad Association. Instructions included.

#80752 HO Scale Gage \$27.95

#80753 N Scale Gage \$29.95

#84632 O Scale Gage \$29.95

Track Inspection Cars Find Trouble Spots

The crystal clear floor of the car gives you the best view of wheelset movement through switches, around curves, and at rail joints, allowing you to quickly detect the location of problem spots which can hamper the smooth operation of your trains. Assembles easily in a few minutes. Includes trucks, hardware and instructions.

#82414 HO Gauge Track Inspection Car with metal wheels \$15.95

#82120 N Gauge Track Inspection Car with metal wheels \$14.95

Block Micro Nails for Model Railroad Track

#70210 3/4" 300/pkg. \$7.95 2/\$5 pkg.

The Scientific HO Camera Car is Back & Better Than Ever!

A Micro-Mark **Exclusive!**

Bring your layout to life with the Scientific HO Camera Car! This newly upgraded version enables you to enjoy first-person viewing of your miniature world on your smartphone or tablet. Includes free downloadable app that allows the camera to connect to your device over 2.4G WiFi for live viewing of your layout and the ability to record video and still photos to a micro SD card (not included) for later playback or transfer to other devices. The 4KUHD/1080p HD camera is mounted in a Walther's Mainline® 53' RailGon open-top gondola car equipped with 100-ton roller-bearing trucks, Proto MAX™ metal knuckle couplers and topped with a gravel load. Includes gondola, camera and USB charging wire.

#90154 Scientific Premium HO Scale Camera Car (Modern Era) \$124.95*

Micro-Mark UV Resin System is Designed for Makers

A Micro-Mark **Exclusive!**

Liquid resins that cure with ultraviolet (UV) light provide a fast, economical way to create incredibly clear, glass-like coatings, encapsulations, small lenses and so much more. These versatile UV resins can even be cast in clear silicone molds, and also be used to make strong bonds between materials. Basically, if UV light can reach the resin, it will cure.

Micro-Mark UV FlexCure Clear Flexible Resin and UV HardCure Clear Hard Resin require no preparation and are ready-to-use right out of the bottle. Unlike 2-part epoxy resins, there's no mixing necessary, and very low odor before curing (our UV resins are completely odor-free when cured). Additionally, our UV resins are self-leveling and self-degassing, curing to a smooth, crystal clear, glassy finish with excellent resistance to scratching, staining and yellowing. Because UV resins can only be cured by UV light, our resins have an exceptionally long work time and can be mixed with mica powder, colorants, glitter and more to obtain dazzling finishes. Once your resin is in place and you're satisfied your work is complete, simply apply UV light with our UV QuickCure Portable Resin Curing Station and in minutes your piece is fully cured and ready for use. If you decide you want to add more resin to your workpiece after it has cured, go right ahead. You can build up new layers without any trace. For ultimate versatility, you can also blend FlexCure and HardCure together in different ratios to achieve the desired hardness/flexibility for your project.

#90741 Micro-Mark FlexCure UV Clear Flexible Resin, 100 ml \$13.95

#90742 Micro-Mark HardCure UV Clear Hard Resin, 100 ml \$12.95

With an impressive array of 36 long-lasting UV LED lights, 4 timer settings, integrated fold-away handle and dual USB rechargeable, built-in lithium-ion batteries, our 60 watt QuickCure UV Portable Resin Curing Station gives you the power, portability and versatility you need to cure all of your UV resin projects, at your workbench and on the go. While its interior curing space offers ample room for most projects, its magnetically-attached metal base is easily removed to cure large and oddly-shaped UV resin items that do not fit inside the unit. Once you've created your resin object, choose the cure time that best suits your piece: 30s, 60s, 90s, or 99s low-heat mode, which gradually increases power to prevent crazing and uneven curing of thicker resin applications. Dual UV wavelengths, 365nm and 405nm, provide fast, complete resin curing. A large LED on the top of the unit displays a curing time countdown clock. When time is up, the lights turn off automatically. High-capacity internal batteries allow you to work for up to 8 hours on a single 4 hour charge. Or, work as long as you wish with the unit plugged in. Includes UV Resin Curing Station, detachable metal base, USB charging cable and instruction manual. Overall size: 22.5 cm x 20.5 cm x 9.5 cm.

#90740 Micro-Mark QuickCure UV Portable Resin Curing Station \$69.95

#90759 Micro-Mark "Mr. Mist'r" Spray Applicator
Specifically designed for hobby liquids, our continuous spray, fine mist applicator distributes a powerful, evenly sustained mist of any hobby liquid. The ergonomically-shaped, easy-grip handle and trigger reduce hand fatigue and allow varied pressure manipulation to control spray duration. Apply a quick spritz or a prolonged misting! At a mere 7.8" tall, Mr. Mist'r holds a full 5.4 oz. Tilt it at any angle...even upside-down...to get at those hard-to-reach areas of your layout or diorama. Sturdy and durable, Mr. Mist'r is perfect for our Scenery & Ballast Cement, Railroad Tie & Bridge Stain, Age-it Easy, Hunterline Weathering Mixes, and more! **\$12.95**

#89662 Trains® Magazine

"Union Pacific's Big Boys" is the complete story of the best-known, most-popular steam locomotives ever built, from their origins all the way through the much-anticipated restoration of No. 4014. This handsome hardcover edition, with a foreword by *Trains* editor Jim Wrinn, is the perfect reference book and collector's item! **\$44.95**

#90657 Double-Edge Plastic Razor Blades, 100 Pack Plastic razor blades are excellent at scraping off residue from various surfaces, even glass, without leaving any scratches. Perfect for delicate surface work and removing old, unwanted decals from plastic models. 0.040" thick, package of 100 blades. **\$16.95**

Premium Display Cases by Scientific

See our website for complete details!

#89889 Scientific 18" Premium Display Case. Base: 19-1/4" long x 4-1/4" wide x 3/4" thick. Interior: 18" long x 2-3/4" wide x 3-1/4". **\$79.95**

A Micro-Mark **Exclusive!**

Makes a great go-anywhere precision pinpoint flashlight, too!

Uncouple locomotives and cars anywhere on your model railroad, even in total darkness!

#89536 Micro-Mark UncoupleLITE™ Designed by our Product Development Team and manufactured exclusively for Micro-Mark, UncoupleLITE™ provides the easiest, most accurate way of uncoupling many HO, O, and N scale locomotives and cars (plus some N scale) at any location on your model railroad, even in total darkness. A click of the button sends a brilliant beam of cool LED light through the clear acrylic rod right to the tip of the tool, illuminating couplers with a clarity and focus no other tool can match for precision uncoupling action. To use, simply slide the tapered tip of the tool between the knuckles of the couplers and twist gently, smoothly separating the cars. With a lighted tip length of 4" and less than 1/4" dia. at its thickest, UncoupleLITE is also extremely useful as a precision pinpoint flashlight, providing focused, non-glare illumination inside machinery and confined areas where no other light can go. Includes 4" x 1/2" diameter stainless steel body with push-button on/off switch, removable 4" x 1/4" acrylic light rod, and key ring. Requires one AAA battery, not included. **\$19.95**

#86527 Kadee® No. 590 HO Scale Bettendorf Trucks, with etched-bronze axle wipers and electrical lead wires, pick up electricity from the rails to light cabooses, improve electrical pickup from locomotive tenders, or add auxiliary pickups for sound systems. One pair of HGC plastic trucks. **\$29.95**

Neolube™ Blackens Metal, Lubricates, Improves Conductivity

Neolube is a water-thin graphite-alcohol solution that brushes smoothly on metal surfaces and levels perfectly without streaking. When the alcohol evaporates, a thin, tough, dark matte gray coating is left behind that works like a dry lubricant, a metal blackener and an electrical conductor all in one. Neolube is ideal for creating a realistic appearance while improving electrical contact. 2 fl. oz. jar with in-cap brush. **#83181 Neolube \$27.95***

Grain-of-Rice and Grain-of-Wheat Lamps for Model Projects

#83155

#82590-4C

Grain-of-rice size (3/32" dia. x 3/16" long) lamps are specially manufactured for Micro-Mark with a 12V, 30ma rating so they can be wired directly to the function outputs of model railroad DCC decoders without fear of electronic overload or plastic-melting heat generation (with proper mounting and ventilation). Made of high-grade glass, with long-life filaments and durable 6" leads. Of course, they can be used for all types of micro-lighting applications. 40 lamps per package. **\$49.95/pkg.**

#83155 Grain-of-Rice Lamps, Clear (pkg. of 40)

#83156 Grain-of-Rice Lamps, 4 Colors (clear, red, green, amber; 10 each)

Grain-of-wheat size (1/8" dia. x 3/8" long) bulbs are packed in a 100-piece bundle to save you money. 12-14v. AC/DC, .075 amp. 6" leads. List \$49.95/pkg. Our Price **\$39.95/pkg.**

#82590-4C Grain-of-Wheat Bulbs, 4 Colors (clear, red, green, amber; 25 each)

Transform Rough-Running Locomotives into Smooth Performers with Our Premium Quality Flat Can Motors

High-torque permag motors feature 3-pole, balanced armatures and oil-impregnated bronze sleeve bearings for smooth starting and low-speed running. Narrow profile "flat can" design easily fits into small spaces. Compatible with either straight DC or DCC systems.

See our website for full specifications and diagrams.

The Long-Awaited Truck Spreading Plier is Here!

Manufactured to precise tolerances, these hand-ground, individually produced pliers are designed to slip between opposite ends of the wheel axle and backside of truck journal boxes when the jaws are nearly closed. A special compression spring offers just the right amount of resistance when you squeeze the plier, gently spreading the truck journals apart and causing the wheel set to effortlessly slip from the truck. Re-installation of the wheel set is just as easy. Great for use with our Truck Tuner, available separately below! For HO standard gauge trucks only.

#87936 HO Truck Spreading Plier \$24.95

#87936T Titanium-Plated HO Truck Spreading Plier \$39.95

#90799 N Scale Truck Spreading Plier \$24.95

See Our Website for Details!

Truck Tuner Makes 'em Really Roll

Our Truck Tuner reconditions your HO gauge railroad truck bearings so cars roll smoother with less friction. Simply insert the tool in place of a wheelset and rotate the shank. Truck Tuner's extra-sharp tool-steel cutter reshapes the bearing to the NMRA's recommended 60° contour and cleans out burrs and grime. Repeat for all bearings and your car is ready to really roll. Increases train lengths that locomotives can pull by up to 20%! For HO standard gauge trucks only.

#82838 HO Truck Tuner \$26.95

A Micro-Mark Exclusive!

#87936K HO Truck Tuner & Truck Spreading Plier Set These two tools work perfectly together! Includes #87936 Plier and #82838 Truck Tuner. Value \$47.90 Our Price **\$39.95**

Adhesive foam pads on the back of the housing let you stick a lamp anywhere you need it...

in model structures, cars, boats, planes, trucks, dollhouses. Grain-of-wheat size clear LEDs glow with a bright white color. Overall size: 1/2" diameter x 3/4" high, plus 12" leads for easy hook up. Includes integral resistor for LED operation. Works on 8 to 16 volts DC. Sticks best to smooth surfaces. Package of 20 lamps.

#86557 Peel & Stick LED Lamps (package of 20). List \$39.95 ... Our Price **\$26.95**

Note: Lamps require a power source. If not powered by layout connection, we recommend the optional items below.

Use Our Car Routing System to Operate Your Layout Like a Real Railroad

With our Car Routing System and our instruction booklet (included), you'll learn how to use your railroad models in a manner that truly reflects their realism and capabilities. Our Car Routing System is realistic, flexible, and versatile, and requires no special equipment, such as a computer, to set up or maintain. And it's so widely used, many of your visiting operators will be already familiar with it.

#82916 Car Routing System Starter Pack Includes 100 each car cards, waybills, and bad order slips, 25 locomotive cards, 4 three-compartment bill boxes, plus basic instructions to get your operations started. **\$34.95**

Order refills and extra bill boxes below...

#82910 Pad of 100 Car Cards. Buff color, 2-1/8" wide x 4" high (folded). **\$3.95**

#82911 Pad of 100 Waybills. White color, 2" wide x 3" high, 4-cycled. **\$3.95**

#82912X2 Pack of 50 Locomotive Cards. Gray color, 2-1/8" wide x 4" high (folded). **\$3.95**

Make Perfect Grab Irons for Model Trains, Vehicles and Aircraft

Forget about trying to make grab irons with a plier. Our Grab Iron Bending Gauge is designed to quickly and easily form identical, precisely-sized grab irons from ordinary wire. Simply clamp your wire between the gauge's jaws at the selected size and bend to shape. Made of laser-engraved blackened CNC-machined steel for long life. Bends 21 sizes from .050" to 1.050" in .050" increments.

#84745 Grab Iron Bending Gauge \$49.95

#82839 Spike Insertion Plier

is manufactured with special dies that form perfect T-shaped grooves in the jaw faces. The nose is specially contoured to push spikes home without slipping off and damaging the railhead or ties. Works with all brands and gauges of spikes Z-O. **\$26.95**

#82840 Spike Removal Plier

has special die-formed jaws that grip spike heads securely and make removal easy. Just grab spike head and pull. **\$26.95**

#90976 Micro-Mark Track Bending Plier

Specifically designed to help bend and shape HO and larger gauge track to your desired configuration and curve, making it easier to create custom layouts and track plans. Also adjusts kinks in track that has already been laid. Nylon jaws make smooth bends without marring. **\$16.95**

#88448 Starter Track Plans For Model Railroaders

Perfect for small spaces and beginner layouts, this mix of HO and N scale track plans emphasizes simplicity, flexibility and interesting operation. **\$16.95**

Car Weighting System Optimizes and Improves Model Railroad Performance

Optimizing model railroad locomotive and car weight helps to minimize derailments, increase pulling traction and maximize train lengths for a dramatic gain in model train performance. System includes a high-precision digital scale for weighing cars, 48 self-stick 1/4 oz lead weights, and a chart of optimum car weights based on NMRA specs. Easy to use with scales N - O. Scale features 11 lb. (5 kg) capacity with digital readout in 0.05 oz or 1 gram increments. Includes tare feature and auto shut-off to conserve power. 5" dia. platen.

2-in-1 High-Precision Miniature Digital Level

Measures grades

Carpenter levels are just too clumsy for measuring model railroad track grades and superelevation. So, we encased our high precision digital level in a compact housing that's only 2" square by 1" deep. At the press of a button, the large LCD reads the percent grade from

Measures superelevation

sea level. Embedded magnets attach it securely to cast-iron/steel surfaces for hands-free measurement. Range: 0 to 45°/100%. Readability: 0.05°/0.01%. Hold button remembers last reading. Housing made from durable CNC-machined, satin-finish alloy. Includes 9V battery and auto shut-off battery saver.

#84519 Digital Level \$49.95

3M Scotchlok "Suitcase Connectors" Eliminate the Stripping and Soldering of Under-Layout Wiring

Dubbed "Suitcase Connectors" by expert railroad modelers, these Insulation Displacement Connectors (IDCs) let you connect track feeder wires to main bus (power supply) wires without having to strip or solder. Simply place the connector over the wires and crimp the metal tab with pliers. The tab pierces the insulation and locks the wires together. Snap the lid shut, and you're done! Our IDCs are top-quality 3M Scotchlok brand.

#84022 Suitcase Connectors (IDC #905 Red) for bus sizes #14-18 (max insulation OD .145") with feeder sizes #18-22 (max insulation OD .110"). Package of 25. **\$12.45**

#84023 Suitcase Connectors (IDC #567 Brown) for bus sizes #10-12 (max insulation OD .190") and feeder sizes #14-18 (max insulation OD .145"). Package of 25. **\$22.45**

#84109 Suitcase Connectors (IDC #558 Pink) for bus and feeder sizes #16-22 (max insulation OD .120"). Package of 25. **\$17.45**

#90246 Metal Coupler Covers, HO Scale, by Scientific, Pack of 20 Like their hard-to-find counterparts, ours fit virtually all coupler manufacturers and styles. Use them to snap and lock couplers tightly into place, securing the connection between railcars. **\$15.95**

A Micro-Mark Exclusive!

A. HO Scale E-Z Mate® Magnetic Knuckle Couplers Improve Your Model Railroad's Performance

E-Z Mate® Mark II Couplers are made of brown engineering plastic with steel trip pins and bronze coil springs in the knuckles for long life. Compatible with all brands of knuckle couplers. Medium-length centered shank fits the coupler boxes of most cars.

#83525 HO Scale E-Z Mate® Coupler Standard Pack (12 pair). \$27.95

#83526 HO Scale E-Z Mate® package of 25 pair. List \$52.00 ... Our Price \$44.95

A Micro-Mark **Exclusive!**

The MicroLux® Variable Speed Multi-Saw is a Power Coping Saw And Scroll Saw...All In One!

Perfect for Hobbyists, Jewelers, Crafters and Do-It-Yourselfers!

After 25 years in production, one of the most popular Micro-Mark saws ever offered has been re-engineered, making this already great saw better than ever!

Packed with these great features: Almost twice the stroke length – increased from .200" to .375" (3/8") • Integrated blower device provides a clean view of your sawing line • Elbow-jointed overhead yoke arm provides easy, fast (45 seconds or less) re-positioning of material being sawn; ideal for making complex interior cuts • Larger-size side compartment with tool-less push-button removal mechanism • Easier blade installation for quicker blade swaps • Improved vacuum port attachment design.

This is one of the few power saws in the world that can use coarser coping saw-type blades and ultra-fine blades for the finest cuts you've ever seen...re-designed and sized for hundreds of small projects. Cuts just about everything from balsa to pine, basswood, cherry, walnut, mahogany and other exotic woods to light gauge, non-ferrous materials...copper, brass, silver and other precious metals, aluminum, and plastics. It will even cut styrofoam without shredding or tearing!

Made in Japan for Micro-Mark, Multi-Saw features a 90 watt (1/10 hp) motor which runs on 110VAC household current. Variable speed: 500 – 1,700 strokes per minute. Overall size: 12" high x 13-1/2" wide (with vacuum adapter installed: 9-1/2" without adapter) x 19" deep. Weight: 7 lbs. Table size: 6-1/4" x 6-1/4" cast aluminum with smoothly machined surface. Multi-Saw cuts soft woods up to 2" thick, hardwood up to 1/2" thick, circuit boards and non-ferrous metals up to 5/64" thick.

#87776 MicroLux® Multi-Saw includes 6 premium blades: 2 fine (#80856) and 2 medium blades (#87937) for wood, plastic and metals such as aluminum, brass, silver, gold, plus 2 coarse blades (#80857), primarily for wood cutting; adjustable rip fence; 0–90° miter gauge; 2 C-style bench clamps for mounting the saw on work surfaces up to 1-7/8" thick; assorted mounting screws; extra-long hex key and set-up instructions. List \$260.00... Our Price **\$149.95**

#87947 MicroLux® Multi-Saw Super Value Package Includes #87776 saw, #81387 Easy-Mount Bench Bracket, #87607 "Big Book Of Scroll Saw Woodworking," plus 30 premium saw blades (10 each #80856, #80857 and #87937). Value \$270.70 **Super Buy \$209.95**

Amazing Working Model Kits Look and Function Just Like the Real Machines!

#91165

#91018

#90892

#91017

Appearing as if they just came out of functioning full-size aircraft and motor vehicles, these finely-crafted, precision-cast anodized aluminum alloy and stainless steel model kits assemble into the beautiful replicas you see here. Each of these exciting operating models is powered by a 3.7V built-in lithium battery (included) which sets the internal and external workings into motion. No gluing or painting is required; all components are pre-finished in the dynamic colors shown, and assembly is neat and clean with the provided hardware. Not only do these models offer great educational value in their illustration of how internal combustion engines work, they make excellent display pieces and conversation starters as well. Additionally, each model kit's components are packaged in a handsome metal case, perfect for gifting anytime.

#91165 Teching™ Diesel Engine Metal Model Kit \$369.95*

#91018 Teching™ V8 Engine Metal Model Kit \$649.95*

#90892 Teching™ 4-Cylinder Engine Metal Model Kit \$429.95*

#91017 Teching™ 5-Cylinder Radial Engine Metal Model Kit \$379.95*

219 exquisitely polished parts cast in finely crafted aluminum alloy replicate a scaled-down version of the precision machine sometimes referred to as a kowtow pump, which is widely used for underground oil extraction. This engaging learning tool not only makes a handsome working display piece, it is also the perfect kit for novice builders entering the exciting world of Teching™ metal models. Kit includes all necessary tools, hardware and instructions in an attractive gift box.

#91166 Teching™ Beam Pumping Oil Pump Metal Model Kit \$159.95*

*Each model kit ships by ground to the 48 contiguous United States only.
